A Little Light concerning coal is often productive of considerable heat—where it will do the most good. Telling you that our coal is better than other coal does not make it so, but our willingness to warrant its lasting longer and giving more heat than coal for which you pay the same money elsewhere, ought to have some weight with the man who does his own thinking.

TO ATTACK THEM BOTH

Naval And Military Operations Being Arranged.

SAN JUAN WILL BE TAKEN.

THE OBJECTIVE POINT OF SAMPSON'S FLEET.

An Attack Will Also be Made in Cuba.—The movement on land and sea will be quick, vigorous and decisive. It is probable that the United States will attack the Canaries, an admirable base for operations against Spain.

WASHINGTON, May 11.—Naval and military operations against Porto Rico will begin simultaneously with those to be directed against Cuba. In anticipation of the early completion of naval work the war department is making preparations for the prompt despatch of a large body of troops, which will land under the fire of the guns of United States war vessels and capture the city of San Juan. The withdrawal of the Spanish fleet to Cadiz leaves it out of consideration for the present, and San Juan will be the next objective point.

Cuba is to be invaded and an attack made upon Havana by the army from the rear and by the navy from the front within a week from yesterday. The movement on both land and sea will be quick, vigorous and decisive. An army is to be promptly landed in Cuba of sufficient size to preclude the possibility of a single defeat.

Very special prices on this class of goods. Come early. A big staff of courteous clerks to serve you. Parcels delivered promptly.

Crisis in Italy Feared. ROME, May 11.—The Italian government is clearly unequal to the difficulties of the situation and great anxiety prevails. To Play Toronto's Champions. Mr. Bass, Kingston club, states that Kingston cannot, under any conditions, put a lacrosse team in the league this year. The Napanee club will play exhibition games this season, but regret very much the inability of Kingston and Deseronto to play in the union.

An effort is being made to play the champions of the Toronto league at Napanee on the 1st July. A very strong team can be put on the field and a scientific game of football will be the greatest attraction in Napanee that day. With such men as Palkinghorn, McIntosh and Edwards, from Deseronto; Gilbert, from Picton; Sliker, Murray and Robinson, from Kingston; and Smythe, Preston, Grange, Exley, Haines, Coates, Stevens, and Rockwell, from Napanee, a team can be picked out to make the western men play their best.
