

This is Sleepless Hall!

It has 210 windows, yet its electric light bill is \$300.00 per month.

It contains 48,000 square feet of floor space, employs 600 tailors and tailoresses, cuts up 20,000 yards of cloth weekly, and makes 5000 gentlemen's garments every six days.

It has 120 electric sewing machines, and 28 electric pressers, as well as electric cutting knives, and button hole machines, which each do the work of 28 people daily.

Its tweeds and linings are bought direct from the mills housand vard lots in in thousand yard lots, instead of in 21/2 yard lengths as the tailor

buys them from wholesalers. t costs "Sleepless Hall" \$2.50 for the

making of a dress suit which would cost a tailor \$9.00 for making the coat alone. This is why no tailor can sell

a suit equal to a \$15.00 "Fit-Reform" for less than \$25.00 to \$35.00

Had this evidence been forthcoming, had it been available, accessible or certain, the petition would have been put down in the list that will be handed to the judges for their attention as soon as possible.

CANADA WON'T SUFFER. ment which has been proposed by Germany comes in. with Great Britain. It is to the effect that from and after July 31st Germany will extend to Great Britain and all her colonies, excepting Canada, the much-favoured nation clause.

This is a weak attempt to retaliate upon Canada becaue it would not let Germany in on the ground floor with ite tariff concessions. Germany had the denunciation of its treaty postponed as long as possible and for the reason that it wanted the trade that Canada figured upon turning over to the mother country. Germany's industry and German labour have been successful in putting upon the British market arti" cles for the production of which the British had long a monopoly.

But the twenty-five per cent. preference "The water works department has been year to Garmany, if not most of are abundant reasons for the city's pur it, will go to Great Britain. The sug- chase. I wish that more of our frangestion that some of it may go to Germany chises were in the hands of the corpora is not correct, as the preference, in tariff tion. The plant of the water works is matters, can only be shown to goods of the surplus carried over from 1897 gives British production. What of Canada's hope that the committee may see its way exportations to Germany? In 1897 they to further aid the consumers, either by re. amounted to \$1,045,000, or one-sixth of its duced rates or by the curtailment of some from Santiago harbor was furnished by his importations. The advantage of the billed. The tax for use of hose on boulechange is all on the side of Canada, and vards and baths might reasonably come Germany, on its part, may be adding to under review. Well kept boulevards en. ite injury.

five years the imports from Germany have ance of the city. Their proper care been increased by \$3,000,000, and the ex. should be encouraged and to this end, in ports to \$300,000. In 1893 Canada bought under certain conditions, be provided five times as much as it sold, in 1897 more free." Respectfully yours,—Boulevard. revise the order. It will be a good thing

## CROWDING THE PUPILS.

duction of domestic science into the ing of whistles by trains coming in and goregular course, serves a useful purpose. It is directing thought as to two points, who, perhaps, when about to drop asleep, Santiago, probably will be a mass of and (2) the necessity of raising the public a locomotive whistle. The nuisance is inechool carriculum. The teaching of household duties, which

embraces the preparation and cooking of foods, is very important, and it cannot be taught too thoroughly to the girls of the present and women of the future. But it cannot be crowded into the schools with. out a complete rearrangement of the studies to which the senior pupils are now subjected. Let it be borne in mind that already there is ground for objecting to the work that is put upon the yesterday. pupile, work that takes up most of the day and some of the night, work that the medical men have, while in session in Toronto recently, declared to be too exacting and injurious to health. There is too much study, and not enough exercise, that is the exercise that is intelligently directed, and that has to do with a proper develop. ment of the physical energies.

Hon. Mr. Ross, speaking at this meeting in Toronto, is reported to have said :

"I believe we go too fast-our system is too fast and it is top heavy. If you gentlemen can help us to remedy these things, it would be a good thing. I should like to meet a committee from your ranks. hope the matter will not stop here-it should eventually come to parliament."

The crisis is approaching when new sub. jects are being crowded upon an already overburdened curriculum. The demand is not for a shortening of the course of study, W. J. FAIR Esq, but for the lengthening of it. The object is not to pass boys and girls into and out of the public schools in a certain time. They should not be hurried. On the contrary the course should be revised so that the entrance examination cannot be reached so soon and by an overcrowding of the Kingston, we hereby express our sincere youthful minds. The work of the fourth American Life Assurance company. The classes is excessive. It can be reduced by promptness with which you have paid this making the subjects now covered in one year the subjects for two years, with a proportionate reduction in home exercises. As things go the scholars are being rushed through the classes, and for what purpose? What is gained by it ?

It is hoped Hon. Mr. Ross will give the matter his serious attention. He is commending certain special studies. He must determine how they are to be undertaken with regulations that for the present really shut them out.

On Saturday M. Ribot, after consultation, informed president Faure that he was unable to form a cabinet to succeed the

Meline ministry in France. The Sone of Scotland will hold their annual pienie on July let at Long Island

ED WITHIN 300 YARDS. Chances of Escaping-Thousands Leaving Manila-Rebels Still Advancing.

NEW York, June 20.-A Washington The city treasurer and city collector are special to the Herald says: Every reason.

A Washington special to the Herald says that the officials of the navy depart. ment are awakening to Cervera's part and their confidence in his assurance that As a result of the Anglo American fever Hobson and his men are being well cared ground that Ovideo's visit to Sampson af ter the sinking of the Merrimac was not because of Spanish admiration of Ameri

The United States has paid the amount of Europeans, including twenty-seven French the Paris tribunal awarded on the Bearing nuns, and forty boxes of specie for the sea claims, \$473,151.26. There was no chartered banks. At two o'clock on the hurry about it, however. The award hung one steamer City of Pekin, which expected until the last day of its limit, and only to arrive at Manila that day. It is stated to the American troops. The refugees expect that Manila has now surrendered.

the Manila railway station, Tutudan and

general of Canada. My lord has not been night orders were issued to the auxiliary cruiser St. Louis to pick up the cable connecting Santiago with Kingston, and to cut it. Former efforts had convinced admiral Sampson that it would be impossible to locate this important cable from any gune, so the St. Louis boldly steamed right into the mouth of the harbor. She is a strong demand for them. was discovered by the Spaniards, and the searchlights on Morro castle played about the American vessels for a long time. to within 300 yards of Morro's guns and make a handsome garment. the men with the fleet outside momentarily expected to hear the enemy open fire on the cruiser. It would have been a simple matter to have sunk the St. Louis at such close range, but for some reason the Span- 25c yard. long search the St. Louis returned to the fleet and reported that she had been unable to find the cable.

full range 25c to 50c yard. Strong proof that admiral Cervera has abandor I hope of escaping with his fleet ships were about the harbor, the New York, being off to Guantanamo, while the Oregon and Iowa were taking on coal. Despite this great weakness in the strength of the American fleet the Spanish admiral did not appear to accept battle on ever

Heliographic communication between Santiago and Guantanamo by the Spaniards finally has been interrupted. This system has been used to advantage by the enemy for several days, but the Cubans have captured several intermediate signal posts and thus have put a stop to it.

ON BOARD DESPATCH BOAT SOMMERS N. Smith, off Santiago, Saturday night, via Port Antonio, Jamaica, June 20. - By the time this despatch reaches you Morro castle, the principal fortification stand. ruins. As I have explained in previous deepatches the only thing that has prevent. ed the destruction of Morro castle long ago was the fact that Hobson and the other members of the Merrimac crew were imprisoned in that fortification, and the Americans took every precaution to spare them from danger during recent bombardments. Admiral Sampson has been convinced from the first that admiral Cer-One death from smallpox has occurred vera and general Linares had Hobson and his fellow heroes placed in Morro castle solely to prevent the Americans from

bombardments that have ta ken plac in the vicinity the United States gunners have been at a disadvantage be cause of the orders of admiral Sampson's instructions not to fire on Morro castle. They were most careful in aiming the guns not to allow a single shot even to threaten Morro castle with destruction Admiral Sampson learned to day posibively that two of men had been taken by the Spaniards t) the marine hospital and that all of the others had been removed back to the city Upon receiving this information the admi ral immediately rescinded his orders no to fire on Morro caetle. "One dynamite shell will destroy the fort," the admiral said as he discussed with those on board the flagship the latest action of the enemy in dealing with Lieut. Hobeon and his men

Naval Manœuvres Are Off.

London, June 20.—It is announced that Great Britain will not hold her usual annual naval manuvree this year. This has caused much speculation as to the rea. See you get Carter's, son for this etep.

In some quarters it is said it is due to Ask for Carter's, lack of coal, owing to the Welsh strike, but in other quarters it is believed that Insist and demand important events are in sight.

The officials of the British admiralty decline to give their reason for abandoning the manœuvres, but say it is not because
