# Powley's Liquified Ozone Saves the Life of Mrs. Sampson's Baby.

"I had given up hope of raising my darling, but through Ozone she is healthy."-MRS. SAMPSON, 391 Church St., Toronto.

"My baby was nearly a skeleton from indigestion, and I could not get anything to stay on her stomach, and I had given up hope of raising my darling, when by merest chance I was advised to try Powley's Liquified Ozone. I had not given her the Ozone for two days when all vomiting ceased, and in one month I scarcely knew my child, so great was the change. It is now two months since I first started giving her the Ozone, and her picture is proof of the work it has done. Mothers who desire their babies to live would profit by giving them Ozone. Any mother wishing to verify this can do so by calling or writing to my address, 391 Church street, Toronto, and find living proof.
