KING GEORGE'S STAND.
 Assumes Philosophic Attitude
 And Upsets Many Schemes.

PRINCE GEORGE ENRAGED.

**THE GARIBALDIANS SAY THEY
 WERE BETRAYED.**

The King Has Surprised the Greeks—Finery
 of the Garibaldians Was Stolen—Abas-
 sadors of the Powers Meet—Declara-
 tion against Retrosession of Thessaly
 to Turkey—The League Likely to be
 Revived.

LONDON, June 7.—A fortnight ago every-
 body awaited with confidence news of the
 revolution in Athens and the flight of the
 royal family. Now, confidence is equally
 strong the other way. The fact is that King
 George's philosophic attitude has completel-
 y upset the schemes of the revolutionists
 and disarmed opposition.

"And here I shall remain if you want
 me," said the King, "I am quite willing to
 clear out, bag and baggage. Only say the
 word and I will go aboard a foreign war-
 ship and you can go to the devil, or wher-
 ever your childish folly may lead you."
 This kind of attitude simply non-plussed the
 Greeks, who expected the king to flee in
 despair, or appeal to them, cap in hand, to
 spare the royal feelings.

The crown prince and his brother Nicho-
 las have taken no pains to placate either
 the officers or soldiers. The prince quarrels
 with the former with much apparent
 enjoyment, and bullies the latter. He
 openly expresses the ardent hope that the
 negotiations will quickly terminate in a
 treaty of peace and announces his intention
 to follow his usual course of spending the
 summer on his country estate, as though
 he had been taking part in military man-
 oeuvers instead of at Prince Nicholas,
 then by a correspondent at Thermopylae
 the other day was going about moodily in
 a tunic and torn trousers. His chief de-
 sire was to ascertain why destiny had taken
 him from his books and made him a col-
 onel of artillery. The only man of action
 in the family, the sailor, Prince George,
 has disappeared from view, but his friends
 say that he does nothing but fume and
 rage at the hidden force which tied his
 hands at the critical period, and reduced
 the Greek fleet to ignominious inaction. Rumor
 says that he has quarrelled with his
 father, and would have no compunction in
 taking over the throne.

The last Garibaldians have left Athens,
 and the air of the capital no longer throbs
 with their wallings. On their way from
 the front they did little but shout about
 their shameful betrayal by the Greek com-
 manders. When they reached Athens they
 discovered that they had been robbed.
 Many of them are young fellows of good
 families, whose fond parents loaded them
 with fine raiment and jewelry. They had
 exchanged their finery for uniforms before
 proceeding to the front. What was their
 indignation upon returning to find their
 finery gone. The completeness of the loot
 would have justified the belief that the Turks had
 been in charge of the warehouses. The military
 authorities at Athens protested that there
 was some hideous mistake. The things
 must have been mistaken for war stores
 and sent to front or served out to reser-
 vists when the stock of uniforms was ex-
 hausted. Anyhow they were not where
 they ought to be. Letters with remitan-
 ces were also gone.

CONSTANTINOPLE, June 7.—At the meet-
 ing between the ambassadors of the powers
 and the Turkish minister for foreign affairs,
 Tewfik Pasha on Thursday last at Tophane
 palace, Sir Philip Currie, the British am-
 bassador, M. Cambon, the French am-
 bassador, and signor Pansa, the Italian am-
 bassador, it now appears, made a distinct
 declaration against the retrocession of Thessa-
 ly to Turkey. This attitude of the three
 ambassadors named is regarded as being of
 the highest political importance in view of
 the fact that since the czar's telegram to
 the sultan there has been a marked ap-
 proachment between Russia and Germany.
 Here the opinion is expressed that the in-
 dications point to a resuscitation of the
 league of the three emperors, if that league
 is not already an accomplished fact.

FLOURISHED HIS WHIP.
 This Was All That Occurred in the En-
 counter With Truth's Editor.

LONDON, June 7.—Henry Labouchere,
 the editor of Truth, did not get clear
 of young Brooks on Friday till the young
 man gave him several blows with a horse
 whip. Mr. Labouchere met the assault
 calmly contenting himself with demanding
 explanations of the attack which appears
 to have been only a technical one. The
 explanations requested were given and
 Mr. Labouchere and his assistant
 walked together to the house of commons
 where the editor bade adieu to young
 Brooks, entered the house and made no
 complaint to the policeman on duty at the
 door.

Mr. Labouchere's version of the horse
 whipping was furnished as follows: "When
 I left my residence, a young man advanced
 towards me with a hunting whip and de-
 clared that he meant to murder me. I asked
 who the devil he was, and he replied he
 was the son of Brooks. I told him I
 was sorry for him and his mother but
 that I should advise him not to make a
 fool of himself or to threaten me,
 which would only result in a police cell.
 He flourished his whip, attempted to hit
 me, but he missed me. I then closed with
 the excited youth, and pointed out to him
 the absurdity of his conduct. We talked
 the matter over for a few minutes, then he
 hit and made no further attempt to as-
 sault me."

Only Two Rejected.
 QUEBEC, June 7.—Some of the stories
 about rejections of men of the jubilee con-
 tinent as medically unfit have been much
 exaggerated. The only men rejected have
 been a gunner of the Halifax garrison
 artillery and a private of the G.G.F.G.,
 Ottawa. The guards have sent down a
 new man to replace their private, while a
 man of the 6th battery, R.C.A., has been de-
 tailed to replace the Halifax gunner. The
 Halifax man had a weak lung, and was a
 victim of varicose veins.

Other Merchants.
 May sell four oil cloth, but we have
 sold more than all the others put together.
 We have sold this spring twenty-two, re-
 presenting about twenty thousand yards.
 Can anyone beat that. R. McFaul, sole

ONE OF LINCOLN'S STORIES.
 Fate of the Man Who Tried to Advertise
 Gunpowder at Prayer Meeting.

The following anecdote by Lincoln is re-
 counted by General Horace Porter in his
 "Campaigning With Grant" in The Cen-
 tury. It was told during Lincoln's visit to
 the front at City Point.

In the course of the conversation that
 evening he spoke of the improvement in
 arms and ammunition, and of the new
 powder prepared for the 15 inch gun. He
 said he had never seen the latter article,
 but he understood it differed very much
 from any other powder that had ever been
 used. I told him that I happened to have
 in my tent a specimen which had been
 sent to headquarters as a curiosity and
 that I would bring it to him. When I re-
 turned with a grain of the powder about
 the size of a walnut, he took it, turned it
 over in his hand, and after examining it
 carefully, said: "Well, it's rather larger
 than the powder I have seen in my
 shooting days. It reminds me of what oc-
 curred once in a country meeting house in
 Sangamon county. You see, there were
 very few newspapers then, and the country
 storekeepers had to resort to some other
 means of advertising their wares. If, for
 instance, the preacher happened to be late
 in coming to a prayer meeting, or an evening
 the shopkeepers would often put in the
 time while the people were waiting by
 notifying them of any new arrival of an
 attractive line of goods.

"One evening a man rose up and said:
 'Brethren, let me take occasion to say,
 while we're a-waitin', that I have just re-
 ceived a new invoice of sportin' powder.
 The grains are so small you kin see 'em
 'em with the naked eye, and polished up
 'em with the fine you kin stand up and com-
 he'r in front of one of them grains just
 like it was a lookin' glass. Hope you'll
 come down to my store at the crossroads
 and examine that powder for yourselves.'
 "When we had got about this far, a
 rival powder merchant in the meeting,
 who had been bulling over with indignation
 at the amount of advertising the op-
 position powder was getting, jumped up
 and cried out: 'Brethren, I hope you'll
 not believe a single word Brother Jones has
 been sayin' about that powder. I've been
 down there and seen it for myself, and I
 pledge you my word that the grains is
 bigger than the kumps in a coal pile, and
 one of you, brethren, if you was in my
 future state, could put a bar' of that
 powder on your shoulder and march squar'
 through the sulphurous flames surroundin'
 you without the least danger of an explo-
 sion.'"

DRUNK FROM LOSS OF SLEEP.
 Queer Results of a Scientific Test Upon
 Subjects Kept Awake Ninety Hours.

Experiment to test the effect of contin-
 ued sleeplessness is the latest exploit of
 science.

Professor H. C. Warren of Princeton
 university in a paper describes the find-
 ings of Professor Patrick and Dr. Gilbert
 of the University of Iowa on the effects
 of the loss of sleep. Those who have missed
 their normal rest for several nights in suc-
 cession feel a lassitude and a sort of de-
 pressing interest in life. They behave
 queerly and seem to lose an equitable
 judgment of things. Events seem out of
 proportion and often ordinary occurrences
 appear to go zigzag. This is the sleepless
 "fog," and its hallucinations are as marked
 as those of a man carrying an overload
 of liquor.

Three normal subjects composed of in-
 structors, and hence men not easily sus-
 ceptible to influences, were tested by
 Professor Patrick and Dr. Gilbert. They
 were kept awake for a period of 90 hours with-
 out resort to stimulants or other physiol-
 ogical means. During the four days and
 three nights of the test they were engaged,
 as far as possible, in their usual occupa-
 tions. Their meals were of the customary
 kind and were served at the usual hours.

After the second night the first subject
 suffered curious fancies. He complained
 that the floor was covered with a greasy
 looking, molecular layer of particles, and
 moving particles. They worried him almost
 to desperation. Often this layer seemed
 to him a foot above the floor and parallel
 with it, and it caused him tremendous
 trouble, as he stumbled about and tried to
 step on it. He staggered and tumbled, but
 he couldn't get a sure footing. He would
 try to walk on top of space, thinking the floor
 was a foot above where it was, and when
 his efforts met disaster he seemed sorely
 distressed.

Later the air was full of these dancing
 particles, which developed into swarms of
 little bodies like gnats, but colored red,
 purple or black. They gyrated, it seemed
 to the subject, in great gobs, and he fre-
 quently climbed upon a chair to brush
 them from about the gas. This amused
 him greatly. Especially was he enthrall-
 ed by the various colors in which he saw the
 little troopers as they drove about him in
 countless hordes.—New York Journal.

Unsat Copies For Reviewers.
 It does seem ungracious thus to state it
 and savoring of indolence, but the English
 book reviewers complain of the books they
 receive which are uncut. That important
 person in the big newspaper office, the ex-
 change editor, never could get through his
 onerous labors were his journals placed on
 his table uncut. No man probably ever
 could rely upon a wife or daughter to
 cut the leaves of a book for him, or when
 they undertake the task they will dip into
 the volume, read bits here and there and
 never quite finish the job.

If fully determined, however, to cut,
 the gentler sex never will knife the index
 or preface. Then there is some art neces-
 sary in cutting a book. Impatience, you must
 have proper paper cutters for your wife's
 hairpins is as murderous a tool as is a pen-
 holder, a pipstern or your own index fin-
 ger.

Nevertheless, if the professional reader
 does cut for himself, there are certain ad-
 vantages. If the volume is illustrated, he
 sees the points, and these give clues to the
 contents. Books are not cut by publishers
 for the reason that margins should be re-
 served in case of rebounding, because then
 an additional silver has to be given off.
 Andrew Lang has been most severe, an-
 thematizing publishers who send him un-
 cut volumes.—New York Times.

The Health Value of a Beard.
 Many people are not aware of the bene-
 fits from a health point, derived from
 wearing beards. They are better respirators
 than science could ever make.

The hair of the mustache not only ab-
 sorbs the moisture and miasma fogs, but
 it strains the air from the dust and soot of
 our great smoky cities. It acts also as the
 most scientific manner by taking heat
 from the warm breath as it leaves the chest
 and supplying it to the cold air taken in.
 It is a respirator and a comforter as well,
 so that with a good, thick, bushy beard,
 a man might face a blizzard with impunity.

Moffat and Livingston, the African ex-
 plorers, and many other travelers, say that
 at night no wrap could equal the beard.

WOULD YOU BELIEVE YOUR NEIGHBORS?
 Belleville Citizens Speak in Praise of a Re-
 markable Remedy—Home Testimony
 Right Here in Belleville Is Better
 Than Testimony From Far Off Points

Here is one citizen who testifies to the
 good result of Doan's Kidney Pills.
 Says W. W. Simpson: "My wife has suf-
 fered severely for over a year with pain in
 the back, hot flashes, dizziness, sleeplessness,
 loss of appetite, etc., all of which, I believe,
 were due to kidney trouble.
 "Other medicine she tried failed to have
 a good effect, until she got Doan's Kidney
 Pills. After using them for only one month
 she was completely cured. Needless to say
 I recommend them to all who may be
 similarly afflicted."
 HERE IS ANOTHER.
 J. A. Tonson, the popular professor in the
 Belleville Business College, says: "I
 have suffered very greatly for some time
 with kidney troubles. The use of Doan's
 Kidney Pills has completely cured me and
 I readily recommend them."

HOBBS.
 Honest Methods Ap-
 proved.

**The Free Distribution of Dr.
 Hobbs' Sparagus Kidney
 Pills from the Drug Store
 of E. E. Mitchell, 124
 Princess, Ended Saturday.**

**Hundreds Now Testing
 the Remedy in This City
 and Vicinity.**

WHAT WILL THE RESULT BE.
 Saturday night the distribution of
 free samples of Dr. Hobbs' Sparagus
 Kidney Pills closed at the drug store
 of E. E. Mitchell, 124 Princess street, and
 will go into history as one of the most
 successful events that has ever taken
 place in this city. The frightful num-
 ber of people who are suffering in one
 way or another from kidney troubles in
 this vicinity can only be estimated by
 the enormous number of sample pack-
 ages which were given out on Saturday
 to all interested persons living in this
 city or neighborhood who applied for a
 package of these wonderful pills.

"Dr. Hobbs' representative was seen
 last night at his hotel, wearing a look
 of confidence that betokens the man
 who feels that he knows what he is
 talking about. He said in answer to the
 questions put to him by the reporter:
 "Oh, yes, I know the public are skeptical
 of anything new, especially in the medi-
 cine line. It is reasonable to suppose
 that they should be, for have they not
 been humbugged enough by those who
 place but little value even on death,
 when it comes to the question of gath-
 ering in a few ill-gotten dollars?"

"Dr. Hobbs appreciates all this, and is
 determined that the worth of his medi-
 cine shall be fully known and proven
 before the public is asked to spend a
 penny. What Dr. Hobbs' Sparagus Kid-
 ney Pills are guaranteed to do is to
 cure all kidney derangements.

"Do you know that rheumatism, in
 nine-tenths of all cases, arises from kid-
 ney troubles of one sort or another?
 Any physician will tell you that the
 common origin of all rheumatic trou-
 bles is uric acid in the blood. What
 do you do first, that being the case?
 Go for the cause. Get your kidneys in
 perfect working order, and away will
 go the rheumatism, because when your
 kidneys, whose duty it is to filter out
 poisons and impurities from the blood
 removes the uric acid, the cause of the
 rheumatism will be gone and the
 rheumatism with it.

"Here are some of the symptoms
 which are danger signals, and, in a large
 majority of cases, indicate the onset of
 that most insidious of all maladies,
 Bright's disease of the kidneys: Pains
 in the back and sides, headache, nerv-
 ousness, frequent thirst, hot and dry
 skin, shortness of breath, evil forebod-
 ings, troubled sleep, puffiness of the eye-
 lids, swelling of the feet and ankles,
 loss of flesh, dark colored or scanty
 urine, with deposits of casts, etc., and
 the presence of renal epithelium, tube
 casts and albumen in the urine.

"These are some, not all, of the symp-
 toms of Bright's disease, inflammation or
 congestion of the kidneys, nephritis,
 etc., and these Dr. Hobbs' Sparagus Kid-
 ney Pills are guaranteed to cure."
 For the benefit of persons living at
 a distance from this city, who did not
 call at our store Saturday, Dr. Hobbs
 authorizes us to say if
