ance often gets out of gear. Like a mill dam that springs a leak, if it is not properly and promptly repaired, the leak enlarges until for lack of water the mill stops.

Every little irregularity of the system is a drain on your vitality. What in itself seems slight may cause a distressing disease.

Abbey's Effervescent Salt gives health to the system by helping nature to help herself. It starts in at the seat of the trouble, and eures the cause of disease, and by aiding the organs of the body to do their work properly, it eliminates all illness and disease from the system. Abbey's Effervescent Salt enables the system to obtain the maximum of nourishment from the food digested.

W. E. Wismer, Phm. B., is a druggist, of Barrie, Ont., whose splendid establishment and large practice mark him as an aggressive pharmaceutical authority—This is what he says of Hutch:—

"As regards the sale of Hutch it is simply wonderful, several times I have been sold right out after receiving a generous supply from the wholesale. It is one of the very few things a retail. druggist may order in quarter and half-gross lots with perfect safety.

"As regards its efficacy I have yet to meet a person who does not say 'there is something in it after having used the tablets.

"Only yesterday on enquiring as to its virtues a traveller said, 'until Hutch was introduced I could get nothing to relieve me and was a thoroughbred dyspeptic. Hutch cured me. This is only one instance of the very many good things said about Hutch. Another proof of its value is that people always come back for a second package. Knowing that a genuine article is sure to succeed, I remain yours truly, "W. E. WISMER, Phm. B."

The wonderful—almost startling—cures that Hutch is making, its overwhelming endorsation by the public, by scientific experts, and menthoroughly of what cures, marks it as the very best cure for

constipation, and stomach disorders extant. Ten Hutch Ten Cents. All druggists, or by mail from The Woodward Medicine Co., Limited, 11 Colburne street, Toronto.
