does wonders in a few applications. It rouses all the domant energies, develops muscular and nerve life and restores the feeling of youth, courage and manhood. It is worth its weight in gold to every man whose strength and vitality are leaving him. It fills the body with nerve force, warms the blood, stimulates the circulation and restores alf the mental and physical energy wasted in earlier years. It is Nature's own remedy. It does its great work while you sleep. It saturates the body with a current of electricity which can be felt yet does not blister or burn as do other Belts which do not have my perfected regulator and special cushion electrodes. If you want a remedy which will cure you it seems wise for you to take the one that has cured others. That's a record as good as any bank can show. I have published thousands of testimonials from cured patients, and I will pay \$1,000 in gold for evidence showing that I have ever used a testimonial which was not true and hone Any honest man who will secure me can have my Belt and
