While the conversion of Catholic and Jew were under consideration the spiritual conference was almost taken off of its feet by the startling announcement that among the religions of the earth was that the Catholic church in every land where its altars were consecrated and its religion revered, was the only one that held unquestioned every word within the covers of the bible and who believed that the sacred book was ever from divine revelation. While some of the most essential parts of their work pointed toward peace, a bitterness of feeling was evoked which gave little promise of christian harmony,

RESTORE FYOUR STRENGTH!

When a man, young or old, has discovered the existence of a weakness, the first thing done should be to discontinue any excess that might debilitate or weaken the nervous system, after which a proper and safe remedy for the restoration of his lost strength should be employed.

For thirty years I have made a specialty of all these weaknesses which result from youthful indiscretions and later excesses of dissipation. I cure such in a natural way.

Without Stomach-Racking Drugs.

I give you nature's own simple restorer, Electricity. I first used the galvanic current in nervous disorders over a quarter of a century ago, and soon saw the need of an electrical apphance which my patient could charge and adjust himself. This led me to invent a portable battery which developed in the present world-famed appliance, the

Dr. Sanden Electric Belt for Men, now known and used in all parts of the world. This appliance is my idea of a perfect treatment It weighs 5 ounces, but is just as complete as any system of batteries in our great city hospitals Currents instantly felt, though controlled by wearer with a little thumb regulator Worn at night, it cures while you sleep. 6,000 gave voluntary testimony during 1899. Positive pole over kidneys, negative in front at organs; currents in going from back to front flows directly through all weakened organs. Beware of imitations and fraudulent free and on trial offers. No belt is genuine but the Sanden. Protected by patents in U. S. and foreign contries.
