mere' Church Last Night. A good audience welcomed Dr. Connell last evening, in Chalmers' lecture room to hear his address on the "Wonders of the eye, or the eye in relation to the brain and to thought." This was the fourth of the series given in connection | Funeral private. with the young people's society. It is impossible to give in a paragraph a summary of the address that will show what t was at all like. It was admirable, The style was so transparent, and the subject so popularized that all listened and followed with pleasurable interest. At the same time the treatment was thorough and scientific. (1) He spoke of light, the message, or message bearer to the eye; how impressions are conveyed OTTAWA, May 1.—The supreme court to the eye-camera. (2) The eye it-
