**THE KINGSTON DISTRICT.**  
**WHAT OUR INDUSTRIOUS STAFF OF CORRESPONDENTS WRITE.**  
The events of the week that concern the residents of the Midland District—Little Empire, North, and East—will find something of interest.

**NOV. 25.**—The boys had a grand time skating on the quarry pond last night. The cold is approaching a member of the human society in daily need in the village of the city. It is harrowing to people's feelings to see poor horses die for hours, and sometimes half a day, to a post on the roadside, in the cold and piercing wind and without a word of covering being put over them. If the law would compel the owners to be tied to the post and the horse put inside a building it would be more just and Christian. Many fine sites for the cement work have been cheap on the banks of the Cataraqui from Barrield to Kingston Mills. The material comes, from the Hillside, could be readily landed.
