THE P. M. EDITION. MAKE FINE WOOL. A New Grade Found in The North-west—Seeking Better Terms. WINNIPEG, Man., June 24.—Thomas Caldwell, of Clyde Mills, Lacombe, Ont., left for home yesterday. He is much interested in the production of wool in the north-west territories and says the crossing of Montana ewes with Shropshire and other choice breeds has produced a quality of wool superior to much now put on the market in Ontario, being softer and finer. Large quantities of the wool are now of home-grown and ladies' dresses, which for beauty of color and evenness of texture the best Scotch mills find it difficult to surpass.

Penitentiary Investigation. The Harbord report of the house of commons debate on Monday is highly entertaining reading. About thirty-seven pages are taken up with discussion upon the Kingston penitentiary and the Royal military college, making the pamphlet highly interesting reading to Kingstonians. The solicitor general after stating that there was "no reason at the present time to justify a warrant Metcalfe's removal" added "Wood, Sullivan, O'Donnell and Weir must go. Devlin undoubtedly must go; he has already gone."

The Mighty Flood. PRINCE ALBERT, Assa., June 24.—The north branch of the Saskatchewan has risen ten feet since last night, and continues rising at the rate of two inches an hour. Mill men are obliged to haul logs from the water with teams to keep them from being washed away, and the ferry has been hauled up as the rapid currents render crossing dangerous. Driftwood, uprooted trees and other debris are being swept past the town in large quantities and at a terrific rate. The water is now higher than has been known since 1887.

Another Canadian Honored. Toronto Globe. Godwin V. Maclean, M.A., mathematical master of the Kingston collegiate institute, has been awarded a scholarship by the physical department of the graduate school of Harvard university, as the result of his recent work in mathematical physics for that institution. Mr. Maclean was graduated from Toronto university in 1893. The rare occurrence of a graduate scholarship being won by a student before entering the graduate school is in itself attestation of the recipient's ability. We hope Mr. Maclean will continue his mathematical researches, as further honors may be achieved by him.

Workers on Strike. MONTREAL, Que., June 24.—Nineteen garment workers employed by Messrs. E. A. Small & Co. have gone on strike complaining of reduced wages, longer hours and inferior competition of young girls who work for less than half what men with families can live on. The last straw that broke the camel's back was the issue of instructions to work until five o'clock on Saturday instead of close at one o'clock. Canadian Missionary III. Toronto, June 24.—Rev. William Elliott will have to leave missionary work in Japan. For some time his health has been poor, but recently the physicians have diagnosed serious lung trouble, and have ordered his immediate departure from the country. Rev. Dr. Sutherland, Methodist missionary secretary, received word to this effect yesterday.

At the Ladies' College. THE ANNUAL CLOSING EXERCISES HELD YESTERDAY. Informal Gathering of Patrons—The Dean of Ontario Presides—Presentation of Prizes and Short Addresses—Moving To A New Building. In consequence of the lamented death of Dr. Stocks Hammond the usual public closing exercises of the Kingston ladies' college were omitted. Yesterday afternoon a small and formal gathering of the friends of the school pupils at "Close-burn" closed the summer term. The pupils gave an exhibition of callisthenics, which is a well-cared for branch. The presentation of prizes (announced on page two) took place in one of the class rooms. The Dean of Ontario presided and proceedings were opened with religious exercises. As each of the prize winners came forward she was heartily applauded by her fellow-pupils.
