A Market Square saloon keeper, summoned by the City Commissioner for selling liquor before seven on Monday morning, was found guilty and fined \$20 and costs.

What a Sight!-The Oswego Palladium of Saturday relates that there is a man in Mexico, N.Y., who tells that babies were so scarce in California not many years ago that in company with a number of others he walked tifteen miles to see one of the cherubs. How he would have at that time enjoyed such a fine baby show as will be made at St. George's picnic to-morrow! It would have been . feast for him. Bless the little children.

THE WILD ALARUM. - Last evening the city bell rang out an alarm. The debris and refuse of the circus encampment Haymarket square had been collected and set on fire. It burnt on gloriously the Pall Mall Guzette, would add for a long while, till finally the flames most any reputation save that of i threatened property around and then the thor. steam engine had to be called out to prevent any sad result of a little childish playing with fire. Perhaps the Opposition organs are really only anticipating that Mr. Hudspeth might try East Peterboro, the election in which was voided by the Chief Justice yesterday, after his

Grasshoppers As a Table Luxury.

LECTURE! The editor of the Wanensburn, (Missouri) News had an opportunity of being one of a party who made a meal of grass This is the description of trange feast :- Yesterday afternoon Messrs. Riley & Straight determined to test the cooked-locust question in regard to its adaptability as food for the human stomach. Getting wind of the late affair and being always in haste to indulge in free feeding, we made bold to intrude ourselves on our scientific friends. We found counteous table spread, surrounded by the gentlemen named, accompanied Mrs. Straight and Miss Malthee. Without much waste of ceremony, there were | Single do 25 cents; double do 40 cents; Famifive persons seated, and we were helped by do 75 cents, may be had from the members to soup which plainly showed its locust origin, and tasted like chicken soup—and it was good; after seasoning was added, Association. we could distinguish a delicate mushroom flavor-and it was better. Then came batter-cakes, through which locusts were well mixed. The soup had banished silly prejudice and sharpened our appetite for the next lesson, and batter cakes quickly dis appeared also. Baked locusts were then tried (plain hoppers without grease or condiment), and either with or without accompaniments. It was pronounced an excellent dish. The meal was closed with a descert a la John the Baptist-baked locusts and honey-and, if we know anything, we can testify that the distinguisded Scripture character must have thrived on his rude diet in the wilderness of Judea. We believe this is the first attempt at putting this insect to its best use, and the result is not only highly satisfactory to those brave enough to make the attempt, but should this insect make his visit oftener and cause great destruction, future generations would hail its presence with joy. It will be a jubilee year-like manna in the wilderness, or quails in the desert -food without money and without price. Now dear reader, you may shrug your should Ladies' Linen Sets, Scarfs, Lace Jacketsers and smile, but henceforth we sha esteem grasshoppers as a luxury to be
