HEALTH IN HOUSES. and sanitation in all houses which have consequence. Very likely, connections with the drains. The city is advancing. It is having legislation which is in accord with the times and the people who are slow and shiftless. who are even indisposed to comply with | health requirements, should be made to act, in the interest of their neighbors. This calls up for consideration the question of house inspection as it has not been conducted hitherto. The pity is that encouragement should be given to the unsightly structures which some people will erect in conspicuous places and to the detriment of the property ins. abutting upon it. The cheap house is i the dear house in the long run. It may not correctly designed so far as its sani- lage. What is the use of making a howl the city should protect the public health when all hands clamoured for lower to the extent of seeing that these things rates? not pass. The city should. official who will be notified of every house which is being erected-because the city | grants a permit for the purpose-will inspect it and demand that it is supplied with the outfit indicated by the be-law. The inspection could be extended so as to cover the question of safety in construction and if some people were watched in this way they blue book the contents of which are would do better work. The point is said to be very inspiring. It gives

long to the charitable societies asserted consult before they go calling. that in their visitation they found houses which were unfit for habitation and which contributed in sickness to the burdens of the poor. There is something in the complaint. The fact is that law to be respected must be enforced, and those who see the efficacy of it will be thankful that pressure was applied to produce the desired result.

The opposition in the legislature made some good points in their criticism of the government in the session which has themselves by their everlasting croakling. The government's proposals, look-20 inch frames, 28 inch wheels- ing to the opening up of new Ontario, this is the popular mount for boys and to give encouragement of business in Stokes and she was the daughter of of the two or three greatest Congo exand youths.
