ARGUMENTS FALL TO EARTH

The "Facts" He Stated Were Not Facts at All—The Dominion Year Book Quoted to Prove Sundry Assertions-A Timely Letter by Thomas W. Casey.

By Thomas W. Casey, Napanee, Ont. To many of us it has been a source of real wonder why very Rev. Principal Grant became all at once so anxious that the entire Canadian public should be informed regard to his views on the temperance question, and especially in regard to prohibition. He never displayed any such anxiety before. In fact few temperance workers throughout the country ever had the pleasure of meeting him at all in auy such capacity, or even had reason to know that he had given much attention to the question at all. His letters now indicate very plainly that he has given but little study to the question. That is very evi dent from his want of familiarity with the facts with which he attempts to deal in his recently published letters. It is more HALF OF THE FLAT OVER THE BIBBY charitable to suppose that he is ignorant ing Bailie's Printing Office. One of principal Grant's arguments is that in the dominion of Canada we are now gloriously winning the fight for temperance. Taking the dominion as a whole—and it is of this that the plebiscite discussion has to deal—the total number of convictions for drunkenness has increased from 9,877 in 1884 to 11,558 in 1895. If such a "victory" for well "tried swords" is quite to-day. satisfactory to some it is certainly not so

to many others. MORE LIQUORS ARE CONSUMED. Not only has there been this deplorable ncrease in the convictions for drunkennese, but there has been also a large increase in the quantities of liquor annually consumed in the dominion. Turn again to the official dominion year book, page 202, and it will be seen that in 1872 there were consumed 3,808,291 gallons of spirits

consumption had in reased to 2,332,839 gallone of spirits and 18,018,-714 of beer, making a grand total of 20,-351,573 gallons; being an enormous increase in the last twenty five years.

Dr. Grant may well remark, in view of just such facts, that, "The victory is not yet completely won," but is he warranted in going on to ask, "why in the name of common sense" should we attempt any

MORE PER CAPITA CONSUMPTION. These figures very plainly show that the consumption of liquors has increased more rapidly than the increase of our population. Dr. Grant refers to the small consumption of liquor per head in Canada being a source of congratulation. But evening with games, music and social condoes any reference to such figures indicate versation. The hostess was the recipient that Canadians are now growing more of many silver gifts. The brewers may have reason to declare we are doing well as it though the victory is not yet completely won," but have the dignitaries of a leading Presbyterian university any such grounds for congratulation?

SOME HOME FACTS. The police statistics of the city of Kingston for the past year have just been published and they go a long way to show that even in that good old city where those "well tried swords" have been, no doubt, so faithfully used during the past ary 1st. year, the victory has not been "completely won," or auything as near it as some have good reasons to expect, all circumstances considered. How The Matter Stands. Affairs in the convervative fold are at to secure a majority representation at the Tuesday night meeting to favor their choice. In the face of this the Toronto 1 controllers of the conservative "strong box" and the local le ders referred to unite in saying that unless their candidate is put up, cash will not be forthcoming with which to carry on the campaign. It looks as though the younger and more active element will be brought around to the candidate desired by the "old heads."

It is intimated that Hon. John Costigan will be nominated as the conservative candidate for Ottawa city.

Stole Two Pairs Of Boots. Complaint was made to the police last night that two young men had stolen two pairs of boots from J. Dillon's shoe store. It appears that on Thursday night they visited the store in search of a pair of rubbers, but incidentally carrying off a pair of the Bargains we are boots. Last night they returned, this time taking two pairs. After having been fitted daily offering in out with rubbers one young man stepped outside, leaving the second man inside. Mr. Dillon seized the purchase made by this fellow and demanded the return by this fellow and demanded the return templation the beautifying of Lake On- of the missing boots. He stepped outside the erection of a fine big pavilion, similar panion, returning the same. After they controlled by the street railway company and the loss of a pair on the night previous all departments.

The Cause And Effect. One of the reasons for the action of the street railway company in cancelling the selling on the road of eight tickets for a quarter was because the privilege was Lot between Johnston and Earl on Gordon abused.
