TWO BRIGHT ADDRESSES.

TOUCHING CANADA'S INTER-

Our Cheese and Butter Export Trade-How it Can Be Increas- | Salcs of ed-Manchester and its Great Ship 'Canal - In Direct Communication With Canadian Yesterday afternoon J. D. Harling, To-

try. The best scheme he knew of was Pointer No. 68 .- Young people who ter for further consideration. The chair- the Georgian Bay canal scheme, which was calculated to give a fourteen-foot waterway to Montreal. This route would be the shortest possible route. The present war would result in opening up and advertising Canada as she had never been before. We must be ready for the demand there will be for Canadian products or we will be left behind. We should gradually work up an export trade with England; our export dredth of what it can be. The United States have practically delarred us from doing a large trade with them, by raising a high tariff wall. We must turn to English markets. Last year England imported 85,000,000 pounds of butter. Canada was fifth in the list, only furnishing 7.4 of this amount Three years ago Canada was at the bottom of the list, and it is expected that in a few years her shipments of butter to England will equal Denmark's. Turning to the cheese problem.

Harling stated that bity-six per cent. of the cheese imported by Fugland was Canadian manufacture. The people Britain should be let know that the are eating Canadian cheese, butter and you please, without trouble or loss of other products. They confounded it time. with American. The government of Canada had done much to assist coldstorage shipping. The students were also ad vised concerning the methods of export. They should not go into the export business spasmodically or ship an, in-Several questions were asked the speaker at the conclusion of his instruc-
