Dothing like it for an evening's entertainment.
Other so-called talking machines reproduce only records or cut-and-dried subjects, specially prepared in a laboratory, but the Graphophone s not limited to such performances. On the Graphophone you can easily make and instantly reproduce records of the voice, or any sound. Thus it constantly awakens new interest and its charm is ever fresh. The reproductions are clear and brilliant.

Manufactured under the patents of Bell. Tainter, Edison and Macdonald. Our establishment is head-guarters of the world for Talking Machines and Talking Machine Supplies. Write for catalogue.

Five miles beyond Canmore

was all silver and gold. us, and the men were loud in their praises

notify the corporation of the city of King-

Brigade Officers Recommended.

And price lower. Good strawberries

ston that he must charge the city a rental

time and become comfortably self-support- for the army.

Getting Better Every Day
