# American Cyclopædia Richmon NEW REVISED EDITION!

Printed from New Type, and Illustrated with several Thousand Engravings and Maps.

SUBJECT.

The work originally published under the title OF THE NEW AMERICAN CYCLOPÆDIA ARE was completed in 1863, since which time, the wide circulation which it has attained in all, parts of the United States, and the single developements which have taken place in every branch of science, literature, and art, have induced the editors and publishers to submit to an exact and thorough revision, and to issue a new edition entitled.

## THE AMERICAN CYCLOPÆDIA.

The movement of political affairs has kept pace with the discoveries of science, and their fruitful application to the industrial and useful) arts and the convenience and refinement of social life. Great wars and consequent revolu; tions have occurred, involving national changes of peculiar moment. The civil war of our own country, which was at its height when the last volume of the old work appeared, has happily and industrial activity has been commenced Large accessions to our

Graphical Knowledge Have been made by the indefatigable explorers

The great political revolutions of the last de cade, with the natural result of the lapse of time, have Brought into public view a multitude of new men, whose names are in every one's mouth, and of whose lives every one is curious to know the particulars. Great battles have t been fought and and important sieges maintained, of which the details are as yet preserve ed only in the newspapers or in the transient publications of the day, but which ought now | to take their place in

Permanent and Authentic History. In preparing the present edition for the press it has been accordingly been the aim of of the editors to bring down the information to . the latest possible dates, and to furnish accurate account of the most recent discoveries in science, of every fresh production in litera--ture, and of the newest inventions in the practical arts, as well, as to g ve a succienct and original record of the progress of

Political and Historical Events. The work has been begun after long and careful preliminary labor, and with the most ample resources for carrying it on to a success-

None of the original stereotype plates have been used, but every page has been

Printed on New Type, Forming in fact a new Cyclopædia, with the same plan and compass as its predecessor, but with a far greater pecuniary expenditure, and

have been suggested by longer experience and enlarged knowledge. The Illustrations present edition have been added not for the sake of pictorial effect, but to give greater lu-

cidity and force to the explanations in the text. They embrace all branches of science and of natural history, and depict the most famous and remarkable features of scenery, architecture, and art, as well as the various processes of mechanics and manufactures. Although in tended for instruction rather than embellishment, no pains have been spared to insure their Artistic Excellence.

it is believed they will find a welcome reception as an admirable feature of the Cyclopædia, and worthy of its high character. This work is sold to subscribers only, payable on delivery of each volume. It will be complete in SIXTEEN LARGE OCTAVO VOLUMES, each containing about 800 pages, fully illustrated with several thousand Wood Engravings, and with numerous colored Litho graphic Mays.

Price and Style of Binding In extra Cloth, per volume ..... \$ 5 00 In Library Leather, per volume. . In half Turkey Morocco, per volume. In hali Russia extra gilt, per volume. In full Morocco, antique, gilt edges, per volume...... 10 00
