China Intriguing in European Coun-

tries for Mes and Ships. LI HUNG CHANG'S DOWNFALL

The Report That He Has Reen Deprived of the Order of the Vellow Jacket Discredited in London-Rebellion Frared in

LONDON, Aug. 6. - The grave questions for Europe and especially for Eugland ready seriously disturbing dislomatic and commercial circles. It is so long since a state of war between important powers exlated that the respective governments, in cluding the British, will find much difficulty in enforcing strict laws of neutrality. It is virtually necessary for China to provide herself with immense quantities of war material, sud it is already known that she is willing to pay fabulous prices. It is a fact she is busily intriguing in England, Germany, Belgium and Italy for the purchase of ships and ammunition and to engage men. It is an almost open secret in certain circles in London that she is making tireless efforts to assemble a fleet in a Iron Company is putting the finishing touches, can still be, secured without viothe neutrality laws. The vessel was built for & South American Republic which is too poor to complete the contract. It is also believed China is offering enormous bribes to certain South American States for the purchase of warships not needed just now by the present owners.

The Japanese legation here has received information leading them to believe that valuable cargoes are now leaving San

It is apparent that the news from both China and Japan must be carefully weighed before its credibility can be estimated. Even official announcements are open to suspicion, especially those from Chinese sources. The most important and ominous news yet received is that regarding the Emperor's rebuke of Li Hung Chang. Great doubt of the truth of this report is expressed in London, but its source makes t entitled to more credence than anything yet received from China. The correspondent of the Central News in Tien-Tsin. who has sent three despatches on the subject, is not only one of the most influential foreigners in China, but also the close persocal friend of the great Viceroy whose disgrace he describes. If the deprivation of the highest honor, the order of the Yellow Jacket, meant that the veteran statesman was deposed from power, it would bode ill for China in the coming war and for all foreigners in her borders. But all persons here who understand Chinese ways says it implies merely a rebuke intended to stimulate the Prime Minister to greater efforts against the enemy. He suffered a similar indignity twenty years ago, but speedily regained his lost influence and still greater power. The principal fear is perhaps, that the young Emperor, who is now only 23 years old, has suddenly taken the reins of government in his own hands, overthrowing the influence of the dowager Empress, who has been the real head of affairs for many years.

The only hope of cutting short the war at the outset lies in England taking advantage of the Kow Shing affair to interpose decisively. This subject is engaging the active attention of the British cabinet, and public feeling on the matter is becoming very strong. It can no longer he doubted that the transport ship carried the Britis fisg when she was attacked, but the Japan ese are by no means without defence for

The Japanese legation here has received this despatch from Tokio: "Gen. Oshima. commanding the troops in Corea, reports that after severe fighting from 3 to 8 a. m. on July 29, he won a decisive victory over the Chinese army entrenched at Kashan Every entrenchment was taken and more than 500 out of 2,800 Chinese troops were killed and wounded. Our casualties were five officers and 70 men killed and wound ed. The enemy dispersed and fled toward Hong Chow, intending perhaps to avail

themselves of the Corean boats. In the vicinity of Gensan our troops captured many flags, much ammunition and four guns. Gen. Oshima eventually established his headquarters at Kashan," National Feeling at Fever Heat-

A dispatch to the Central News from Shanghai says: "It is reported that there has been another engagement off the Corean coast in which three Chinese warships were captured by the Japanese. The "A Japanese mob attacked the Chinese esidents in Kobe a day or two ago, severely maltreating them. A riot ensued in

which many were injured. "A Chinese mob in Taku insulted the members of the Jasanese legation as they were returning home from Pekin. The mob's actions led to a tumult, which was tardily suppressed by the authorities. "The Japanese in Canton have been attacked a number of times by roughs, but so far there has been no serious trouble

"The European municipal council of Shanghai has warned the volunteers to be ready to act promptly in the event of riot-"The Smith and Cass coasting vessels,

which now fly the American flag, have been forbidden by the American consul to land munitions of war in Furmosa," The officials of the Chinese legation in London say that they have received no information concerning the naval engagement mentioned in the foregoing despatch They also propose to regard the fight of July 29 as a trifling and overrated affair. The Kow Shing Affair.

The Standard maintains that despite every excuse deducible from later reports there is nothing that exonerates Japan from the charge of brutality and barbarbariem toward the Chinese. Not long ago, it says, an incident like the Kow Shing affair would have immediately brought British squadron to Tokio. The Standard proposes that Rueia and England jointly demand that both China and Japan with araw their forces from Cores furthwith and entrust the government of the peninsula to an international conference. "Faillog in this," the Standard says, "we must anticipate a very anxions period, and no time should be lost in increasing the British squadron in the far east.

Referring to the Kow Shing affair the Daily Chronicle anga: "It is not easy to see what else the Japanese could have done. Soldiers who will not retreat or surrander must take the chance of being

OARSMEN AT HAMILTON

The Finals in the Annual Regutta of the Canadian Amateur Association, HAMILTON BRACK, Aug. 6.-About 4,000 people witnessed the finals in the annual regatta of the C.A.A.O. here on Saturday. The weather was fine, but a steady wind from the northwest made it necessary to row the events on the lake side of the beach, where the water was in good condi-

The first event, the final in the senior fours, had the Leanders, of Hamilton, and the Argonauts, Done and Toroutos of Toronto. The Argonauts sold favorites in the books at 8-5, and proved worthy of the confidence placed in them by winning hands down by a half dozen lengths. The Torontos and Done rowed an exciting race for second place until with 200 yards of the finishing point, when the Torontos made a grand sport and got the place. The Dons were a good third and the Leanders away in the rear. Time, 9m. 324s. The second event, final junior singles had five competititors: James O'Connor, of Done, sold prohibitive favorite in the certain continental port from which it Jury gave the favorite a good race for could soon be despatched by an indirect first, but has not the staying powers and route to the seat of war. The fourth event, final senior singles, was the best race of the regatts, and in fact the best ever seen here. There were four starters, and in the books F. H. Thompson and Alf Russell, both of Toronto, sold equal favorites at 6 to 5, Van Damme of Detroit 3 to 2 and McDowell, Chicago, 25 to 2. It was a beautiful race between the two Toronto men, but Thompson kept the nose of his shell ahead of Russell's until within the last fifty yards where the latter made a splendid spurt and won by half a length in the last dozen strokes. Thompson had rowed in the senior singles in the morning and was unable to respond when his opponent sourted away from him. Van Damme was a poor third and McDowell did not finish. Time 10.53 3-5.

The fifth event, the final heat in junior doubles, was a very tame affair. There were three starters, all Toronto crews. The Done sold favorites at 2-5, or more of his horses. THE PARIS FUND UNATTAINABLE

Some Measure of Relief Urged to Alleviate the Distress of the Evicted Temants -Rosebery's Attachment to the Turf - A Trades Union Congress.

LONDON, Ang. 6 .- The leaders of Unionist party in parliament have served Thomas C. Platt, and being the colleague notice upon the Government that if the evicted tenants bill is transformed into a voluntary measure it will have some chance of receiving the gracious consideration of the House of Lords. The provision for the compulsory reinstatement of an evicted tenant with the assistance of public funds. the Unionists denounce as a species of plundering. A provision for voluntary reinstatement, giving the landlords a greater degree of control over the arrangements for rainstatement they think might avert the rejection of the bill by the Honse of Lords, but otherwise they contend that it has no chance of acceptance by the peers, The Iriah members, however, while anxious to obtain some form of a measure to relieve the present signation, feel that the abandonment of the compulsory provision is impossible. Messra, Redmond and Sexton condur in seeking some sort of a compromise that

will enable the evicted tenants to obtain speedy relief, as the Paris fund cannot be reckoned upon for some time to come. It is certain that the fund cannot be released in time to alleviate the distress which the coming winter is sure to bring, but no form of compromise has yet been hit upon that is likely to be acceptable to the opponents of the bill in its present shape. Mr. John Morley has written a letter to tio Seymour. He was educated in the Right Hon. Leonard Courtney, who is Lord Salisbury and the Duke of Devonshire, who refused to consider it, but they offered the alternative that if the compulsory clauses of the bill were withdrawn before the measure finally passed the House of Commons the bill would then pass its second reading in the House of Lords, This appears to be the end of the negotiations. Radicals and Nationalists, discussing the situation in the lobby, are agreed that the Government ought to immediately appeal to the country in the event of the rejection of the bill by the House of Lords. The debate on the evicted tenante bill in the House of Lords has been fixed for

STRIKE INVESTIGATORS President Cleveland's Numinees for

Strike Commissionerships Under the O'Netll law Carroll D. Wright, the Commissioner of Labor, will' be the chairman of the Investigating Commission to enquire into the recent railway strike. The President of the United States, under the law, names the other two commissioners and he has appointed John II Kernan, of New York, and Nicholas E Worthington, of Peoria, Ill.

John D. Kernan is the oldest son of the late Francis Kernan, who represented New York State in the United States Senate as a Democrat from 1875 to 1881, succeeding ex-Gov. Reuben, E. Fenton, preceding of Roscos Conkling, who came from the same part of the State.

John D, Kernan was born at Utica, Feb. 25, 1844. He was a protege of Hora-

public schools and free academy of Utica behalf of the Unionist leaders stipulating from which he graduated in 1863. He practice was large and lucrative, Later he opened an office in New York.

Mr. Kernan is especially qualified by experience to deal with railroad matters, in which he has always taken a deep interest. In 1583 Gov. Cleveland appointed him Railroad Commissioner with William Rogers and ex-Senator John O'Donnell. During the previous spring he had written much on railroad matters and had actively co-operated in the movement of merchants and manu facturers against the Railroad Commission

DASTARDLY INCENDIARISM. A Colored Girl and an Infant Cremated in a Burning Building.

CHATHAM, Ont., Aug. 6 .- Yesterday the house of John Curtis, colored, corner of Taylor avenue and the second concession road, Chatham township, was found to be on fire and before help could be secured the house was reduced to ashes. A girl named Lizzie Gant, aged 13, and the infaut shild of Mrs. Thompson, who was residing with the Curtis family, were burned

About 4 o'clock members of the family got up to put some stray cows out of the garden and at that time everything was right. About 6 o'clock Mrs. Munson, of Detroit, daughter of "Mr. Curtis, was awakened by the smoke and discovered a large bandle of straw in the room ablaze, as though it had been pushed in through the open window. She raised the alarm and attempted to save Lizzie Gant, but the latter fell back into the flames and perished. The other members of the household escaped, some of them more or less scorched. The two bodies were afterwards found

burned to a crisp There is no doubt that the fire was an ncendiary one and suspicion falls on a colored man who was seen by a neighbor luitering near the house before the fiames burst out. It is thought he may have robbed the house and then fired it. No other motive can be offered. The girl Lizzie Gant's mother perished

Disastrous Configuration in Alton. ALTON, Out., Aug. 5 .- A disastrous fire, which at one time threatened to wipe out the business portion of this village, occurred yesterday. The fire originated in the blacksmith shop of Boggs & Roweliffe, carriage works. The alarm was rung and there was a strong wat wind blowing, it was impossible to check the flames. The whole structure was soon wrapped in flames and spread rapidly to the adjacent buildings. The carriage works of Barber & Bro. was the next to fall, and the heat from the two large buildings was so excessive that the residence of Mr. Samuel Barber close by was left to its tate. Next in line was the stable buildings of Dr. Algie which followed suit. The outbuildings of the brick block known as the Algie block were next in order. Nothing stood between a whole street of wooden building and the fire but the said block and three or four hundred men and women united apontaneously to defend it, and succeeded atter two hours hard fighting in mastering the flames. The total loss will reach about \$8,000, only partially covered by insurance. The two carriage shops and Mr. Barber's residence are insured in the Waterloo and Wellington Mutuals, and damage to the Algie block is not serious,
