The duty on granulated sugar is increased from \$1 to \$1 244 per cwb.

ON THE SIDE OF PEACE.

of the message which the president is now preparing reports as to its tenor are interesting, but not conc'usive and discussion of its inwardness is merely unprofitable talk about the unknown. The danger of war is apparently waning,

partly because diplomacy is still potently

Refined yellow sugar will pay a duty of whether the continental powers will finally \$1 08 a hundred pounds instead of \$1 as offer mediation. Now that Great Britain has cold-shouldered the matter, the diplomate do not believe the United States would accept such an offer, the combination being so evidently blased in favor of Spain that Spain would gladly submit her quarrel to such a tribunal.

The foregone conclusion and chief im. portance of the movement, in the opinion of a diplomat who is conversant with the situation, is that it will probably have the effect of widening the cleavage between Great Britain and other nations and of greatly strengthening the growing sympathy and community of interests of the United States and Great Britain.

Spain's present efforts to secure the mediation of the pope are now supposed to be due to the knowledge that European mediation will probably be a fiaeco.

The Times commenting editorially this and there is abundant evidence that pre ing to build a golden bridge for the retreat of Spain from her extreme and impracticable pretensions.

"But the controversy has gone far beyond this point. It is doubtful whether either president McKinley or tenor Sagasta, or the cabinet of either, any longer possesses a free hand.
