GOVERNOR'S JOURNEY CHARGED WITH FORGERY.

CHARLESTON, W. Va., June 1.—In the circuit court at Glenview yesterday began the second trial of Mrs. Myra H. Atkinson, wife of governor Atkinson, charged with forgery. In 1884 she married Judge Camden, getting \$100,000 for marrying him and caring for him in his old age. After he died she is supposed to have sold lands belonging to the estate, and by means of the forged letters to attempt to prove that the transaction had been concluded before his death. The case was tried last September, two juries standing for acquittal and two for conviction. The governor will sit by her side during the trial. It should be convicted, which is improbable, it is intimated that he, in his capacity as governor, will pardon her. Miller's Worm Powders are a wonderful medicine. For sale by all druggists.

ARMY ON ITS WAY TO CUBA.

SUCH IS THE BELIEF—TO LAND AT SANTIAGO.

The Censorship is so strict that no report will be allowed to go until days after the fleet starts for Havana. Yesterday morning the news from Santiago succeeded before The Harbor—New York With Little Resistance. NEW YORK, June 2.—A Washington despatch to the Herald says: Rear admiral Sampson has succeeded in capturing the Spanish fleet. At the same time, the number of American men-of-war cruising off that port has been increased to fifteen, so that it is now practically impossible for Corvera's squadron to escape destruction or capture.

A Madrid special says: The condition of the bank of Spain is considered more serious than any reversal of the war, inasmuch as the impossibility of the bank to help the government means an impossibility to continue the war. WASHINGTON, June 2.—It is confidently expected that the first military expedition into Cuba, under Gen. Shafter, will leave Santiago de Cuba and attack Admiral Corvera's fleet from the land early next week. Rear admiral Sampson has concentrated a formidable fleet of armor-clad, protected cruisers and torpedo craft off Santiago and has arranged for a strong convoy of lighter vessels to accompany the troops, so that there will be no escape for admiral Corvera by sea and operations can be commenced as soon as the military expedition has been landed. There is a ready probability that the army has already left American soil and is fairly on its way to the point of embarkation, near Santiago de Cuba. Strict orders have been issued by Gen. Greely, chief signal officer, to the press centers at Tampa and other southern points not to allow any news relative to the embarkation of troops to be telegraphed until several days after the men have sailed.

At Havana, June 2.—Among military men the opinion is held that the American troops will be allowed to land in Cuba without much resistance. Orders have been communicated to some of the departments that a little resistance may be made against the invading forces, but the instructions to other departments are that they shall be permitted to land freely and without opposition. Only a few departments have been ordered to make a feeble resistance to the invaders. The opinion prevails among all military classes that it will be better for the Spanish interests to facilitate the invasion, and permit the invading army to go to the interior of the island. It is believed that should the American government succeed in mobilizing a great army in Cuba, it will arouse the army to the point of making a more effective resistance than the final clash. The bishops and priests are holding frequent religious processions in Havana in favor of peace. Churches are crowded, especially by women. Resident foreigners are attending also in large numbers.

NEW YORK, June 2.—The Telegram publishes the following Havana despatch: "From a Spanish correspondent." Gen. Blanco has received cables from Gen. Linarez, at Santiago de Cuba, advising him of having repelled the United States fleet. At the Albert theater the performance was suspended as soon as the news was known. It was announced from the stage, bringing about an enthusiastic manifestation. The orchestra played "The March from Cadiz" which evoked loud cheers. To-day Havana is very merry. The balconies of all houses are decorated with banners and unparellelled enthusiasm is everywhere manifested.

Madrid, June 2.—The following is the text of an official despatch from Havana: "The American squadron, commanded by commodore Schley, composed of large iron-clads and cruisers, attacked the fortifications at the entrance of Santiago. Our iron-clad Cristobal Colon, closing the mouth of the port and supported by the fire of the forts, repelled the attack, causing damage to the enemy. (Signed) MANTECO, admiral."

Prior to the receipt of the foregoing despatch count Cases Valencia asked in the senate whether the news that had been received of a Spanish victory was official. Senator Aunon, minister of marine, answered affirmatively and added that the news was a good augury of further victories that would be gained by the courage and merit of Spanish sailors. The senate unanimously adopted an expression of satisfaction at the striking victory gained by the Spanish fleet.

WASHINGTON, June 2.—Spain's power in the Atlantic is to be dealt a crushing blow at Santiago de Cuba, just as it was overwhelmed in the Pacific ocean at Manila. For the time being all other projects against Spain on this side of the globe are to be suspended and the army and navy are to unite in delivering a blow at Santiago which will render Spain powerless to undertake any offensive naval moves and which will at the same time give the United States a firm foothold on Cuban territory.

WASHINGTON, June 2.—Admiral Dewey's fleet at Manila is to be strengthened by the addition of another monitor unless circumstances arise in the next ten days to make it advisable to maintain a stronger naval force in the Hawaiian islands than is now represented by the little gunboats Bennington and the Mohican. The Charleston is already en route to Manila conveying three transports with 2,500 soldiers, and the Monterey is being prepared at San Francisco to follow as soon as she is fitted for sea. The Mandanock is now cruising in Puget Sound guarding the big new dry dock there against possible harm.

LONDON, June 2.—A despatch to the Daily Telegraph from Madrid says general Wey arrived at Santander on Tuesday. Thousands of the residents of the city met him at the station and gave him an ovation. Later enthusiastic crowds surrounded his hotel and refused to leave until he appeared on a balcony when he was vociferously cheered, the favorite cry being "Long live the modest general." Similar enthusiasm was manifested at every station on his journey to Santander.

TWO MORE RUNAWAYS.

One May Result Fatally—William Fenwick Leaves For The Coast.

NAPLES, June 2.—The cheese boat yesterday afternoon, 1,315 boxes of cheese were boarded, 315 colored and 800 white; 425 white and 225 colored sold at 7 1/2. Thomas Symington is in Ottawa this week. Wesley H. Collier is visiting friends in Peterboro. Bessie McRosiee arrived home from Hamilton yesterday. Rev. R. Young, Bath, was the guest of Rev. W. P. Peck at the manse one day this week. A daughter arrived to brighten the home of Mr. and Mrs. Dennis Day, Pictou Hill, on Saturday. William Fenwick left yesterday for the coast, where he intends spending the summer, and if he likes that country he will remove his family there in the fall.

J. W. Anderson's horse ran away on Tuesday morning, but was captured opposite Madden Bros' grocery. No damage of any consequence was done. Word reached here yesterday of a serious, if not fatal, runaway accident at Colbrook, near Pictou. Capt. Corbett was just returning from his day's work when some boys fired off a gun in close proximity. The horses started to run away and became unmanageable, throwing Mr. Corbett out on a heap of stones. He is very severely injured. The doctors could not say, shortly after the accident, whether any internal injuries had been sustained. He is very severely cut about the face and head and complains of an acute pain in his side.

His Leg Went By Express. Atlanta Constitution.

A somewhat reckless youth who had enlisted for one year and had spent his time in camp in writing home for money, finally sent this telegram to his father: "Father: Leg shot off in sham battle. Send all funds you can." To this the old man replied: "Son: Don't know your number, but wooden leg goes to you by express. If it doesn't fit, get camp carpenter to plane it. Best love. All well here."

Cleaning Up Once a Year.

The majority of people treat their systems in the same manner as a house-keeper treats her home—they go in for a good cleaning once a year. In the "home" it is a rational custom. In the case of the human system it is a most irrational habit. Your health is your most valuable possession, and it should not be necessary to have to impress upon you that you should take constant care of it. If you have been neglecting it during past seasons, and feel the need of a Spring medicine, take

Abbey's Effervescent Salt

Take it every day. It is not only a Spring medicine. It is an all-the-year-round tonic and invigorator, which purifies the blood and cleanses the system. Its use in the Spring will do you more good than many so-called Spring medicines. The fact that it is endorsed by and enters into the prescriptions of the leading physicians of Great Britain, Europe and Canada, should be sufficient guarantee of its sterling worth.

Abbey's Effervescent Salt is a standard English preparation, which is sold by all druggists at 60 cents a large bottle. 12½ cent, 25 cent.

A RELIABLE OFFER.

Honest Help Free To Men. The Kingston British Whig is authorized to state by D. Graham, Box 133, Hagersville, Ont., that any man who is nervous and debilitated or who is suffering from any of the various troubles resulting from a forced excess or abuse such as nervous debility, exhausted vitality, loss of vigor, unnatural drains and losses, lack of development, etc., can write to him in strict confidence and receive free of charge full instructions how to be thoroughly cured.

Mr. Graham was himself for a long time a sufferer from above troubles and after trying in vain many advertised remedies, electric belts, etc., became almost entirely discouraged and hopeless. Finally he confided in an old clergyman, whose kind and honest advice enabled him to speedily obtain a perfect and permanent cure. Knowing to his own sorrow, that so many poor sufferers are being imposed upon by unscrupulous quacks, Mr. Graham considers it his duty as an honest man and a firm believer in christian sympathy and kindness, to give his fellow-men the benefit of his experience and assist them to a cure. Having nothing to sell, he asks for no money, the proud satisfaction of having done a great service to one in need, he rightly considers an ample reward for his trouble. If you write to Mr. Graham you can rely upon being cured and upon being absolutely cured as well.

Address as above, enclosing a stamp and refer to the BRITISH WHIG. No attention, however, will be given to those writing out of mere curiosity, therefore state that you really need a cure.

OPPOSES A BRITISH ALLIANCE

Ex-Secretary of State John Sherman Makes Some Emphatic Statements.

CHICAGO, June 2.—In an interview in the Chicago Tribune, ex secretary of state Sherman was emphatic when he started to talk of an English alliance.

"I don't believe public sentiment is in favor of such an alliance," he declared. "Great Britain is the most unpopular nation on the globe, and she knows that she has enemies. An offensive and defensive alliance, such as has been talked of, would not overawe other nations, as some believe. We would not gain anything by it. We have all the alliances we need as present."

"The United States has more treaties than any other nation. We are not isolated by any means. Every treaty with another nation is an alliance. It has been the policy of the United States, with one exception, to avoid every complication of the kind. We had such an alliance with France, but it was never attempted with any other country. I do not believe there will be any complications with any other nation on account of the Spanish war."

The Monday Question.

At the annual meeting of the working men's Lord's day rest association, London, Sir Mark Stewart, M. P., presided. The report stated that the boldness of Sabbath desecrators was increasing, and the Sunday opening society had appeared in its true colors, boldly demanding the repeal of the Lord's day act. Sir John Bredin had imposed only a nominal penalty for the employment of women by a theatrical costumier on Sunday, though an earlier court full penalties—amounting to £35—had been inflicted because women were employed after four o'clock on a Saturday afternoon. Regret was expressed at the resumption of Sunday band playing at Windsor Castle. The society's income for the year had been £1,147.

Dewey's Religion Determined.

Buffalo Commercial.

The following letter which we are requested to publish, speaks for itself:

"MY DEAR SIR: I am authorized by the Hon. Charles Dewey of this city to state that rear admiral Dewey is a loyal champion of the P. E. church. 'He is not a Roman Catholic. I hope you will contradict the story. You are welcome to use my name with Mr. Dewey's if you wish. Yours truly A. N. LEWIS, rector of Christ church."

Couldn't Answer. "Witness," asked the attorney for the defence, who was trying to prove the temporary insanity of the prisoner, "was it this man's habit to talk to himself when alone?"

"Just at this time came the answer, 'I don't recollect ever being' with him when he was alone."

It's English You Know. Some amiable critics have asked why the words "gown" and "frocks" are used instead of the word "dresses" when that word has always satisfied the masses of people who have used it. One very good reason is that our grandmothers, who knew the right word, used the two former instead of the latter. The word "dress" means the entire wardrobe of a woman.

LANCASTERIAN FUND.

Grants Towards The Orphan's Home And The Y. W. O. A.

The midland district school society, in charge of the Lancasterian school endowment fund, held its annual meeting yesterday afternoon at three o'clock; the following being present: A. Gunn, chairman; J. Machar, secretary; J. Forsyth, treasurer; Lieut. Col. Duff, R. V. Rogers, J. McArthur, Dr. A. P. Knight, Rev. Conway Cartwright and H. W. Richardson. The financial statement placed the capital of the society at \$21,155.93, including the balance of \$92.34 from last year. The income for the year was \$1,065.39.

A full discussion arose on the question of distributing grants of money to men in situations that the society has done hitherto. Applications were received from the orphan's home, young women's christian association, Hotel Dieu, and house of Providence for grants towards next year. A resolution was introduced in favor of granting the last two institutions named the sum of \$200 to be equally divided, but was defeated. The sum of \$300 was voted to the Y. W. O. A. for the purpose of opening a school of domestic science, the amount to be given on the condition that an additional \$500 be secured from other sources. The sum of \$600 was laid aside for the orphan's home.

Inasmuch as there existed a difference of opinion among the members of the society as to the legality of a grant to the orphan's home, a resolution similar to one made last year, suggesting obtaining the opinion of an eminent canon, was voted down, but received more support than the resolution of last year. The question of instituting a friendly suit in court for the purpose of determining the validity of the present mode of distributing the funds was discontinued, the majority of the board favoring the legal costs of such a suit.

The old officers were re-elected in the following: A. Gunn, chairman; J. Machar, secretary; J. Forsyth, treasurer; J. McArthur, Col. Duff, R. V. Rogers, Dr. Knight, H. W. Richardson and Rev. C. Cartwright, trustee.

The usual grant of \$50 to the children's aid society was overlooked, and in all probability will be replaced, as there was no intention to discontinue it.

A Canadian Hook.

"CANADA AND ITS CAPITAL," by Hon. J. D. Edgar, Q. C., speaker of the house of commons, illustrated by twenty-one photogravures, \$2.50.

The appearance of a volume on the centre of governmental, social and political life, is an event in bookmaking. Such a work could not fail to be received with great interest, were it but the well executed task of an industrious literateur. There is enough in the records of the Canadian seat of government to engage the attention and give play to the faculties of the most brilliant historian. The rise of the city of Ottawa, from being a mere location in the pathless pine forest, to the site of the finest group of government buildings on the globe, must be full of attraction. The story of that rise comprises much of romance for it includes the days of the aborigines, and the struggles of the early pioneers. There is not a dull page in the book and the illustrations are excellent.

It is rarely that such a history is undertaken by an author so specially fitted, as Hon. J. D. Edgar. For thirty years he has been connected with the political and social life of Ottawa. The pages show detail and accurate acquaintance, with great ability in the grouping of facts, and the historian's faculty of discrimination between the essential and the unimportant. While little of value has been omitted the story is told in such concise and well chosen language that "Canada and Its Capital" is sure to take very high rank among topical historical works.

From his position as speaker of the house of commons, Mr. Edgar has had unparalleled facilities for obtaining data and speaking intelligently of the institutions of government. Nor has he hesitated to introduce the human element, including the personalities of early settlers and the characteristics of leading statesmen. The characteristics of Sir Wilfrid Laurier, of Sir Charles Tupper, of Sir Richard Cartwright, will take their place, as among the most interesting of contemporary biographical sketches. The descriptions of summer and winter sports and forecast of the future of Canada given in the presence of the statesman. This work will have a permanent and distinct value, and no Canadian library, whether public or private, can be complete without it. The publisher is George N. Morang, Toronto.
