"Opifer per Orbem Dicor."

A WORD IN SEASON. The minister of education has delivered If the election has not secured a workable himself of some very strong and pertinent chamber he can dissolve it, and give the

ment is not held responsible for over study, his military idea of things. His divine for the desire to rush the pupils through pretensions do not make the masses feel WALKING TO CIVILIZATION THEY the classes. A certain course of studies is that they are being ruled with divine wisprescribed, but not the time in which these dom, so far as the government is concernstudies are to be performed. "The pre- ed, and the time is coming, is near at Sad Tale of a Toronto Laborer Which Alsumption of the law," he remarks, "is that hand, when he must change his tactics. the public school course should be com. Public opinion will be respected. pleted before the pupil reaches the age of sixteen, thus giving two years for each form." In Kingston there are five grades -the Kindergarten, the Parts I and II, the two divisions of the Second book, two divisions of the Third book, and the two divisions of the Fourth book. A pupil entering the Kindergarten at five years, and sires it. But the question is, What is synod meeting. best for the majority? Are they overworked?

The second point referred to by the mirpupil. He wants it to be distinctly understood that the department is not to be held responsible for any complaints under this head. He does not say that there should not be home tests, that the teacher should gence in the school-room during the five ten thousand. Last time of calling." hours prescribed by the law, but the teacher's authority to assign home lessons a child to solve without assistance, or, in ingenuity and patience of the churches. in easy reach of the child's attainments, should not be assigned."

The difficulty arises just here, that the home work is not oftentimes a review of

It is hoped the warning of the minister will have its effects in Kingston, for here there has been too much home work, and as far as possible it should be abandoned. Without it the scholars can get over the prescribed course when they are sixteen years, and that way is what the education department expects.
