Point Head.

The E. & D. four-point bearings in the head are so made that the strain from the fork is so distributed over double the number of balls in ordinary bicycle heads. By this even distribution of the load the wearing qualities

of the head parts are greatly increased. When the E. & D. reinforcement of the crown is considered in connection with the four-point bearings in the head, it that the E. & D. construction is nearly · perfection.

E. & D. National locally-guaranteed bicycles, with fourpoint bearings in all parts, cost \$60 for wead models and \$70 o for special models, with gear-case.

GEORGE MILLS & CO., Kingston.

The National Cycle and Automobila Co., Limited, Toronto.

The two Stearns roadster models have the narrowest treads of the standard road wheels found on the market. A greater pedal pressure may be exerted, because of the

directness of the action, which results from narrow-tread constructions. Besides, Stearns models are locally-guaranteed National

wheels, and the local guarantee is often of more importance o in case of accident than the narrow tread. Price of Stearns roadsters, \$50.

J. R. C. DOBBS & CO., 83 Princess Street, Kingston.

The National Cycle and Automobile Co., Limited, Toronto.

With Few Options

The Scotsman is a good, thoroughly-tested, fine-looking, well-finished, high-grade bicycle.

But the price is \$40 only. The desire is to sell a good wheel at the lowest possible price at which a good wheel may be sold. Therefore, all costly options are avoided in the Scotsman, and every thing about them is designed with a view to utili-

A rider can get anything he really needs among the Scotsman options, and the local guarantee All for \$40. Only \$40.
