RECIPE

For Making a Delicious Health Drink at Small Cost.

Adams Root Beer Extract...one ounce.

Pleasantman's Yeast...half a cake.

Loafwear water...two gallons.

Dissolve the sugar and yeast in the warm water and bottle, place in some question to which the patrons are committed, and so embarrasses the government. Sir Oliver may, perhaps, thwart Mr. Meredith on some issues, but if he keeps on twisting and trying he will get the old fox into a corner, a dissolution may follow, "a new election come on, and a general turnover."

But the "World" is disturbed by the thought that Mr. Meredith cannot get access to the patrons' cause, that he cannot, therefore, manipulate it, and the disturbance is increased by the announcement of the "Farmers' Sun" that the patrons will keep their own counsel.

On some questions—side issues all and not promoted for the purpose of defeating the government—they will vote solidly in the interest of their constituents, but "when the parties divide, it will not be as partisans." Comforting thought to the conservative conspirators, isn't it?

The WHIG has held that the differences between the Ontario government and the patrons are vastly reconciled
