The Union Jack now floats trium-

phantly over a continent, a hundred a thousand lakes, double that number of rivers, and no less than ten thousand islands! This stupendous estate enables the Britisher to perform a feat which the native of no other nation can imitatewhele journey. Sailing from England he makes for Halifax, N.S., dashes ross Telephone 499. 51 Brock St. Britain's white cliffs are reached. There is, however, an alternate route after arriving at Penang; thence he can go to Ceylon, Bombay, Aden, Perim, Malta, Gibraltar, and home again. All zones are embraced in the British

Empire, from the icy wilderness of Hudson Bay to the tropical jungles of India. There is scarcely a product of commernot bring forth in its highest perfection. Notwithstanding the diversified elements comprised in this tremendous organiza-tion, the Government, with very are exceptions, maintains order, and there is

no apparent signs of dissolution. Without a doubt the most splendid jewel in the Queen's crown is the Indian Empire, which is equal in size, if we exclude Russia, to to the Continent of COAL Europe. Its population, bordering on three hundred millons, is composed of a variety of distinct nationalities, professing a multitude of religious, practising diverse rites, and speaking different tongues. Official reports states there are over a hundred distinct languages, as apart from dialects, spoken in India. Many of the races are further divided by discordant prejudices, conflicting social usages, and antagonistic material BOOTH

The diversified elements constituting the Indian possessions represent, accord- ALL HOTELS, BATHS AND ing to a late Governor-General, as complicated a social and political organization as has ever taxed human ingenuity to govern and administer. After India comes Canada, and the Australian colonies, which are about to
