A POLITICAL FREAK.

John Edward Charles O'Sullivan Addicks His Name.

Frank Leslie's Monthly.

The name of Addicks is a household word, yet extraordinary misconception exists as to what Addicks is, where he came from, and just what he has done. A dozen years ago, he turned up in Dover, Maryland, an absolute stranger, and announced that he was a compromise candidate for senator. To-day If the story of his fight had been told in a novel before his advent the story would have failed miserably as fiction because it would have violated all probability. The cases of Quay, in Pennsylvania, Clark in Montana, and Addicks in Delaware are constantly held up as the strongest arguments for the election of senators by popular vote; Quay and Clark are striking examples of persistence and boldness, but Addicks has carried audacity to the highest pitch. Senator Quay has been a politician all his life; has devoted his energies to the upbuilding of the machine which he dominates, and has maintained a friendship and alliance throughout his career with leading politicians. Elmer acknowledges with with the most important men of his thanks a cash donation from Starr & state before he aspired to the senator-Sutcliffe to the fire department in re- ship.
