JAMES AGNEW. Secretary, K., P. & G. R. C. Kingston, Sept. 11th, 1855.

WOOLEN MACHINERY C. L. GODDARD, ANLY MANUFACTURER of the original U nat SIEEL RING and TOOTH BURRING MACLINES and FEEL ROLLS, to be attached to First and Second Breakers and Fronshers, of Woolen Carding Machines. The attachment to second Breakers and Finishers is new and very important. These machines are in successful operation, on first Breakers, in most of the principal Woolen Factories in the

as the most perfect machines used, and They are in fact the only strong, durable and successfully operating machines in use. No earding machine should run an hour

The Feed Rolls are strong and durable, and worthy of attention. Circulars explaining these Machines and Rolls, references to Milis having them in use, &c., may be had by addressing C. L. GODDARD, No. 3 Bowling Green, New York, to

216-17
