The Sale of Them Continue Enormous and Unprecedented.

Increasing Daily.

Retail Druggists Scarcely Able to Keep Enough of Them in Stock.

The retail drug trade of this city re-port the demand for Dr. Hobbs' Sparagus Kidney Pills as being simply enormous. Not only is this demand large in Kingston, but it applies as well to all towns: surrounding us. Everywhere Dr. Hobbs' Sparagus Kidney Pills seem to be in general demand. The medical fraternity look on wit

wonder at the cures daily made by this remedy. A physician was recently overheard to say, "I have never in my life had faith in anything advertised as a medicine until recently, but I must confess that I really do believe that Dr. medy of great worth. I got a sample obliged to remain at Galgary from ten box of these pills and used them in my days to two weeks, until such time, as rebeen taking them, and have experienced a great change for the better.

who made this remark has little idea that it would ever appear in print. At all events, he deserves great credit for his frank and honest Many physician who is honest should

will do the most good. A Miracle. A Remarkable Cure of Dropsy After 5 Years of Agony.

29 Fonda St., Williamsport, Pa., March 7, 1896.

Hobbs' Remedy Co., Chicago: Gentlemen-Some five years ago my wife, Mrs. Chas. H. Hall, now fifty-five years of age, was taken with dropsy and heart trouble, growing worse from month to month. Two years ago she was so sick that she was compelled to top work of every kind. The best physians in this city were secured, but she grew worse so rapidly and her sart so bad, that a year ago they said nothing more could be done for her. as death was liable to come at any

At this time she measured ten feel round the waist, and weighed over unds. Owing to her heart trouthe doctors would not tap her, only o keep her from bursting. These operations did no good as they failed to get drop of water from her, claiming that it was in sacks all over her body, and they couldn't reach it. For months she could neither lie down nor walk. The longest sleep she had during that time was twenty-five minutes. The smallest cracker would distress her so that she could hardly breathe, yet she dare not take stimulants. Her suf-

fering was so terrible that she prayed day and night for death to relieve her Her kidneys did not act more than one gill in forty-eight hours, and then thick with brick dust. Her bowels could only be moved under the most wretched powerful cathartics prescribed by the physician. About this time saw an advertisement of Dr. Hobbs paragus Kidney Pills in the Williamsport Sun. I determined to try a box. ly wife objected to my spending any

more money on her, as she felt that she was past all help. However, she began taking them at once. The fourth day they began to do their work, when she passed two gallons of water in twenobbs Little Liver Pills, and they did sions." their work equally as well. After using eight boxes of Dr. Hobbs' Sparagus Kidney Pills, she is reduced to her normal weight of about 145 pounds. She has a good appetite and is doing her own work. People who knew how near she was to death's door pronounced her case nothing less than a miracle.

She is certainly a living monument to the inestimable worth of Dr. Hobbs' Sparagus Kidney Pills and Little Liver Pills. I am thankful to God and your valuable medicines that my poor, suffering wife can live and be comfortable after the terrible ordeal she has passed through during the past five ars. If you wish an affidavit of these facts I am willing to give it. Yours gratefully,

HOME FROM THE WEST.

John McIntyre, Q.C., in Winnipeg attending the general session of the Presbyterian church in Canada, has returned home and reports having experienced a most enjoyable outing. He was appointed to several important committees, and will have considerable work to do in connection therewith. The moderator of the general assembly, Rev. Dr. Moore, Ottawa, he characterizes as an able administrator, a courteous gentleman and one who may be depended on to fill the important office he holds with honor and credit. An enormous amount of business was transacted by the general assembly, showing the great strides Presbyterianism has made both at home and abroad.

Touching upon the crop outlook, Mr. McIntyre says prospects for good crops throughout the west are excellent. Grain looks splendid, and the yield is expected to be heavy. Produce generally looks promising. There was plenty of rain in the right season, which has made the people rejoice. During the early part of the spring people were afraid the season was going to be dry, but their fears were dispelled, as rain in plenty visited all the land. To his regret Mr. McIntyre found that too much rain fell, as he was denied the pleasure of visiting Banff. He started from Winnipeg for that health resort, but got as far as Caigary only. At that place and all points west bridges had been swept away and the roadbed washed out Hobbs' Sparagus Kidney Pills are a re- by floods. HOME FROM THE GOLD FIELDS

What a Practical Mining Engineer Thinks of Ontario's Gold Fields.

John Donnelly, jr., returned home yesterday from a prospecting tour through northern Ontario. The greater portion of his outing was spent in the Lake of the Woods and Sheubaubowan districts in search of deposits of gold or other valuable minerals. He is quite satisfied with the result of his trip, and will return within the next month or six weeks.

Mr. Donnelly says a lot of money is being wasted in the north-western gold fields through the ignorance and inexperience of many who hold positions of trust at the different mines. Plenty of capital is available and what is needed sadly experienced, practical men who know how to carry on operations in a proper manner and extract gold from mined ore in a profitable way. For such men their are many openings. The way operations are now being carried on may result in injuring Ontario's gold fields.

From Fort William Mr. Donnelly came burn, Although the steamer had 76,000 boat passed her during the trip. On the track. other hand the Bannockburn outstripped many of the so called fast freighters of the upi er lakes.

Prices Dropped.

KILLED IN A COLLISON.

A Large Number of Christian Endeavor Delegates Were Injured. CHICAGO, June 30 -Three persons were killed outright and about twenty or thirty persons injured in a rear end collision on the Chicago and Northwestern railway this morning at West Chicago, thirty miles out

of Chicago, on the Galena division. The victims of the collisions were Christian Endeavor delegates who left Chicago last night, enroute for the convention in San Francisco. The colliding trains were sections number four and five of the Christian Endeavor special, sent out in nine sections beginning at 10:30 p m.
Section No. 5 ran into section No. 4

which left Chicago fifteen minutes ahead of it. Section No. 4 carried the Wisconsin delegates, nearly 500 strong, and in rear sleeper were people from Fond du Lac, Green Bay, Appleton and other Wisconsin cities

Section No. 4 had come to a stop just outside of West Chicago, where the Freeport line diverges from the main line. Section No. 5 came up behind at great speed and the shock of the collision was

The passengers in the two sleepers of section of No. 4 were all in their berths. They received no warning and those not killed outright awoke to find themselves jammed in the wreckage. Passengers on both trains hastened to the spot and began the work of rescue.

One of the first of the injured to be released was engineer Charles Courtney, of section No. 5. He had stuck to his post like a hero and is so seriously injured that Samuel Elsey, oldest man in Erie he cannot live. The body of an unidentified man, supposed to be a tramp, was found between the baggage car and the engine. The man had been crushed to

Kingston, June 30 .- (To the Editor): In your issue of the 28th. isst., is an account of the unlooked for demise of Arthur Waring, the fourteen-year-old

Those who have never been the heads of families are strangers to the su-

Many there are who have been called upon to mourn the lost of father, mother, sister, brother and friend, but the loss of a child is generally a far greater affliction even than any of these. Indeed, one of the great writton, Wis.; Mrs. R. Shipton, Appleton, ers has said, "That he only knows the meaning of that phrase, the stern tween engine and baggage car, supposed realities of life, who has stood about his marriage altar, and has looked into the graves of his children." James Russell Lowell says, "That at such times we cannot hope for either sympathy or condolence, bu sustainment only." King David, with a refrain that has come across the centuries, exclaims, "I shall go to him, but le will not re-11 on the Vandalia railroad, which left this turn to me." Said an eminent physician of this city, in a lecture delivered a large number of christian endeavorers last winter: "If we could maintain the equilibrium of the system; that is, render the recuperative powers equal to the wasting energies, to could make human life continuous!

It is likely that this parned member of the medical profession in his eager pursuit for the scientife, for the moment had forgotten the philosophic phase of the relation of life and death. la not death as necessary, as inevitable, as philosophic as life? Further may not death be only scondition, form or prophesy of further and future life? I what we call dissolution is final, then indeed is existence a cataclysm, and to our unaided vision, creation, an yesterday. Among the questions taken George has said, that what the human day and will undergo a surgical operation up were the St. Andrew's rapids, excessive mind and aspiration lath ever and grain rates and discrimination in rates everywhere desired, nust, in all rational reasoning and understanding be

> The last hours of earthly life of our young friend were passed amid pecumertide and on the bospm of the majestic and mighty St. Lawrence his spirit took its flight. Our acquaintance with the deceased was recent and somewhat limited. At his father's house a few the children of our host consisted of the young man and woman whom we had previously met. In answer to my question the mother replied, "this is my son." I was impressed with the intelligence and candor of the young man, and in parting, little thinking that should never see him more, placed my hand affectionately upon his head. And so, dear Arthur Waring, good boy! we esteemed and loved you well, and in passing can do no less than lay our

> feeble tribute on your tomb! To the parents and other mourners in this hour of sore bereavement, will outflow the sincere sorrow and sympathy of the many stricken parental hearts in Kingston.
