Neither driver will have started out

with the intention of racing. He may have made up his mind to eat dust sooner than race, but let the other rig whisk by and he's after it "hotfoot," as the saying It is the same way in steamboating.

It is in the human blood, and no amount f danger from overtaxed boilers, narrowness of channel, sand bars, shoals or

snags will deter the fast boat from show-

ing its heels to the slower boat.

I have seen passengers in the olden time, when everybody knew a good deal about the river and its dangers, come up to the captain of the boat they had taken passage on and say to him solicitously: "Now, captain, I want you to assure me of one thing, that you are not going to race. I've got my wife and children on .

board, and I don't want to expose them to needless danger." "Of course we won't race," the captain

In a little while along would come a

and the firemen. And as the competing boat would shade down to a small speck on the rear horizon the passenger who was so anxious to keep his family out of needless danger would come up from below, wiping a pair of bruised and dirty hands and, inflating his chest proudly, say to the captain, "She never touched us."

That passenger had been down on the boiler deck during the race passing cordwood to the stokers to put under the boil-
