SANTIAGO SURROUNDED

By the Cubans, the Army and the Fleet.

WITHOUT LOSS OF A LIFE

THE FIRST ARMY OF INVASION WAS LANDED.

Are Firmly Entrenched On the Enemy's Soil—Disaffection Expressed With the Spanish People As To the Hostility of Exterminating the War—Chill Allows Alleged Spanish Ships to Coast.

WASHINGTON, June 24.—Spain's reserve squadron has left Cartagena. Taken in conjunction with a despatch received yesterday from Valparaiso, Chill, announcing that three suspicious colliers had taken on board cargoes of coal at that point and prepared to sail, the information was regarded as most important. To definitely establish the ownership of the cargoes on board the colliers, and whether their real destination is the Philippines or some other friendly port, the department cabled to the consul at Valparaiso, desiring him to make a searching investigation and to ask the Chilean government to assist him if he found any evidence to support the theory that the coal was destined for the Spaniards.

ONE SANTIAGO, via Kingston, Ja., June 24.—The first army of invasion of Cuba, consisting of 16,000 magnificently equipped troops, is now firmly entrenched on the enemy's soil within striking distance of Santiago, and the task of landing there was accomplished without a loss or the loss of a single life. The landing began on Wednesday morning and was concluded yesterday. Summed up, the result of the two days' operations is that the city of Santiago, with its 12,000 soldiers and admiral Cervera's fleet riding helplessly at anchor in the harbor, is surrounded on every side. In the region around Aceradores on the west is a strong force of Cuban soldiers; in the rear Garcia with an army of 16,000 men, and the city of the rebel and prevents the arrival of reinforcements between the city and coast to the east, is Gen. Salfar, with his 16,000 men and ranged in a great crescent about the entrance to the harbor are the combined fleets of admirals Sampson and Schley.

LONDON, June 24.—The Daily Mail's Madrid correspondent telegraphs that official despatches from Cuba have created a bad impression. People are asking how the Americans succeeded in disembarking and seizing a position in view of the special operations the Spaniards had made to repel their landing. On the other hand many experts believe the object of the Spanish tactics was to slightly withdraw from the coast for the purpose of drawing the enemy inland, thus separating them from their fleet, when a more successful fight can be made. There is much adverse criticism of admiral Cervera, who, it is declared, has not shown sufficient energy and enterprise.

The Madrid correspondent of the Morning Post says: "The government, it is reported, has authorized its agents throughout the country to ascertain the opinion of the people as to the desirability of terminating the war. Senor Sagasta will announce the result after the cortes is prorogued."

WASHINGTON, June 24.—The state department has just received a despatch from an agent of the department in Algiers as follows: "Capt. Moon, of the English steamer Hampton, informs me that he passed on the 22nd at 3 p.m., off Pampeluna, the Spanish squadron, bound east, fifteen ships, including transport laden with troops, and three torpedo boats."

WASHINGTON, June 24.—The state department has just received the following cablegram: "Yates del Este, June 24.—From a flag of truce I learned to day that Lieut. Hobson and his companions are all well. They are confined in the city of Santiago four miles from Morro. (Signed) Sampson."

LONDON, June 24.—The Madrid correspondent of the Daily News says: "I hear the Infanta Eulalia is going to Vienna on a confidential mission."

The War Office. The warship Yale sailed from Norfolk, Va., yesterday afternoon for Santiago with the 3rd regiment and a battalion of the 34th regiment, Michigan infantry. The Harvard will leave to day with the 2nd Virginia regiment, the remaining battalions of the 34th Michigan regiment, and the 9th Massachusetts regiment.

Residents of Santiago, now in Jamaica, say the defenses between that city and Daiquiri are not strong. Any strength they have must have been added since the outbreak of war, and facilities have been insufficient to strengthen them materially. The navy department has not yet received any despatches confirming the report from Madrid that the Spanish cruiser Isabelita had an engagement with an American vessel of San Juan. The St. Paul or the St. Leon is supposed to be in the vicinity.

The Spanish squadron under command of admiral Camara, consisting of four war ships, three torpedo boats and five transports, passed the island of Puntallena, sixty miles south-west of Sicily, on Tuesday, going eastward.

Major Gen. Miles wants to go to Cuba with the forces on the Harvard, but the president thinks he is still needed in the United States to direct the armies of organization. The question is still undecided.

A half a dozen telegrams were received yesterday at Washington from admiral Sampson. He said nothing of any fighting, telling only of the whereabouts of his vessels.

Was Instantly Killed. HAYSTACK, Ont., June 24.—William Johnston, aged twenty-two, son of a well-to-do farmer near here, was instantly killed in the C.P.R. yards this morning. It is supposed he was intoxicated and was sleeping on the track.

To-morrow The steamer "America" among the 1,000 islands at 2 p.m., calling at Ganaroque each way. 35 cents. Special matinee for ladies and children at Lake Ontario park to-morrow afternoon at 3:30. Admission free. Reserved dry gages. Craig's.

A FAITHFUL OFFICIAL.

The Ventilation To Be Improved—Reassigned a Captivity.

OTTAWA, June 24.—D. McLennan, of the auditor general's office, has been appointed astronomical computer to W. F. King, chief astronomer of the department of the interior. Since his appointment to the audit office he has proved himself to be a very competent and painstaking officer.

The ventilation of the house of commons, wretched as it is, has cost the country, an immense amount of money. It is now understood that Hon. J. I. Tarte intends devoting some part of the recess to further experiment in the hope of remedying some, at any rate, of the bad qualities.

Hon. J. D. Cameron, attorney-general of Manitoba, and James Sutherland, the liberal whip, are in the city today, having arrived from Montreal last evening.

Lieut.-Col. Matheson, of the 13th Lank and Renfrew battalion, has left from the command and is placed on the reserve list of officers.

J. B. Tyrrell, the explorer who has a captaincy in the governor general's foot guards, has resigned.

The Capital lacrosse team had their final practice last evening for their championship league match with Cornwall to-morrow. The team in good shape and odds are given on its winning from the factory town.

The success of the baseball ventures in Montreal and Toronto is stirring up the local sports. Some of them are talking about an effort to buy out the Springfield franchise in the international league, but there is nothing definite on foot. The old Ottawa amateur team, however, may be revived.

Charles Scott, aged fourteen, while crossing the street railway track on Wellington street last evening to avoid a coming car, was struck by one approaching behind on the other track. His leg, but hung on to his wheel, which got tangled in the fender. Motorman Burns received with great promptness, and the boy was rescued after being dragged a few feet under the fender. His leg was much cut and bruised, but no bones broken.

Miss Aggie McKnight, while rounding the corner of Bank and Queen streets two days, ran into a wagon and was knocked over senseless and badly bruised, but not dangerously hurt.

DETECTIVES ON A BIG HUNT.

Money Stolen at Napanee Passed at Montreal. MONTREAL, June 24.—Chief detective Carpenter and all the men of the detective force are out on a great hunt. They are after the thieves who broke open the safe of the Dominion bank at Napanee last fall and secured \$20,000, together with 1,000 unissued \$10 notes of the Dominion bank. Either the burglars themselves or their confederates are in Montreal, and these very notes, with a slightly forged signature of E. H. Baines, are being circulated throughout the city. The series, which are headed "A," run from 46,100 to 47,100.

Detectives have visited nearly every store or business house where the bills are likely to be offered, and so far the round up has resulted in the finding of a large number of the bills. Just how many the bank officials decline to say, but it is learned that they are of sufficient number to warrant the belief that Montreal has been made the headquarters of the fugitive notes. The day before yesterday a young man about twenty-seven years old, having a light mustache, entered the store of V. R. Benjamin & Co., 208 Centre street, purchased a small amount of dry-goods, less than a dollar, and tendered in payment a ten dollar bill of the Dominion bank. He got his change in the usual way and left the store. This morning when one of the west end branch of the Merchants' bank of Halifax the teller noticed that it was one of the bills stolen from the bank at Napanee. He of course told the depositor to go to the Dominion bank and report the occurrence to the manager. As yet the man who passed the bill has not been located. Several of the banks have received stolen bills.

FRAUDS AND SMUGGLERS.

Littlest Lawyer Traffic Carried On By An Alleged Fishery Yacht. SYDNEY, C.B., June 24.—Some interesting facts have come to light through the seizure of the French schooner Marie Eucene, made a few days ago by Frederick L. Jones, chief customs inspector for Canada. It has been ascertained that this vessel was not only engaged in smuggling liquor into Canada, but at the same time was carrying on a fraud against the law of France, under which it was registered.

The registered captain was a British subject, who could not appear as such on the ship's papers. The nominal captain is a painter by trade. The declaration of one of the crew disclosed that instead of catching fish, the vessel was buying cod along the Canadian coast, and then, going to St. Pierre, claimed the bounty of \$2 per quintal paid by the French government for all fish caught by a French vessel.

The matter has been reported to the French government. When captured the vessel had on board a cargo of brandy, cod and herring. The captain is a resident of Cape Breton, and will be prosecuted.

St. STEWES, N.B., June 24.—A number of customs seizures have been made here of merchandise brought over by citizens of the town from Calais, Me. Among the smugglers are several ladies.

What a Confusion Stopped. St. JOHN'S, Nfld., June 24.—The situation between the French and British fishermen on the west coast of Newfoundland is growing critical. The settlers along the coast are combining to resist French pretensions and are refusing to leave the village. Lenses magnification has been created by the action of the British warship Polyzon in consulting lobstermen and Newfoundlanders. The government will urge the delegates now in England to influence Lord Salisbury with a view to cessation of the vexatious conditions.

For July 1st. At 9 a.m., the large elegant steamer "Empire State" leaves Kingston for Brockville (via Morrisburg) and Ogdonsburgh, 30 cents.

Line June 24th. Craig's.

In digging Mrs. E. Gladstone's grave workmen came upon a coffin several feet below the first one. The coffin was the spot after examining the records and charts of the burials in the north transept. A research of the records shows that the discovered coffin contained the remains of a lady Rich, who lived at the time of queen Anne. The coffin was replaced at a lower depth, and the great statesman's was placed above it.

Were Late For Prohibition. LONDON, June 24.—After the clause regarding prohibition had been negotiated by the synd of the diocese of Huron bishop Baldwin said he had no doubt all the members were temperance at heart. "We don't want to curtail your liberty," he said, "but it is right to stand by and see young men sagged with the means of self-destruction. I will do anything to day, or any other day, to advance temperance. I will act according to my convictions, and let every man do the same. When so many are manacled by their accursed passions, we should do something to help them. If the Lord spare me I am going to cast a vote for prohibition on election day."

SENOR DE BOBO WILL LEAVE

But Carranza Will Remain in Canada—Their Case Being Tried.

MONTREAL, June 24.—The hearing of the case of detective Koller against senor Du Bose and Carranza was commenced in the superior court yesterday, when several witnesses were examined, but no decision was given. Curson Dobell, of the bank of Montreal, said that on June 6th Du Bose closed his account with the bank by getting a cheque accepted for \$13,745. Since that time senor Du Bose has continued his account, as he did not withdraw the money.

Senor Du Bose said the amount was the property of the Spanish government, and that he made the cheque on the advice of his lawyer, so that Koller would not get his hands on the money. He had absolute control of the money. He intended to leave the town before the present proceedings, but will leave at their close. He complained of the publicity given to his case and stated that it was on the advice of police that he had Koller arrested.

Senor Carranza said he does not intend leaving Canada. He will go to the country somewhere near here when he leaves Montreal. He was not yet recalled by his government and had not been told by the English or Canadian governments to leave Canada. His stay in Montreal has been disagreeable, but he had no intention of leaving Canada. The case will last until next Monday.

The Wife Confesses. BUFFALO, N.Y., June 24.—Mrs. Baroni, wife of Antonio Baroni, last night made a confession to the police to the effect that it was her husband who had murdered the Philippi Lombardi, on Monday last, and had afterwards sewed the victim's head and legs off, placed the remains in a trunk and tried to sink them in the Blackwell canal. Baroni and his wife have been under arrest since Monday charged with the murder, but have heretofore refused to talk. Mrs. Baroni declares her innocence of any participation in the crime, but has given the police the names of two Italians who, she says, helped to dispose of the body.

Back From England. MONTREAL, Que., June 24.—Sir William Van Horn returned from England this morning via New York. He stated that his trip abroad had nothing to do with any move on the part of the C. P. R. It is being made at a time when he could best afford to be away from his office. He found the feeling in England towards Canada was of the very friendliest character and the people there had the greatest confidence in the future of the country.

A Great Demonstration. MONTREAL, June 24.—The most extensive celebration of St. John Baptiste day seen here for many years took place this morning, the mayor having proclaimed it a public holiday.
