A COMING EVENT.

The One Hundredth Anniversary Of Missionary's Lauding.

The bills and overtures committee of the Kingston presbytery at the synod meeting in Cobourg presented its report through the convener, Rev. James Cumberland, of Amheret Island. The report brought up a matter full of interest to students of the early history of the Presbyterian church in Canada and not a few prominent men now living grounds of a more personal nature. report contained a request that the synod would co-operate with the presbytery of Kingston in celebrating the 100th anniversary of the landing at Fredericksburg of Rev. Robert McDowall, the pioneer missionary to Upper Canada. In connection with the report Rev. Mr.

Cumberland gave an interesting sketch of brated Marsland Hats. We also Rev. Robert McDowall's work, and indicated the reasons why it was desirable that the Presbyterians of Ontario should take an active participation in the commemorative celebration. The celebration, which will be held at Fredericks. burgh, will be an important one in many respects, and Mr. Cumberland and the committee having it in hand were anxious to have as large a representation from the synod as possible. It was the desire of the committee to have the lieu. tenant governor, Sir Olivor Mowat, present. Sir Oliver as a boy knew the missionary well who was in the habit of making the Mowat homesteal one of his stopping places. The committee proposes also to invite the classes of Albany, from which body the missionary came. At the historical meeting in connection with the celebration Rev. Dr. Gregg will read a sketch of the missionary. The old church in which he used to preach at Fredericksburgh and which was failing 1000 ruins, was repaired some years ago, and among who gave colored windows to it were Sir John Macdonald, Sir Oliver Mowat and the descendants of the

Mr Cumberland asked that a committee of the synod be appointed to co-operate with the committee of the Kingston presbytery in promoting thecelebration, and he suggested the names of the Rev. Dr. Smith. Port Hope; Rev. Dr. Parsons, Toronto, and Rev. Mr. Burnett, all of whom had taken a deep interest in the restoration of the old church. With these he joined the moderator, and Rev. Dr. Gray, the clerk The suggestion was made as a motion, and was adopted. The date of the celebration has not to on demnitely fixed,

Death Of Mrs. Felix Shaw.

Last evening about seven o'clock, death entered the home of a leading cit zon and Mrs. Ellen Shaw, wife of Felix Shaw, sank into "the long and endless sleep that knows no waking." For the past nine weeks Mrs. Shaw had been ill with pleurisy and gradually grew weaker in spite of all that the best medical skill could do. She bore with patient resignation and fortitude her trying illness, knowing that the

ANARCHISM IS FLOURISHING. ITALY THREATENED TO BE TORN TO PIECES BY IT.

People Are Murdered and Their Houses Plundered-Unless the Government Can Suppress the Trouble Another Revolution Like That of the French May Occur-The Outcome of a Century of Misrule.

LONDON, May 12.-It is well known that the outbreak in Italy arises from far deeper causes than the rise in the price of bread. This is merely a pretext, the last straw breaking the back of submission to a system which for more than a century has ground down the country. The government is endeavoring to repress the rising with stern severity. Its success depends upon the loyalty of the troops. If this breaks down an era of anarchy comparable with the French revolution must be seriously apprehended. Berlin, May 12.-The accounts that

reach here of the troubles in Italy show that in some parts of the country the worst outrages of anarchism have occurred. Murder and incendiarism are the order of the day. It is already known how the mob did the physician Brandis to death at Minerveno. The doctor was not only victim. From his house, which was set on fire, the rioters wenu to the residence of a mill owner named Barletta, whose mills had already been plundered. Only a few days before he had a thankegiving mhes read in the presence of all his employees in his private chapel because the Madonna had made it possible for him to sell corn at fifty france per hundred-weight. When the mob reached the house of this miller millionaire he had shots fired from the windows at them. This doing no good, he threw 1,000 france in small nickel pieces into the midet of the crowd, but all in vain. The doors of the house were battered in and a terrible scene followed. Barletta bargained for his life. He offered thousands upon thousands of france and all his fortune, but amid savage cries of "We want your head," the old usurer was beaton to death like a mad

His wife was frightfully injured by blows from a hatches and the children barely escaped, being dashed from a bal cony. The mob then went on plundering. They penetrated all the houses occupied by the better classes, robbing, killing and burning. Those attacked did not dare even to defend themselves, but voluntarily opened their doors and handed out all the money demanded by the rioters. After eight hours' plunder ing the military arrived on the scene and dispersed the mob, heavily laden with loot. The whole neighborhood was white with flour taken from the mills. Rolls of gold coin and silver ornaments were found in the ditches where they had been thrown by the plunderers in their flight. Two hundred and fifty arrests were made.

The Agitation Revived. In council circles the agitation for paved streets is being revived. 'It is felt that under the present system too much money is expended annually in street repairs for unsatisfactory results obtained. Several presidents, George Taylor, M. P., and mayor firms have communicated with the board of works, desiring to tender on the work of street paving. The Kirby company, Ottawa, has volunteered to cement the space of one block free, leaving it to be tested for one year, providing they are guaranteed a contract for so much paving. It will cost between two and three dollars a square yard to have the work done. During the past ten or twelve years it has cost us many thousand dollars to keep Princess street alone in repair, and the results obtained have been far from satisfactory.
