Therefore the ministers will not go far away from the telegraph offices and their bureaus will be open day and night.

There is quite a scare here in regard to the dangers British commerce will be exposed to in the event of the war, but at the admiralty and at the war office it is claimed that the fears expressed are practically groundless.

Political club circles are busy forecast ing the successors of the earl of Elgin and the earl of Aberdeen as viceroy of India and governor-general of Canada, respectively. For the viceroyship lord Balfour of Burleigh, the chief secretary for Scotland, and George Curzon, parliamentary secretary of the foreign office, are the two most prominently mentioned; and for the governor generalship, the earl of Selborne, under secretary of state for the colonies, and the earl of Hopetoun, the paymastergeneral, are considered the most likely candidates among the many apparently in the field. It is said that the earl of Sel borne can have the governor-generalship

Mr. Gladstone has finally become resigned to the abandonment of his literary, work, and though it has deeply grieved him, he will give up writing his biography and will end his six months devoted to it on "The Early Fathers." In a letter to his publishers, couched on a species of beroic resignation, Mr. Gladstone says be is no longer able to read or write. THAT NEW HATFOR EASTER.

The ladies do not monopolize the display of NEW HATS on Easter Sunday. Every well-dressed man will have a new hat to wear to church on the great festival. At OAK HALL you will find the largest assortment of Men's Hate from which to select, and there is not one old style in the lot. That is the advantage of dealing in a new store. There is no old stock to work off at half price or any other price. We show the newest in all shades and the newest in shapes. Colored fancy bands ; pearl greys browns, walnut, Cuba browns. Absolutely the correct shapes as shown in the latest fashion publications. Just take a look at our window and les us know whether there is a finer collection of hate anywhere.

Is, however, making great inroads on the hat business. The glazed leather peak will prevail this season. We have everything worth keeping in caps—the Latest, American Styles. We look for just the same margin of profit on hate and cape as on other goods If we sold only hate and cape you would not get them as low in price.
