# PAY WHEN GURED. "Your Belt did me more good in one night than all the medicine I took in the past six months." Jes. McKensie, Lari-

You run no risk. You pay only when cured, if you can offer reasonable security. Failure to cure costs you nothing, as I take all the chances. The Dr. McLaughlin Blectric Belt is the best electric body appliance that has ever been invented. (Latest patent June 19, 1900.) It is warranted on a bond of \$5,000 to give a stronger current, last longer and to cure quicker than any other electric body appliance made. Guaranteed for one year at my expense. It does not fall to pieces, as the cheaply-made belts do, and does not burn or blister, as old-style belts do. It is the only up-to-date, modern electric beit on sale to-day.

CAUTION Beware of cid-style, burning electrode belts, which are using an imitation of my cushion electrodes. My office contains hundreds of these old belts, disparted as useless and dangerous by persons whose bodies have been seared and searred by the bare metal electrodes. I will make special terms to anyone having one of these old back-burners. A Free Test to all who call. Send for descriptive book to-day.
