### DESTROYING THE PESTS.

An experienced gardener points out that the caterpillar pest may be destroyed by a proper and determined attack upon it. This pest is known as the tent caterpillar. In the fall the eggs are deposited in little beds on branches of trees of almost every variety and size, and these are easily discovered as they show a slight swelling on the branch, of glossy appearance. In the spring, as soon as the trees leaf, the eggs hatch, and the small worms begin their work, feeding on the leaves by night and cloudy days and secreting themselves on sunny days in webs which they weave in the form of tents. Therefore, when the sun shines, every insect belonging to the colony is in the tent, and it can be removed and destroyed or burned. "If," says the gardener, writing to the Ottawa Citizen, "on their individual estates the owners would spend a few hours, or a few days, according to the size of the farm, and county officials looked after the roadsides for one May month for two successive seasons, the victory would be won." The battle is worth the effort, for assuredly the caterpillar pest is a very serious one. With each season it seems to become worse. It must be combatted sooner or later, and the sooner the better.

### GIVEN THE GOVERNORSHIP.

M. C. Cameron, who has represented West Huron for so many years in the commons, is understood to have been appointed the governor of the North West Territories, and to contemplate an early retirement from parliament.

Mr. Cameron has served the people faithfully. He has made mistakes perhaps, for he is human, but he has been a warrior for liberal principles when it cost something, when courage and conviction did not get their reward. In the days of conservative government, when wrongs were done high-handedly, Mr. Cameron was in his place in parliament and denounced them, and in language so plain that its meaning could not be misunderstood. He was a valiant figure in opposition, and in the campaigns of his party.

Mr. Cameron will make a good governor of the territories. He has the experience, the necessary knowledge of public affairs, the executive capacity for which the office calls. His predecessor was a brilliant man, but he embarrassed himself by taking on services which, in the case of a fair and its deficits, gave him worry. Mr. Cameron will do well to confine his attention to the duties of office, and to discharge them as they ought to be.

### WORTH STRIVING FOR.

The present generation may not live to see the "federation of the world," but it may well hope to see that day when war is a thing of the past, and the world is united in a common brotherhood. Such a federation as that, not for conquest, but solely in the interest of peace, would be a great thing for men of all races.

### CEMETERY STOCKHOLDERS

Hold Their Annual Meeting on Saturday—Favorable Reports.

The annual meeting of the stockholders of the Ottawa cemetery was held in the police court room on Saturday afternoon. The meeting was presided over by the directors, who submitted their report for the past year ending April 30th. The audited statement showed the revenue for that period to have been \$3,650.94 and the assets \$1,128.70; leaving a surplus of \$2,522.24. The statement showed precisely from what sources the income was derived and also the detail of every item of expenditure. The perpetual care fund had increased this year by the sum of \$330, and now stands at \$2,970. The total amount of invested funds is now \$6,370, and the amount to the credit of the general accounts \$2,493.22. The interest on all investments is punctually paid, and the sum of \$500 of principal has been repaid during the year.

Superintendent George Nicol in his report stated that there had been 286 interments during the year, twenty-seven more than during the preceding twelve months. The permanent improvements made during the year included a new fountain, four ornamental iron vases, 100 yards of curb-stone for roadway at main entrance and two new roadways through rear section L. The work of enlarging forest pond is being continued and a large quantity of stone for building purposes and for making roads has been taken out. Thirty-seven foundations for monuments had been built during the year. Several hedges and railings have been removed, and monuments have replaced a number of old, high headstones. The superintendent reported that visitors were more numerous than formerly, that lot holders were exhibiting a greater interest in the care of their plots, but fully fifty per cent. of the lots are entirely neglected and dilapidated. Fences on these neglected lots make impossible a more desirable improvement in the appearance of the cemetery.

Both reports were received and filed. The old board of directors was re-elected: Lieut.-Col. Duff, chairman; T. Briggs, Jr., W. Rogers, B. W. Robertson and H. W. Richardson.

### ONTARIO'S POPULATION.

Some comment was been passed upon the recent statement of the Toronto Board of Industries, and to the effect that the population of Ontario in 1897 had fallen to 1,917,544. The word "fallen" is used because the census of 1891 showed the population of the province to be 2,114,321.

The Insurance Chronicle, a reliable financial journal, cannot figure out how the decrease has occurred. "If," it remarks, "the population of Ontario was 2,114,321 in 1891, as shown by the official census, then an increase of one per cent. per year would have raised the population to 2,241,000 in 1897. However, the report of the Toronto Board of Industries is correct, which gives the population of Ontario as 1,917,544 in 1897, the province not only has lost all the natural increase caused by an excess of births over deaths, but, in addition to such loss, must have also parted with a population of 196,777 between 1891 and 1897, which, if true, is a very serious matter."

Before a correct judgment can be formed, it is truly remarked, a comparison has to be made of the manner in which the calculations have been made in each case. We know how the dominion census has been taken by an army of enumerators, going from house to house. The information, collected all on the same day and afterwards compiled, ought to give accurate results. But we know that when a national policy government desired statistics in support of its pet theories, that every one could be made rich by act of parliament, that good times could be legislated in, and had been legislated in, by it, they were forthcoming by the census. The exhibit of industries made by the enumerators in their classified columns was something remarkable.

And if there could be extravagance of one kind there could be extravagance of another, though in the totalling of the number of people found in any given district it is hardly probable there was a

### SPORTING PARAGRAPHS.

What is Transpiring in the Sporting Arena As Sports Go.

Fred Metcalfe's new horse entered in the race at Toronto on Saturday.

The lacrosse team holds practice this evening, the first since their game with Renfrew.

Hugh Nichol made a new fox horse to his stables last week. It is a beautiful carriage horse.

R. J. Wilson has received blank forms for entries to the different C. W. A. events at the annual meeting at Peterboro on July 1st.

A number of bicyclists went up to Bath on the steamer Hero on Saturday and wheeled back to the city. On the way in H. H. Gildersleeve broke the crank of his bicycle and had to walk.

On Saturday the Artillery II baseball team defeated the Limestones by a score of forty two to eight, the victors winning a \$150 bill. The batteries were: Artillery, Loughrin and Lawrence; Limestones, Shannon and Burke.

### PRESS PARAGRAPHS.

The Yanks Have The Pull.

Ottawa Citizen.

If Ottawa is bottled, he's gone. The Americans are adepts with the corker.

A Positive Statement.

Galt Reformer.

The other squadron seems to be in command—Hamilton Spectator. That explains why a reply to an inquiry respecting its whereabouts is a "negative."

The World's Appreciation.

Detroit News-Tribune.

The News-Tribune holds that one high test of character is the ability to measure character. The world's ability to appreciate a Gladstone is proof that the world is morally great. The spectacle of a world paying homage to its greatest good man is quite as sublime as the life itself to which the homage is paid.

Worth Striving For.

Indianapolis News.

The present generation may not live to see the "federation of the world," but it may well hope to see that day when war is a thing of the past, and the world is united in a common brotherhood. Such a federation as that, not for conquest, but solely in the interest of peace, would be a great thing for men of all races.

A Gladstone Enigma.

Springfield Republican.

There is a conundrum as to Mr. Gladstone. Of a word of eleven letters six signify what he loved, five what he hated; the interest on all investments is punctually paid, and the sum of \$500 of principal has been repaid during the year.

### PRELIMINARIES OF ALLIANCE

To Recognize the Monroe Doctrine And To Support Britain In The East.

LONDON, May 30.—A despatch to the Daily Telegraph from Washington says that the correspondent has learned on the authority of an official of the state department that important preliminaries of an Anglo-Saxon alliance have already been taken. Great Britain, the despatch adds, will recognize the Monroe doctrine and will not attempt to increase her territory in the western hemisphere. The United States will build the Nicaragua canal, of which Great Britain will have the use during war. The United States will hold all territory taken from Spain and Great Britain will protect her in her possession thereof if she is threatened. The United States will support Great Britain in China and the far east. All British ports in China will be opened to the United States under the "most favored nation" clause. The main features of an arbitration treaty have been provided. The alliance in case of war will be offensive and defensive.

### WAS A MUSICAL TREAT.

GENESEE, May 28.—Most of the farmers have finished seeding and are now engaged with planting. The prayer meetings in the Methodist church have a fair attendance. Rev. Mr. Curtis will soon be leaving. His departure is regretted. Quite a number from here celebrated the 24th in Kingston, while others spent a pleasant day on the lake. A few attended the concert given by the famous D. Godfrey's band on Wednesday evening a report it a rare musical treat. W. J. Craig, Ottawa, spent Saturday and Sunday with his parents before leaving for Keewatin, where he has secured a good situation. Misses I. Spooner and B. Fowler have invested in new wheels. Mr. Fair, jr., children spent a few days last week visiting friends at Harrowmith. R. Vair is getting a new vat for the cheese factory. Mrs. J. Craig, jr., Kingston, is spending a few days at William Craig's.

### Shoplifting The Charge.

PEABODY, May 28.—Renfrew seems to be the criminal centre of Renfrew county. Thursday "Barney" McBermet was in town with a Mrs. McKay, of Ross township, who was charged with several petty thefts from Renfrew merchants. She was tried before Judge Thomas Deacon yesterday and was let off on suspended sentence. Mrs. McKay is the wife of a respectable farmer, and the judge inclined to the opinion that her crime was the result of a temporary deranged mind, caused by her having taken a dose of chloroform a short while before the commission of the crime.

### Fair View Panicles.

FAIR VIEW, May 30.—Farmers are planting corn and crows are pulling it up. R. Dennison is building an addition to his house. Mr. and Mrs. E. Snider spent the 24th at A. D. Snider's. Annie Shannon was visiting at John Louck's. Van-astine, on the sick list, is getting better. John Bennett has been attending Deseronto market and reports prices good. Mr. and Mrs. A. D. Snider spent Sunday at Violet.

### Tenders Were Opened.

Tenders for the work of erecting the new school house for St. John's church, Portmouth, were opened this morning, but owing to the absence of some members of the committee no action was taken. The committee will meet again in a few days, when the contracts will be given out.

### There Are Many

Kinds of men's three dollar shoes sold in the city, but if you want three dollar's worth wear style and comfort try the Slater shoe. Haines & Lockett, sole agents.

George Wilson, contractor, left today to commence operations on his new mica mine, back of Gananoque. He started this morning that he would not take \$100,000 for his chances. He expects a rich production.

The governor of Sierra Leone cables that Rev. and Mrs. McGrew, American missionaries, were massacred about May 28th at Taima, near the scene of the other massacres.

J. H. Aylesworth, Bath, had a valuable horse ruined by getting entangled in a wire fence last Saturday.

### Baseball Contests.

The Princess street nine made a good beginning of their season's work on Saturday afternoon, defeating a picked team of the old St. Lawrence aggregate by a score of sixteen to four. The Princess street nine comprises good material and under the management of W. Wilson is developing good form. The game on the cricket field was one of the best seen here this season, and was free from any of those delays and kicking.

The St. Lawrence, with "Broomy" Campbell in the box, played good ball during the first five innings and easily had their opponents beaten. When Hutton took the box the team seemed to go to pieces and the Princess street nine had an easy thing. The wicket-keeper was much admired. The teams were:

Princess street—Wilson, 3; Routley, 2; J. Laird, 1; Quay, 3; W. Laird, 2; Smith, 1; Donnelly, 2; Fry, 1; W. Hamilton, 1. St. Lawrence—W. Christmas, 2; Nicholson, 3; G. Evans, 2; Kennedy, 1; Campbell, 2; Hutton, 1; Fowler, 1; Lebeup, 1; Bruce, 1.

Donnelly and Wilson were in the points for the winners as J. Campbell and Hutton pitched and W. Christmas caught for the St. Lawrence. Umpire, A. Oliver.

### Capitals vs Rockwood.

At Lake Ontario park on Saturday afternoon the Capitals were defeated by the Rockwoods by a score of six to twelve. The score is a good indication of the exciting game. With Storms and Thompson in the points the Capitals will probably reverse the score on Saturday next on the cricket field. Mathewson and Devlin was the battery for the Capitals and Sullivan and C. Clarke for the home team. W. De Haney, of old Granite fame, umpired in a satisfactory manner.

### Sale of Burnt and Other Timber.

A QUANTITY of PINE TIMBER, ESTIMATED at five million seven hundred and fifty thousand feet, board measure, situated north and west of the East Branch of the Spanish River, in the vicinity of Ramsey Lake, having been partly damaged by fire, the undersigned hereby offers for tender to the highest bidder at the same.

Tenders will be received up to and including the SECOND DAY OF JUNE NEXT, and must state the rate per thousand feet, board measure, if made into sawlogs, or per thousand feet, cubic, if made into square timber, which the tenderer is willing to pay as bonus, in addition to the ordinary crown dues of the timber, and Twenty-Five cents per thousand feet, board measure, on sawlogs, and Twenty-Five Dollars per thousand feet, cubic on square timber. Parties tendering may make an alternative tender of a lump sum as bonus in addition to the crown dues at the rates heretofore stated. Tenders must be accompanied by a marked cheque for \$1000. The party awarded the right to cut will have to give a bond with satisfactory sureties, for the performance of all the terms and conditions which may be required by the Department.

Mr. A. W. Robling, Forest Ranger at Havelock Station, C.E.R., will give information with respect to the situation of the timber, and further particulars, as to the Department's estimate only, and intending purchasers must satisfy themselves as to quantities and purchase upon their own estimate. The Department does not bind itself to accept the highest or any tender. Tenders should be marked "Tender for Burnt Timber" and addressed to the Honourable the Commissioner of Crown Lands, Toronto.

J. M. GIBSON, Commissioner Crown Lands, Woods and Forests Branch, Toronto, 12th May, 1893.

### Offered \$10,000.

Brantford Post-Express.

Lieut. Godfrey has been offered \$10,000 to give four concerts in New York. He cannot accept. The Spanish-American embargo, and the attitude of strict neutrality prevents the engagement. The members of the band are all first class reservists and actually upon the roll of the British army.

A woman of French nationality complained to the police this morning about a man who promised to marry her but afterwards refused to keep his word, desiring to marry another woman. The French woman said she had spent \$300 on her affianced husband and wanted satisfaction.

On Friday night members of the 57th battalion discussed a trip to Watatona on July 4th. They received a formal invitation from the 39th separate company while in Kingston on the 24th inst. An excursion via Kingston will be run in connection with the trip.

A McLaren, formerly hotel keeper on Wolfe Island, has returned after an absence of three years in Pennsylvania. The corporation road employees are grading the road bed on King street west.

## Reasons

Why the "E. & D." is the Wheel for thee.

Because its famous 4-point bearings and accurate workmanship make it the EASIEST running wheel on earth.

Because its bearings are absolutely dust proof and require oiling only ONCE a year.

Because it is the product of CANADIAN thought and skill.

Because it costs but a TRIFLE more than wheels with ordinary bearings.

Because it is PERFECT in construction and design, elegant in finish, regal in beauty.

Because taken all in all it is beyond contradiction "THE WORLD'S BEST BICYCLE."
