cent collection that had taken a long life dred thousand. to get together, in less than five hours were scattered to the four winds of heav-

sale, for the mere possession of a single scape by Diaz had just gone to H D. Morgan article, which may only have cost fifty or hundred dollars, conveyed to themas much exquisite pleasure as that experienced by the plutocrat who pays \$50,000 or \$100,000 for a picture he can carry away

The sale which succeeded that of the King collection was that of William Schaus, one of the best known art dealers in the States. For many years M Schaus' store was on Broadway opposite Astor Place; and it took him some years to realize that if he expected to do busiart dealers, he must get where Fifth Avenue joins Broadway. While doing the business of a general art the divine genius on the canvas of Rosseau was purchasing pictures on commission for others, and in no business ever conceived by man, is there a greater temptation to dishonesty. As a general thing the wealthy class that pays high prices r pictures are but indifferent judges of art. They want the best and are willing to pay for it, and the only way to secure

what they desire is to pay liberally for the experience and knowledge that they lack Mr. Schaus purchased pictures for many of the best private galleries in the United States. He bought for the late A. Stewart, Commodore and William Vanderbilt; many of the best pictures in the Morgan collection were of his buying and among his best customers were almost Is the only safe, reliable, every member of the Aston family, and monthly medicine known. any number of multi-millionaires through-Druggists everywhere out the United States. n whose service he had grown to manhood and the German boy Herman, who had cumulates Gold-Child of Poverty is sacrificed; and the final result of the sale this with a piece of sculpture and an ivory created was not worth twenty dollars; al.

As the bids advanced into the thousands, the company evidently grew more nervous, it was plain to everybody that there were not enough pictures to go around. A landfor \$18,000, and a Carot for \$8,000, when a picture by Rosseau, "The edge of the Woods," for which the company of highprired buyers had evidently been waiting. was displayed to the audience, and the first bid was \$10,000; from that it jumped by hundreds and thousands to \$25,200, at which price it was knocked down to S.

It is said that times are hard and money

is scarce, and here is an auction sale where things are supposed to be sacrificed, yet one-hundred and ninety-two pictures in the King and Schaus collection brought, under Apart from the frames, the entire material of the pictures, color and canvas could be purchased for \$200; but it was Diaz, Troyon, Daubigney, Carot, Meissonier, Rembrant, Fromentin and the other immortals that have left their impress on the Above Us Stands No Compet- healthy." age and body of the time. The great arti-ts deserve well of their kind; aside from the pleasure they confer, they have shown their fellow men how, from the crudest materials, things may be created of almost priceless value. It is not the necessaries of life that cost, it is the luxuries. \$40,-000 for a race horse, a thousand dollars a gains night for an opera singer to amuse us, \$25,-000 for a picture. That's the way the money goes, and it is well that it is so. The Almighty in his wisdom lets one accumulate gold; to thechild of poverty he gives genius and the wonderful creative power that the rich man lacks but willingly gives his gold to buy. Besides the King and Schaus collections, several remarkable sales have taken place at the American art galleries, a visit to which is a liberal education. -

THE ATOMIC THEORY.

Dr. Slavonski's Mathematical Proof of the Immortality of Man.

Dr. Ivan Slavonski, the eminent Russian mathematician, who died in St. Petersburg in December, 1887, left, among other curious and valuable papers, one entitled "The Atomic Theory; a Mathematical Proof of the Immortality of Man." The learned doctor starts out by taking the position that the whole universe made up of atoms, and that these atoms Fallure of Physical and Mental Force-To | are not "innumerable," but it can be Add to Length Of Life-Use Dodd's shown that their number is limited. He further declares that the words "infinite" With a pathetic sigh how often it has and "innumerable" are only used to cover ignorance—because it is impossible for our "Well, then, I suppose I must let go my minds to form a proper conception of a vast number of units.
