Workman's Opportunity!

THE ELECTRICAL CITY OF CANADA.

Mechanics, laborers, etc., have a splendid opportunity to better their condition by coming to Shawinigan Falls. The enormous amount of cheap water power has induced large manufacturing concerns to locate here, and a number of mills are now being erected. Skilled and unskilled workmen of all kinds are required now. Good wages will be paid and work will be regular and steady. The erection of a large pulp and paper mill, on which work has just commenced, will provide employment for several hundred artisans and laborers for many months to come. On completion many hundred hands will be required to take permanent positions at high wages.

Shawinigan Falls, the Electrical City of Canada, is on the St. Maurice River, twenty-one miles above Three Rivers. It is in the centre of a beautiful country, the climate is exceedingly healthy, and as the town has been laid out on model lines, with all modern city conveniences, it is an ideal spot in which to make your home. Men who desire to reside here can secure Building Lots at low

prices, and on an easy system of payments, Any workman can have a home of his own in this growing town where property is constantly increasing in value and where there will always be an abundance of work both for himself and his family. Shawinigan Falls is reached by the Canadian Pacific and Great Northern Railroads. For particulars and map, apply
