A WARM SUBJECT!

There's nothing in the world we're so much interested in as Coal. We studed it for the day. years It may sound queer to speak of Coal buring and selling it as a science, but that's what we've made it. Two important diacoveries we have made are that complete satisfaction to our customers pays best, and that the way to win business is to deserve it.

ENGINEERS ACCEPT TERMS.

Policy of Favoritism.

LONDON, Jan. 28 -A majority of the engineers have voted in favor of accepting the terms of the employers. The exact figures have not yet been divulged, but the proportion is said to be about 25,000 in favor of acceptance to 11,000 against it. John Morley, the liberal leader, speak. ing last evening at Stilling, Scotland, said the proposed West India government was merely a disguised bounty and another instance of the government's policy Customers Cole and Johnson "soaps and doles to favored classes."
