Public Schools.

At the school examination and exhibition last evening the City Hall was filled to more than the extent of its seating capacity, and numbers were consequently compelled to stand. A large addition in the form of a second platform was arranged in front of the original platform, and every available space upon these were filled with pupils except a small portion leading up through the middle; which was placed an organ in front of which the exhibitional performances were conducted. Mr Cunningham presided at the organ, with Mr Youman's Messrs Moody and Sankey during their chine so as to produce the astounding adjourned and the young man returned adjourned and the young man returned adjourned and the son as to produce the astounding adjourned and the son as to produce the astounding adjourned and the young man returned adjourned and the young man returned adjourned and the son as to produce the astounding adjourned and the young man returned and the young man returned adjourned and young man returned adjourned and young man returned adjourned and young man r on his right, while a number of the members of the City School Board occupied. and the adjoining space. Besides this a large number of children, who could not be accommodated on the platforms, were seated on seats arranged on the floor just in front of the platform. The pu- vis; on Friday last, My a score of 77 pils, of whom there were alone three gainst 78, and one wheket to spare hundred present, made a very fine appearance and were exceedingly orderly and whoop themselves hourse when and well-behaved. The inspector open ed the performance by a short address 1. which he pointed out the purpose and a tention of the present gathering. He would like to have taken all of the school pupils into the exhibition, but such course being impracticable on account their great number, the only thing that could be done was to separate some of the from the others and this they had accomplished by taking the promoted children to confidence in the power of an examination auxthing like the present one to test the proficiency of a pupil + that could be done in only one way, viz, by a private examination in which the pupil was compeldience with the exception of thirty or all newspaper accounts of the Beecher
