New York, May 3.—A London special says: "As a result of the Spanish defeat at Manila peace is in sight. Lord Salisbury to-day, after a long conference with ambassador Hay, sent for prince Hatzfeldt, the Austrian ambassador, and advised a collective note by the powers to Spain, arguing that her honor should now be satisfied and that the time had come to sue for peace. Senor Sirela, in Madrid, said pain only intended to establish her honor."

**PRIVATE MEMBERS' DAY.**  
Civil Service Salaries and The Garnishes—Mr. Richardson's Bill.  
OTTAWA, May 2.—The grievances of constituents received an airing on this, one of the last of the private members' days of the session, and public legislation promoted by members outside of the government was advanced.  
Mr. Richardson's bill to subject the salaries of civil servants to garnishes was vigorously opposed by Mr. Blair, but the committee of the whole house reported it by a vote of fifty to twenty-three, many of the government supporters voting with the majority.  
Mr. Casey's bill to provide for the safety of railway employees and passengers also encountered the hostility of the minister of railways, who objected to the compensation feature on constitutional grounds.  
At the suggestion of the premier the bill was reported, on the understanding that it should be referred to the department of justice for an opinion as to the legal questions involved.  
Sir Hibbert Tupper asked as to the truth of a despatch with flaring headlines appearing in the San Francisco Examiner, dated from Vancouver, stating that Mr. Sifton had issued an order providing for the issue of free miners' licenses at the summit of the White and Chitwan passes.  
Mr. Sifton said he would make a full statement tomorrow.  
Mr. Foster asked for a statement of the object and strength of the proposed military expedition to the Klondyke. Dr. Borden promised to make a statement tomorrow.  
Mr. Foster also asked in tones of deep feeling if the premier could give any information as to the reported approaching removal from the house of Mr. McLane. Sir Wilfrid replied laughingly that he was glad to assuage Mr. Foster's grief at once; he had received no such intimation.  
The ex-finances minister inquired when the writ for Bagot would be issued.  
The premier asked if Mr. Foster thought it well to have the election on lists four years old, in view of the fact that there would soon be a revised list. Mr. Foster replied that it could be well held as it was in West Prince.  
Mr. Patterson, in answer to the question recently put by Col. Hughes, read a long and interesting list of Irish Catholics who he has appointed to office.  
Mr. Mulock stated in answer to Mr. Gillies that 521 postmasters have been dismissed since July 13th, 1896.  
**Notes From The Capital.**  
OTTAWA, May 3.—Justice Steadman, Fredericton, N.B., has resigned and Mr. Wilson has been appointed in his place.  
The Crown's Nest Pass labor commission, appointed by the government, has reported that many of the complaints of the laborers were well founded. In some instances men worked for sub-contractors six months and the deductions left them with scarcely anything.  
The United States authorities have refused to admit stock as thoroughbred judge for the district of York, Sumner and Queen's. Mr. Wilson takes the place of judge Steadman, who retires owing to ill-health. The new judge was the commissioner who held the investigation at Moncton into the partisanship of the I.C.R. employees.  
**SPAIN'S ATLANTIC FLEET**  
May Attack Coast Cities, Then Fight Its Way Into Havana.  
WASHINGTON, May 3.—There is excellent authority for the statement that the administration believes the Spanish men-of-war, now on their way to western waters, will appear at some port on the coast and attempt to do as much damage as possible, and when this work has been completed to sail with all speed to Porto Rico and if necessary to fight their way into San Juan.  
As to the point where Spain will strike, the authorities are totally unable to say. New York is considered in a very good condition to resist attack, but this is not the case with the New England cities and with ports along the southern coast. Capt. W. P. Duvall, military aide to secretary Alger, has been inspecting the defenses of Boston and other New England cities for several days.  
It was to prevent Spanish privateers from ravaging the north-east coast that the cruisers Columbia and Minneapolis were sent on patrol duty there and the mobilization of the northern patrol squadron at Provincetown is with the view of having a navy at hand to resist any attack on any of the north-eastern cities. Instructions to commanding officers of the auxiliary cruisers Yankee, Prairie and Yosemite require them to join the flagship San Francisco at Provincetown without delay. Their crews will have gun practice on the way and will be given as much training as possible. Besides Commodore Howell's squadron, the ports would be defended by great guns and general Merritt will improve the fortifications as much as possible.  
**Pope's Horror Is Expressed.**

He has expressed his horror at the terrible loss of life and repeatedly said that he could wish to have died before seeing such a war. ## HE TOOK HIS OWN LIFE.

**A Convict Ended His Days By Hanging.**  
**A CLEAR CASE OF SUICIDE.**

**USED GRATING AT THE FRONT OF HIS DOOR.**

**He Was Fooled In His Attempt To Escape And Then Planned The Suicide—Twisted Rope And Cotton Together To Make The Noose—Timed The Tragedy When The Watches Had Gone Past—Who Moore Was.**

Driven to desperation at the prospect of serving the balance of his natural life behind prison bars, convict No. 701 decided to either free himself of prison existence or, as an alternative, to end life. The first ending in failure, he resorted to the alternative and put an end to his life.

It was a ghastly find the keepers made at an early hour this morning when making their rounds of the dormitory at the Kingston penitentiary. They were startled at finding the dead body of a convict named Charles W. Moore hanging by the neck to the iron grating fronting the door of his cell. Without loss of time the body was cut down, but life was extinct, so nothing could be done but inform coroner Kilborn of the circumstances. After hearing these he concluded an inquest unnecessary; it appeared to be a "deliberate case of self-destruction."

It appears that Moore was planning a scheme to attempt escape. He was fixing up his extra suit of clothing so as to leave it in his cell in such a manner as to lead the officials to believe that he was in possession, his intention being to absent himself from the cell and attempt to climb the walls. His scheme was detected yesterday before he could put it into execution. This seemed to worry him, and during the remainder of the day he appeared fretful and downcast. During the night, planning the affair so as to escape observation by the keepers as they made their rounds, Moore, with pieces of rope and cotton twisted and tied together, forming a noose and line of sufficient length, put the noose around his neck and tying the other end to the grating in the opening to the door of his cell, he lifted his feet from the floor, allowing the weight of his body to fall on the noose, thus strangling himself to death. The grating to which the end of the rope was tied was very little above his head, not sufficient to form a drop. That Moore was determined to end his life was evidenced by his deliberate act of lifting his feet from the cell floor so as to throw the weight of his body on his neck in the noose.

Had Moore lived until July next he would have turned his sixtieth year. In June last he was tried at Chatham, Kent county, for having used fire arms with intent to kill while attempting to commit a burglary. He was accompanied by a negro named Brown, and both men made a desperate attempt to escape when cornered, using firearms freely. They were captured, however, and on June 12th, 1897, were sentenced, Moore receiving a twenty-year term and Brown being sent down for the term of his natural life. They arrived here on June 14th since which time Moore has been employed as wing man in the dormitory, light work suited to his age and disposition. He was fairly well behaved and appeared contented with his lot. His scheme to attempt to escape was a surprise to the prison officials.

Deceased was married but it is not known that he had a family. His wife is at present residing at Cleveland, Ohio. The fact that the line with which he performed the deed was composed of small scraps of rope, cotton, etc., carefully woven and knotted together, shows that Moore contemplated hanging himself should his attempt at escape fail, as it must have taken him a long time to acquire the many odds and ends that went to complete the rope. A twenty year sentence is generally considered a life term, and there is no doubt but that Moore would have ended his days behind the bars had he not intervened with nature and shuffled off at an earlier period than his allotted time.

At two o'clock this afternoon coroner Kilborn telephoned the Writ to say he had decided to hold an inquest at eleven o'clock to-morrow morning.

## PROTECTING HER INTERESTS.

**France Sends Warships To Havana And Manila—Sampson's Fleet Will Move.**

KNOX, Fla., May 3.—There is a feeling here to-day that some important and decisive movement of Admiral Sampson's fleet is pending. All day yesterday there was an unmistakable bustle of preparations on the vessels in the harbor. Officers ashore do not conceal their elation over the prospect of breaking the monotony of the blockade.

In the coming movement efficient forces will be massed to crush the opposition. From now on the war in these waters will probably be conducted more vigorously. Spain has had a chance to peacefully withdraw from Cuba and return the starving reconcentrados to be relieved. She must now see the consequences.

WASHINGTON, May 3.—France is expected an early bombardment of Havana. There are three French ships now in Cuban waters, one of them in the harbor of Havana, and they were sent to those waters at this time in anticipation of the bombardment of Havana. The vessels are the Desbarrieres, the flagship of Admiral Esauze; the gunboat Faton; and the cruiser Rigault de Genouilly. The presence of these French men-of-war is significant only in that France, expecting an attack to be made upon Havana by United States vessels, has taken steps to provide a place of refuge for French subjects in Cuba. The moment that Admiral Sampson gives notice that the city is to be bombarded the French admiral will direct the French consul and all other French subjects to come aboard the vessels of his squadron. State department authorities are well satisfied that France will maintain strict neutrality in Cuban waters as well as elsewhere. After the bombardment it is not improbable that France as well as some of the other European nations having interests in Cuba, will land their marines for protection of their respective consulates. The French government has also ordered a fleet near to Manila for the protection of French interests in that port.

## THE NEWS FROM CHATHAM.

**The Crime For Which Moore Was Sent To Prison.**

CHATHAM, Ont., May 3.—Charles W. Moore was sentenced from here to a term of twenty years in Kingston penitentiary in May last year.

He and George Brown, colored, held up John W. McConnell, a grocer here, and the following day, Sunday, when detectives Mahoney and Compau attempted to arrest them at Belle River they opened fire on the officers and Brown shot Mahoney in the lung.

They were both arrested finally and brought to Chatham where Moore was sentenced as above stated and Brown is serving a life term. Both men had served terms in Michigan and New York. They escaped and coming into Canada committed eight daring deeds in Windsor, Walkerville and Chatham. They had the worst record of any prisoners sent from western Ontario.

## TEXAS TOWN DESTROYED.

**Mobster Hit By A Cyclone—Three Persons Killed.**

COBANEAN, Texas, May 3.—The town of Cobanean on Monday was almost totally destroyed by a cyclone. John Stecker, Mrs. Rufus Kitchen and baby Mackeron were killed. Mrs. Exuma, baby Palmer and Mrs. Anderson were fatally injured. Fifteen were painfully injured. All county buildings were wrecked. Property loss, \$35,000. The town is the county seat of Wheeler county, has a population of 200, and is thirty miles inland from Canadian.

St. Louis, May 3.—The police have reports of the loss of several lives on the Mississippi river during the storm. Charles Bohm, aged twenty-eight, and two companions of his own age are missing, and probably drowned. Captain Seibert believes there were several more lives lost on the river during the gale.

To Consider The Rates.  
MONTREAL, May 3.—W. E. Davis, general passenger agent of the G.T.R., left for Chicago last night, where he will attend the meeting of the joint passenger committee which has been called for Friday. D. McNicoll, passenger traffic manager of the C.P.R., and chairman of the sub-committee of the above committee, which had the present rate war matter under discussion at three different meetings, leaves to-morrow night to attend the same meeting, when his report will come up for consideration.

## Sent For Trial.

CHATHAM, Ont., May 3.—John Twobey came up at the police court this morning on the charge of attempting to discharge a loaded revolver at police magistrate Houston. Mayor Patterson occupied the magistrate's chair. Twobey stated that he had no recollection of the affair. He was committed for trial. Twobey yesterday attempted to take the life of magistrate Houston in Harrison hall. He pointed a thirty-eight calibre revolver at Mr. Houston and said "Prepare to die."

"Feepling Thomas" At St. Thomas.  
ST. THOMAS, May 3.—J. I. Webster on Monday night discovered a man peeping in his back window and prowling round the back yard. Mr. Webster caught the intruder and handed him over to a policeman, who looked him up. The man proved to be a well-known citizen and is prominently and respectfully connected. Mr. Webster did not lay any information and the accused was not prosecuted.

## May Be A Change.

LONDON, May 3.—It is reported that the British ambassador at Washington, Sir Julian Pauncefote, is to be succeeded by Sir Thomas H. Sanderson, K.C.B., K.C.M.G., the permanent under secretary of state for foreign affairs, one of the most experienced diplomatic officers in the British service.

## Changes In The Service.

TORONTO, May 3.—Several changes will be made in the Grand Trunk summer train service on the 15th inst. The train from Montreal which now arrives at 6:30 p.m. will get in at 5:30, making through connections with Buffalo and New York, also with the west. A new train from Montreal will probably be put on also.
