READER, are you a husband or a father! sife or a mother? Have you the sincere welare of those you love at heart? Prove your sincerity, and lose no time in learning what causes interfere with their health and happines not less than your own. It will avoid to you and yours, as it has to thousands, many a of pain and anxiety followed by sleepless nights cation and exhausting those means for medical attendance, medicines and advertised nostrums which otherwise would provide for declining years, the infirmities of age and proper educa

tion of your children. How often it happens, that the wife lingers from year to year in that pitiable condition not even for one day to feel the happy exhibarating influence incident to the enjoym of health, arising from ignorance of the simp and plainest rules of health as connected with the marriage state, the violation of which entails disease, suffering and misery.

Is there no remedy? No relief? No hope? The remedy is by knowing the causes an avoiding them, and knowing the remedies a benefiting by them.
