THEY TRAVELED AS BROTHERS.

A Man and Wife Who Worked Their Way, Both in Male Attire. Ben and "Arthie" Claire, of Wolf City, Tex. found it very inconvenient to work their way across the continent as man and wife so they concluded to travel as brothers. She dressed accordingly, and took the name of Arthur. They worked at odd jobs and got along splendidly till they reached Kansas City, where they were arrested, a stranger claiming that he recognized the woman and so notifying the po-Such is their story. Senor Valentin is on a strike, and what

s more, be will probably win, for he is the only man of his trade in the island of Cuba. He doesn't ask increased pay or shorter hours, but what he demands and SLEIGH ROBES VERY FINE insists on having is his back salary. The government owes him \$170 for garroting ten criminals at \$17 each. Until this sum is forthcoming no legal executions can take place in the "aver faithful isle," for no one will accept Senor Valentin's job. U. Says a recent bulletin of the strike: "On account of his past attentions to a large number of deceased brigands Schor Valenanattended. Relatives of the deceased have frequently made threats to assassinatel him, and in consequence the government furnishes him two soldiers to act as a body guard. This, however, does not militate against his claims for the \$17 apiece for his subjects. In return, however, for these guardsmen the government uses; the executioner as an advertising medium to warn would be evil doers, and whenever he goes abroad Senor Valentin wears ashort cloak on the back of which is embroidered in red a ladder, intended to remind brigands and other gentry of that ilk that there is a straight and narrow pathway to the scaffold. To further emphasize his indignation the executioner has refused to wear this garment until his \$170 is paid. Naturally Senor Valentin's course is cordially approved by a number of brigands now under sentence of death. As long as the garroter declines to work they will continue to live.

Some Foolish People Allow a cough to run until it gets beyond the reach of medicine. They often say, "Oh, it will wear away," but in most cases it wears them away. Could they be induced to try the successful medicine called Kemp's Ralsam, which is sold on a positive guarantee to cure, they would immediately see the excellent effect after taking the first dose.
