

OTTAWA NOTES.

Canada's Export of Coal—Several days in Parliament.

Ottawa, Feb. 12.—Although the trade and navigation returns for 1893 have not been distributed, during that year Canada exported 209,225 tons of coal, against 242,125 tons in 1892. The returns for the Customs Department for 1893 show that the total quantity of coal exported, 764,963 tons went to the United States, some 8,000 tons less than was sent across the border from August to the preceding year. It is understood that the trade and navigation returns will be ready for distribution in two or three weeks. The quantity will be somewhat larger than that of last year, although the Controller of Customs has been endeavoring to simplify the returns, which will probably, however, be more effectively carried out next year.

Hon. Mr. Bowell left for Montreal yesterday. Thence he goes west and will attend the Canadian Manufacturers' meeting in Toronto, on Wednesday next, to speak on Canadian trade. Commissioner Larkins has also been invited to speak on the success of Canada's exhibit at the World's Fair. An extra of the Canadian Gazette, issued yesterday, contains the following statement for the despatch of business on Thursday, the 15th of March next. Everything goes to show that the session will be a long and busy one. There are a number of changes in both Houses since last session. In the Commons Andrew Hagan will take his seat for Vancouver, B.C., in the place of Mr. Gwynne. There are also Hon. Joseph Martin will sit for Winnipeg, elected by Hugh John Macdonald, resigned. Sir James Grant for Halifax, elected by Mr. Leonard. Mr. Mackenzie, of Regina, and H. S. Harwood, who was elected for Vancouver at the last general election, will return to finish the parliamentary term. In the Senate, Mr. McMillan, who was unelected by the courts. These four changes add to the Commons and the Opposition. In the Upper House there were four changes, two of which were made by the courts. Since then Sir John Abbott and Senator Montgomery, P.E.I., died. The Hon. Mr. Boyd also resigned as a member of the Senate. Mr. Mackenzie, who has since died. This made seven vacancies in all. The only appointment has been that of Hon. Mr. Ferguson in Prince Edward Island, for the late Mr. Richardson, which leaves six vacant in the red chamber.

The demotion which is here in the interests of the mail service to Prince Edward Island, the Hon. Mr. Ferguson, who was originally sent to that province, was released to \$5,000, and the company who have the contract claim that they lost money last week. Word has been received here that the Hon. DEATH OF HICCOUGHS.

They Begin, When a Barber Was Lathering His Chin. NEW YORK, Feb. 12.—John Carberry, of No. 22 Webster street, Newark, was a strong, robust, middle-aged man, who had just finished his work in the enjoyment of perfect health. Today he was more shadowy of his former self, weighing less than 100 lbs., and hardly able to stand on his feet. He is lying on a couch at his parents' home anxiously awaiting death to relieve the agony he endures. His sufferings are the result of an attack of hiccoughs, which has lasted the full seven eminent physicians of Newark, and appears to grow worse daily, despite the fact that he has been treated by one and one home remedies supplied in similar cases. The most peculiar phase of Carberry's affliction is the manner in which he has been afflicted. He has been lathering his chin with soap and water, and he was suddenly seized with an attack of the hiccoughs. It became so violent that he was unable to stand, and he was carried to his home. After sipping water and trying several other old-fashioned remedies without obtaining relief, he was taken to the hospital. He was there for several days, but he was unable to get any relief. He was then taken to the hospital, and he was there for several days, but he was unable to get any relief.
