la sale for the benefit of the children's ward at the general hospital. Saturday afternoon was the time appointed for the disposal of their handi work, the place chosen being Queen's College grounds, near Dr. Watson's Verbal invitations were given I to friends, old and young, and many promised to patronze the sale between four and six o'clock. No admission fee was a asked, but afternoon tea was served to each guest upon payment of ten cents. Home made candy and bunches of white lilacs were also fered for sale, and the girls found little difficulty in securing purchasers for their wares as the prices asked were so very reasonable, no article on the fancy table exceeding fifteen cents However, these small sums quickly raised the amount in the little treasury, until, at the close of the afternoon, it was found that the proceeds netted six dollars. The three girls were in high glee over their achievement. and they say that they had such fun dressing the dolls, making the candy, arranging the flowers, and decorating he tables, and then when their friends came, and saw, -- and bought, they felt that it was indeed a pleasure to work in this way for the children's ward They were three highly satisfied and very happy little girls who walked over o the hospital that evening, enquired or Dr. Third, and placed their earnings in his care, stating that it was their desire to Contribute towards a cot for a sick child. If every three or four of these agreed that they would try to do something for the hospital this vacation, what a lot of money might be sent in to Dr. Third, for the children's ward! What a fine ward we might have, and that a personal interest in hospital work would be taken by every little girl who contributed her mite of time and talent to this cause. Even if every three or four girls only made a dollar or two, what a help that would be to the hospital, and how many extra comferts might be provided for the pa tients in the new wing that is to be opened in the autumn. RESTORE THE SNAP, VIM, ENERGY AND STRENGTH YOU HAVE LOST.

Dr. Ward's Blood and Nerve Pills have been a great boon to my daughter Maggie. Prior to taking them she had been suffering from excessive nervousness for a long time, and her nerves were in a terribly shattered condition. The action of her heart was so weak that it did not have strength to perform its functions, causing violent palpitation and smothering after retiring. Frequently, on account of this suffocating sensation she was afraid to go to bed. Slight exertion exhausted her and caused shortness of breath. Her blood was impoverished and lost vitality, and she had no appetite. She was wasting away and was very hypochondriacal, feeling dejected all the time. Last December she began taking Dr. Ward's Blood and Nerve Pills, and she improved at once. Her blood became healthy and strong, and in six weeks her impaired nervous system was restored to its normal healthy condition. Her heart responded to the healthy condition of her blood and nerves and resumed its strong and healthy functions. She now sleeps without any of the dangerous, distressing, smothering and choking spells; her appetite is good, and she has gained in flesh. Healthy color has replaced pallor, and she is now well and strong, thanks to Dr. Ward's Blood and Nerve Pills. I thank you, gentlemen, for the remedy that has restored my daughter to health. A. GUNN.
