They are taught to love writer received his elementary echica-Rev. W. H. Main, pastor of the Bap- tion in the separate schools and has

lic school system is good enough for the Roman Catholics." Now, Catho lies do not wish to have separate schools simply to be contrary. No. not by any means. We want separate schools because we wish to teach our children religion at school each day.
We regard religion as the most im portant part of a child's educa . tion, and despise the ordinary branches of knowledge taught in the public schools, consider instruction in the principal truths of our holy faith. more necessary than even the most elementary knowledge of arithemetic; since it is much more of an advantage to know the way of salvation than to. be able to add up a column of figures. The truths of our faith are with us a matter of certain knowledge, not opinion; they are verities revealed distinetly by Almighty God, and coming down to us by the wonderful means which He has instituted, (His church) unchanged and immovable through these nineteen centuries. They are more certain as well as more important than anything else we can know, for it is God Himself, who tells them

It is, then, no more than reasonable, since we cannot expect that these truths, solutary as 'they' are, should be taught in the public schools, because of the diversity of religious ominions of the pupils of the various denominations, that we Catholics use all lawful means to secure separate schools for our own children; schools in which our children will receive the time for it. Now, I reason it out this religious instruction which they need. years.
