LETTERS TO THE EDITOR.

Advice For The Batterymen. Kingston, Jan. 28. - (To the Editor) have noticed a few items in the ca press bearing on the question of Canadian pay, said to be due some of the men recently returned from South rica. The items convey the impression that the men in question have a grievance. Such items are misleading, and do not state the case on its merits. "C" battery is the only corps affected, as all the others were paid at Halifax, and for the benefit of "C" batterymen

let me say that it would be better

leave the matter in the hands of the militia department instead of giving items to the press which are misleading and are intended to show a grievance when there is none. I need not go into the question other than to say that none are better ac quainted with the merits of the case han "C" batterymen themselves, am

that it is a matter which cannot settled at a moment's notice, or without necessary enquiry. The government may be depended upon to do what is right, but to put such items in the press as have appeared of late is both foolish and useless .- "C" BATTERYMAN.
