Joyville Doings.
JOYVILLE, June 14.—Road work is the
order of the day. The recent showers are
a boon to crops. Fruit of all kinds are
a promising crop. J. Trotter had some sheep
wounded on Friday morning and the dogs
were followed to their homes; there are too
many dogs running at large all this spring
and some of them will be minding if some-
thing is not done with them. The many
friends of Messrs. F. and J. Hunt are
pleased to see them home again. A number
from here are talking about taking in the
excursion to Watertown on the 12th. Last
evening Woodburn church could not
accommodate all the crowd that gathered
to hear Rev. Mr. Miller's farewell sermon
in that place. Visitors: Mr. and
Mrs. A. Johnston, Pine Hill; Mr. and
Mrs. Webb, Sunbury; Mr. and Mrs.
Yarke; H. O'Connell, Miss Allen, Mr.
D. Walker, Mrs. Daniel, Kingston; T.

SHANNONVILLE, June 15.—Miss Carrol-
len, Belleville, is visiting her sister
Mrs. Pagan. Mrs. Kitchener, Toronto, is
at John Liverton's. Mrs. Hayes, Brockville,
is visiting her mother, Mrs. Earle. Messrs.
Morden and Pennock have completed their
merry-go-round and are now open for en-
gagement at any place of importance be-
tween Montreal and Toronto. The vil-
lagers are exhibiting a goodly principle by
patronizing home industry.

Union Footballers Meet.
LAWTON, June 15.—Planting is about
done. On Friday afternoon last a large
number of the young people of this section
journeyed to Battersea to see the football
match between the Union football team
and the Battersea boys. The evening en-
tertainment was slightly hindered by the
rain. Considerable difficulty was experi-
enced in getting the union team to play as
contrary to agreement five men from
Battersea and one from Onychin played
on the Battersea team. The latter team
were about to claim the game when the
players all arrived, and the game began.
Everyone expected Battersea to win, but
they were much surprised to see S. Caverly
for the Union score within two min-
utes of starting. In all five goals were
scored, but owing to slight dis-
putes the referee decided that three went
to the union and two to Battersea, which
is just what they wanted. The Union players
were: Forward, S. Caverly, W. Gordon,
F. Brady, F. McGrath and F. Hunter;
half-backs, W. Akeley, B. Aykroyd and
H. Gibson; backs, S. Arthur and A. Mc-
Donald; goal, F. W. Aykroyd. Owing to
the fact that the boys have been always
hospitally entertained at other places
where they have played, they have re-
ceived a rather bad impression of Batter-
sea, but no doubt a better acquaintance
will make matters right.

A Cottage Burned Down.
ARNEY, June 15.—There have been a
few days fine and warmer; crops are grow-
ing well. Farmers are about through with
planting, although some of the low lands
have not been cropped, being too wet.
Rev. G. Kenny and family, have re-
sented a rather bad impression of Meth-
odist minister at Dunstons, Ontario.
Wesley Hughes, who lives in the cottage on
the Point (part of the farm belonging to
Thomas Andrew), by whom he is employ-
ed) has his family increased by the
birth of a son; mother and child are doing
well. At the court of revision last week

they were, were having been reported de-
scribed, were dismissed, except his own
appeal. Some persons are

THE Findings From Various Points in Eastern Ontario—What People Are Doing And What They Are Saying—The Events of Interest to All Classes.

BARNETVILLE, June 15.—The villagers are sincerely grateful to the members of the present camp while practicing on the range for their kind care in driving cattle out of danger, which have several times escaped from those taking care of them. It is hoped the successors to the present battalions will be, as considerable. The traffic on the road to the camp reminds one of Broadway. Though hundreds of volun-
teers are passing and repassing every evening through the village, not an act nor word of rudeness or disorder is on record. Mrs. (Captain) Ryan and son, of Peterboro, are guests at Mrs. Byrns' hotel during the captain's stay at the camp. A very large congress of delegates to the Liberator of Mad-
rasa river, in this vicinity, is at an end for this season. John McCoy has finished his driving on Snake Creek and paid off his men last week. The session for driving was a very favorable one, there being abundance of water, and he is reported to have done very well on his contract.

DESIGN, June 14.—The weather during the past week has been warm and pleasant, and vegetation has made great progress. Nearly all meadows and most of the early sown grain look well, and only the lowest places have suffered from the cold and the frequent rains. The prospects for all kinds of fruit seem also to be good. A great deal of western corn is being planted here this season and an unusually large amount of buckwheat is being sown. One driver driving on the Liberator of Mad-
rasa river, in this vicinity, is at an end for this season. John McCoy has finished his driving on Snake Creek and paid off his men last week. The session for driving was a very favorable one, there being abundance of water, and he is reported to have done very well on his contract.

**LAST Tuesday evening the boys had an exceptionally lively time and a number of the Raglan boys were unable to stand their ground at the camp, but took to flight, some of them to the creek and some went to the house of Mr. McCoy for a place of refuge, while the Denbigh and Vennacher boys remained boss of the situation. Paul Stein finished, last Saturday evening, sawing the supply of saw logs and timber he had on hand and has an unusually large amount of sawn lumber of every descrip-
tion on hand this season. The local de-
mand for building material of any kind is, however, very limited this year on account of the still-prevailing hard times and the scarcity of money. Albert Steir has opened up his tailoring establishment again, but is not kept quite as busy as he would like to be. The mining excitement has reached Denbigh at last. A number of local and outside prospectors are looking for gold, and nearly every man on the carries his pockets full of mineral specimens more or less (mostly less) valuable.**

REMAINS INTERRED YESTERDAY.
Death of William Darius Haff—Gone to
Manitoba.
NAPANEE, June 16.—The remains of the late Mr. Peter Huffman, who died in Brighton on Sunday last, were brought to Napanee yesterday and interred in the eastern cemetery. The deceased's maiden name was Maria Fralic, daughter of the late John Fralic, of Morven, and was at the time of her death in her eighty-sixth year. She was born, brought up and spent her girlhood days in Morven, and the old settlers yet. Her husband the late Peter Huffman was at one time proprietor of the Paisley house here. She leaves a large family of grown up children, Mrs. Thorn, Mrs. Caldwell, Mrs. Lane, William and Robert, of Brighton, Mrs. McDonald, St. Louis, and Thomas, of Rochester, N.Y.
On Friday last a sudden death occurred at Hay Bay, when William Darius Haff, brother-in-law of George Cliff. Miss Ella embarks on the sea of matrimony to-day with Mr. Palmer, an estimable young man, of Northport, Ont.
Little Miss Daisy Bruton entertained a few of her girl friends to tea last evening in honor of her twelfth birthday. Mrs. T. A. Osborne and family left yesterday for Winnipeg, Man., to join her husband, who has a lucrative position with the C.P.R. in that city. Lillie Mait left yesterday for a visit with friends in Chicago. John Lowry and Fred Thompson left yesterday for Manitoba with a carload of fine farm horses.

W. T. Crouch has purchased the butcher business from Bicknell & Co., on the market square, and is prepared to supply customers with choice meats. Charles Hamby, who went to the Kingston hospital week ago, is reported to be recovering from an abscess in the side, is reported to be improving nicely since the operation. His many friends will be pleased to hear this. Lena Graham spent a few days in Belleville this week visiting friends. Mrs. K. J. Strong leaves to-day to spend the summer with friends in Brockville.

Victory For the Steamboat Company.
Utica, N.Y. Press.
The Alexandria Bay steamboat company, which owns the steamers Island Belle and New Island Wanderer and runs in opposition to the Thousand Island Steamboat company, consisting of a suit through its attorneys, Smith & Smith vs. the New York Central & Hudson river railroad company, to have it determined that they had a right to use the railroad dock at Clayton and to recover \$20,000 damages for diverting traffic from one company to another. Mullin, Griffin & Walker, of Watertown, were attorneys for the defendant. Mr. Griffin demurred to the complaint on the grounds that it did not state facts sufficient to constitute a cause of action. Justice McLennan sustained the demurrer, and his order has now been affirmed by the appellate court with costs. All the judges concurred. This is a victory for the Thousand Island Steamboat company, which handles all the railroad business at the Thousand Islands.

Oldest Kelving Beverages In Europe.
Lloyd's London Weekly.
The king of Denmark, who is thirteen months older than our queen, is the oldest reigning sovereign in Europe. Through the queen's reign in a year she has reigned much more than half as long; but that is longer than all the others, including King Leopold, who only succeeded to the throne of Belgium in 1835—two years after Christian IX's accession. He has been a singularly tactful and prudent monarch, intensely beloved by his subjects, and carrying a weight in the councils of Europe far greater than the most powerful kings would justify. No family is so extensively allied with the royal houses as his; the emperor of Russia is his grand-son, the king of Greece his son, the heir to the English throne his son-in-law.

BARNEY BARNATO DROWNED.
SOUTH AFRICA "DIAMOND KING" TOOK HIS LIFE.

He Committed Suicide by Leaping Overboard—The Body Recovered—Sketch of His Career.

London, June 14.—A special despatch from Funchal, Island of Madeira, off from the arrival there to-day, of the British steamship Scot, which left Funchal on June 13, for Southampton, it was announced that Barney Barnato, the South African "Diamond King," who was among the passengers had committed suicide by leaping overboard. His body was recovered.

The Daily Telegraph which announces the death of Barney Barnato while in passenger on the Scot says on the authority of a new agency that he fell overboard.

Funchal, Island of Madeira, June 15.—The following additional details have been received from the Scot which returned to improve after leaving Cape Town. He was never left alive and some one was constantly detailed to watch him. Yesterday afternoon, when he seemed to be in very good spirits and was walking up and down the deck on a passenger's arm. Suddenly Barnato asked his companion to tell him the time. Before he received a reply he wrenched it from his arm and jumped overboard. The fourth officer jumped overboard after him immediately, but he failed to save the life of the South African speculator, as heavy seas were running and the Scot was steaming in the rate of seventeen knots an hour. As soon as possible the steamer was stopped, a life boat was lowered and pulled to the spot where the two men were last seen. The fourth officer was rescued in an exhausted condition and later the body of Barnato was recovered.

In many respects Barnato was the most remarkable of the Englishmen who have taken part in the development of South Africa, two only have secured a world wide reputation. These have been Cecil Rhodes and Barnett Isaac, more often and less respectively styled Rhodes and Barnato, an assumed name. He began his life in South Africa by exhibiting a trick donkey about twenty-five years ago. He was then about twenty years of age.

Barnato was an English Jew and illustrated in an extraordinary way the financial genius of his race. Up to the time where his fortune began to decline he made money by leaps and bounds, and in 1885, when his zenith was reached, it is estimated that he controlled interests worth in the neighborhood of \$100,000,000. It was the fashion to call him the richest man in the world. At that time he was virtually the king of the London money market. In the autumn of 1895, when the London "Times" in the share of the comparatively new gold mines of the Transvaal, South Africa, was at its height, every man, woman and child in London, with money to invest, invested it in Kimberley. The craze was the most periodically passed away after only a few months. For months it was the controlling passion in London, and it was scarcely less rampant in Paris and Berlin. The shares were valued in hundreds of figures, and fortunes were made in a day. The centre of this tremendous financial outburst was Barney Barnato, and he was conservatively estimated at that time as worth between \$100,000,000 and \$150,000,000. His original assets was a bank originally capitalized at \$125,000,000. In a very few months its capital stock rose in value to \$45,000,000. He was born in London. But little is known as to his early life, except that he received his instruction from a private tutor instead of attending the public schools. He was a younger son, and at the age of twenty went to South Africa, then a much more savage country than it is now, and but scantily populated by Englishmen or persons of English descent, to seek his fortune. The Kimberley diamond mines were just beginning to be productive. With his few pounds of capital he began to deal in diamonds in a small way. He was clear and prudent. Everything he touched he made successful. In five years he had earned enough in the retail sale of diamonds to purchase shares in the mines from which his merchandise had come. Before another five years had become very large, and when the Transvaal gold fields were discovered he had profits to invest in them.

In 1886 Barney Barnato was a definite money power in South Africa, and began to speak as the rival of Cecil Rhodes. Unlike in personal ambition, the two men stopped in the opposite direction. In 1888 it was agreed that their interests could be best conserved by a union and the joint company was the result.

While in Africa he married and had three children, two sons and a daughter.

Noted Bank Thief Captured.
New York, June 16.—John Price, forty-five years old, whom the police were in a noted bank and sneak thief, was captured here at the request of chief of police Moore, of Washington, D.C. He is wanted there for stealing a satchel belonging to the Metropolitan street railway company, which contained \$1,652, March 30th last.

In March, 1884, Price, who is generally called "Johnny" and "Bill" Coleman and "Rafo" Miner, robbed a bank at Augusta, Ga., of \$2,000,000 in cash. Coleman was sentenced to seven years, as was also Price, but the latter was pardoned in 1887. Price, on July 30th, 1895, stole a satchel in Albany worth \$30,000 in bonds in it. It took him from F. D. Beck, a manufacturer of agricultural implements. He was sentenced to nineteen years and three months, but he was pardoned in 1895.

A Family Bereaved.
WOODSTOCK, Ont., June 16.—Misfortune has overtaken the family of Noah Pritchard, of the 5th line of East Zorra, with overwhelming force. On Friday the bird girl went out to put a horse out of the grain. She went up the animal, and had just put her hand on its mane when it wheeled, and was the last she remembered of what occurred. When found she was unconscious, with a gaping wound in the side of the head, where the beast had doubtless kicked her. The next day, Saturday, their little three-year-old boy was found floating in the river in a foot or so deep, drowned. The elder brother had gone over to Andrew Kaufmann's, the next neighbor, and it is supposed the little fellow had attempted to follow them, and in crossing the river had fallen in the water and was drowned.

Miss E. Cobb, 12 E. Cambridge street, Toronto, says: "I have been much benefited by Miller's Iron Pills. I would not be without them, they are pleasant to take and save doctor's bills." For sale by E. C. Mitchell.

PRODUCE AND PRICES.
The Standard Rates Governing the Local Markets.

KINGSTON, June 15.—In certain lines there is a marked decline in prices furnished by dealers. The drop is more marked in staple articles, flour being quoted at twenty cents a barrel less than last week's rates. Grain quotations are also very low, and very little of the commodity is being marketed locally.

The abundance of the tri-weekly market continues good. Large quantities of garden truck are offered for sale, but the consumption is much less than the supply. A review of the market will be found subjoined:

Butter and eggs—Fresh butter in prints continues to sell at from 15c. to 17c. a lb. Railed or packed butter brings from 12c. to 15c. a lb. New laid eggs sold at 5c. and 10c. a dozen.
