EARNEST EDUCATIONIST.

Regarding Late Archbishop.

Kindly mermit me to bear my testimony to the warm and intelligent interest taken by the late archbishop Cleary in the education of the people. I make no reference now to his attitude toward the public schools. He took the law guaranteeing separate schools as he found it and en-

deavored to make it as effective as possible, as it was his right and his duty to do. A few years ago the sisters of the house of Providence in Kingston held at their time our great takes will have shared own expense, and in their own house, an the fate of those which once existed in institute for the pedagogical training the great far west. Collision on the O.P.R. SMITH'S FALLS, Ont., March 1.—A collision with loss of life occurred on the C.P.R. three miles east of here, between three and four o'clock this morning. As near as can be learned, it occurred in this way: A freight was coming west, followed by rn engine running light, which in turn was followed at the usual distance by another freight train. A number of cars broke loose from the front train and, after some ittle delay, were picked up by the light engine, but before warning could be given, the rear train came around a curve in the road and dashed at full speed into the light engine and runaway cars, doing great damage to both engines and telescoping the cars which then took fire and several were
