Carelessness and neglect, and ofttimes wilful disregard of Nature's laws puts the system out of sorts. Hurried, neglected and irregular meals cause most of the trouble.

No wonder the stomach revolts-goes on strike. It's functions are so necessary to your daily health that when it doesn't act properly your entire body suffers. Bowels clogged, liver inactive, blood impure, bad taste, coated tongue-you feel all petered outand you look it.

The result is indigestion, biliousness and constipation, followed by more serious complications if the body's natural functions are not restored at once To all such sufferers there is a sure, safe, economi and palatable cure—that is time-tested, never-failing Abbey's Effervescent Salt, A laxative that never gripes, gentle, but certain.
