NEWS OF THE DAY

Prince Arthur Suits are advertised in Ottawa for $11 each. But is that not making Royalty cheap? By the way, all new goods are called after Prince Arthur. Canadian tradesmen are great snobs.

The Prescott Races ended on Friday. Though the weather was poor, everything passed off well.

In connection with the report of the proposed disbandment of the Royal Canadian Rifle Regiment, it is stated that the Dominion Government has been notified that it must support the corps if it is to remain in existence.

The crops in Nova Scotia have been splendid, and all secured in the best possible condition.

An American gentleman (?) while visiting a number of billiard halls and taverns in Montreal, was robbed of $600 in greenbacks.

A writ of attachment under the Insolvent Act has been issued against Sanderson, the Quebec broker, mixed up with Mr. Harris in the Montreal Bank frauds, at the suit of the City Bank.

Galt was selected as the place of holding the next Sunday School Convention; and the Executive Committee were authorized to establish County and Township Conventions in Quebec and Ontario.

In the Notman case at Montreal on Friday, Mr. Devlin, on recommendation of the Court, withdrew his motion for writ of habeas corpus. Notman will be brought before the Court, when the matter will be argued.

This is how the Globe's Ottawa correspondent casts out his mean insinuations:

The Government papers here deny there is a deficiency in the accounts of the Post Office Savings Bank; but the general impression is there may be good grounds for the rumor.

Is there no sense of manly honor left in the Globe's staff? Fie! for shame! Come out like men if you have to say anything.

The Savings Bank deficiency is scouted by the department as an impossibility.

Prince Arthur and party arrived at Ottawa on Friday afternoon from the Upper Ottawa. They enjoyed themselves very much, but have had rather unfortunate weather.

A man named Richard Harris, waggon maker, committed suicide at Port Dalhousie by shooting himself with a musket.

The sealed patterns of new accoutrements for the Volunteers have arrived from England, and are now at the Adjt. General's Department. The tunic and belts are a vast improvement on the old style.

A nitro-glycerine explosion occurred at Hoosic Tunnel, in Massachusetts, on Saturday, demolishing the building in which it was stored, and killing three men.

The Aylmer Times learns from excellent authority, that Mr. Babin is alive and well, and now resides with his friends in St. Andrews, P.Q.

Prince Leopold is travelling in Scotland, Prince Alfred round the world, Prince Arthur in Canada, and the Prince of Wales is always on the move.

THE ACCIDENT ON THE GRAND TRUNK.—On Saturday the trains from the West came through in better time, showing that the damage to the track had been temporarily repaired, and the obstruction overcome.

The accident occurred near that unfortunate locality, Colonsby Station, on Friday morning about two o'clock. A freight train going West, composed nearly altogether of empty carriages, of course, since the loaded trains mostly travel Eastward, was travelling at the usual rate of speed. One of the cars, as shown by the marks on the ties, got off the track a quarter of a mile east of the bridge which crosses McGuin's creek, and immediately afterwards a second waggon followed in the same way. The train appears thus to have gone bouncing over the ties till the bridge was reached, where the deviation of the errant waggons being increased, and the roadway limited, owing to the narrowness of the structure, the train struck the bridge on the south side, creating extraordinary demolition. The train consisted of ten carriages; six of them got across the bridge only to be immediately piled upon each other or tossed into the ditch; two rolled down the embankment and were badly smashed; while the others—two in number—remained on the bridge, comparatively safe from injury. The woodwork of the bridge was destroyed, and the rails bent and thrown against the stone abutment. The iron girdles remained secure. No personal injury was sustained.

The scene of the accident was only nine miles distant from Kingston Station, and a new train was made up here early in the morning to clear the track and repair the line, and the work progressed steadily until Saturday, when it was possible for trains to pass over. Freight traffic was entirely suspended. Passenger traffic, too, was seriously incommoded. The 2:30 express train from the West was filled with delegates returning from the Sunday School Convention at Belleville, and the labor of transferring the passengers and baggage from this train to the Eastern train, which had drawn up on the other side of the track, and vice versa, was very great, and several hours were consumed in it. The trains having made a complete exchange, were reversed, and left in opposite directions to those in which they arrived. The afternoon trains, both ways, were blocked, and had to transfer goods and passengers.

GLASS BURSARY.—The Carleton-Place Herald says, a lady well known in that neighborhood, Mrs Henry Glass, formerly of Perth, desirous to honor her husband's memory rationally and profitably, has established a Bursary, or Scholarship, in Queen's College, Kingston, with $500, to be called the Glass Bursary.

THE TOWNSENDS.—It was the intention of Mr. Townsend to visit Kingston with his Troupe on Monday, the 25th, and to remain three days, but Ontario Hall having been engaged, and the Victoria Music Hall not being in a state of completion, he has been obliged to postpone his appearance here until his return from the Eastern States.

POLICE COURT, Saturday.—Poor Archy Buchanan put in another appearance this morning, after a two days' debauch since his last release. He was charged with drunkenness and vagrancy, but pleaded so hard in his own eloquent way, that Mr. Creighton too generously released him. John Thompson, a sailor, was charged with drunkenness, and fined $2. This season, owing to the presence of so many vessels in harbor, drunkenness and squabbles among sailors have been numerous, but they are not worthy of reporting as a general thing, except they come before the Court, which only a small proportion of them do.

DEBILITY.

Every one at times feels the necessity of something to tone up the system depressed by mental or bodily exhaustion. At such times let every one, instead of taking alcoholic or medical stimulants, which afford only a temporary relief, reinvigorate his debilitated system by the natural tonic elements of the

PERUVIAN SYRUP,

or Protected Solution of the Protoxide of Iron, which vitalizes and enriches the blood by supplying it with its Life Element Iron.

Being free from Alcohol in any form, its energizing effects are not followed by corresponding reaction, but are permanent, infusing strength, vigor, and new life into all parts of the system, and building up an Iron Constitution.

Wm. C. Sterling, Esq., of Poughkeepsie, N. Y., says: "Since taking the Peruvian Syrup I feel better, my strength is improved, my bowels are regular, my appetite first rate.

There is an old Physician in this city (older than I am), used the Syrup for three months, and gives it as his decided opinion that it is the best Alterative Tonic Medicine he ever knew."

For Dyspepsia, Debility, and Female Weaknesses, the Peruvian Syrup is a specific. A 32 page pamphlet sent free. The genuine has "Peruvian Syrup" blown in the glass.
