caused by the inaction of the liver, which allows the bile to accumulate in the glands and ducts of that organ. After a time the bile is thrown into the intestines in large quantities, and some of it regurgitates back into the stomach. This usually causes severe headache through the eyes and temples, and culminates in nausea and vomiting, which is frequently followed by a bilious diarrhœa.

A teaspoonful of Abbey's Effervescent Salt in a tumber of water (not iced) night and morning stimulates the peptic glands of the stomach and increases the contraction of its muscles from above downward. This action is communicated to the intestines, and increases the flow of intestinal juice, and stimulates the ducts of the liver to pour out the bile, when it is carried downward by the laxative action of the Salt.

A person subject to biliousness or bilious headache will get relief and cure from the use of Abbey's Effervescent Salt.

FOR SALE BY ALL DRUGGISTS. Price, 60 cts. per large bottle. Trial size, 25 cts.
