SCROFULA 12 YEARS

Always Sore. Face Burned Like Fire. Ashamed to be Seen. Four Doctors but Little Benefit. Cured by Cuticura.

For about ten or twelve years I have been troubled with scrofula. My head was always sore, my face was dry and scaly, and burned like fire most of the time. My body had big red spots on it, and I did not know what to do. I went to four different doctors and they helped me at first. In the fall I got worse again; then I tried other remedies, but they did me no good. I was ashamed to go into public. I was a sight to look at. Every one would say, "What is the matter, why don't you take something?" Even at my daily labor I had to wear a sort of cap to keep the dirt from getting into the sores. After I would wash, I would be covered with big red pimples all over my neck and face. Some two or three people advised me to try the CUTICURA REMEDIES. I did try them, and am glad I have done so. Glad to say I am a well man, and in the best of health since. I cannot praise the CUTICURA REMEDIES too highly. I enclose my portrait.

Chinese Force the Fighting and Drive Them Out of Chungho.

TWO BATTLES WERE FOUGHT

Japan's Loss is Heavy in Both Engagements—Another Big Battle Imminent—Result of the Kow Shing Enquiry is Favorable to Japan.

LONDON, Aug. 22.—A despatch from Shanghai says the report that the Chinese General Yeh was killed in battle with the Japanese is untrue. General Yeh is at the head of the Yashan army, which was not shattered as was reported, but was merely outflanked by the Japanese. The latter have marched to Ping Yang in strong force and a decisive battle at or near that place is imminent.

The Shanghai correspondent of the Times telegraphs: "General Tio, commander of the Feng Tien division, telegraphs that on Friday the Chinese attacked the Japanese at Ping-Yang, and drove them with heavy loss to Chungho, a distance of eleven miles. The Chinese reattacked on Saturday and drove them out of Chungho. The Japanese losses were again heavy. Chungho is now in the hands of the Chinese. It is expected that another great battle will be fought to-day. The Chinese had previously evacuated Asan under Gen. Yeh, who was falsely reported killed, and, obtaining reinforcements from the Coreans, marched east of Seoul in the direction of the Chinese forces converging at Ping-Yang. Nine thousand Japanese marched from Seoul towards Ping-Yang. The telegraph at the latter point remains in the possession of the Chinese. The Chinese fleet is in full possession of the Gulf of Pe-Chi-Li. The Japanese are re-embarking a large number of troops at Fusan. Their destination is unknown.

Result of the Kow Shing Inquiry.

WASHINGTON, Aug. 22.—The Japanese legation has received a telegram stating that it has been reported in Tokio on reliable authority that the finding of the British naval court of inquiry, which was held at Shanghai to investigate the facts of the sinking of the British steamer Kow Shing, when acting as a transport for Chinese troops to Corea, by the Japanese cruiser Naniua Kan, is favorable to Japan. It is also reported that the British admiral has officially stated to his government that he considers the sinking of the Kow Shing under the circumstances as equivalent to the sinking of a Chinese vessel and that he has consequently advised the British government to make no claim.

STABBED BY AN ANARCHIST.

Attempt on the Life of a French Police Sergeant by a Militant Red.

PARIS, Aug. 22.—Albert Daudey a militant anarchist stabbed Police Sergeant Babestian in the Rue de la Cite last night. He was overpowered by two policemen and taken to the station after a brief struggle. The sergeant was removed to the hospital where an examination showed that the wound was not a mortal one. He is making fair progress towards recovery.

When confronted by a commissary of the police soon after the stabbing, Daudey boasted that he was an anarchist and said he was sorry that the wound was not a mortal one. Daudey's friends and relatives say they did not know before that he was an anarchist.

A Lake Breaks Loose.

MEMPHIS, Tenn., Aug. 22.—Lake North, a considerable body of water in North Mississippi, twenty miles south of here, and situated half a mile from the Mississippi, has found a channel to the river, and is now rushing across the country at a furious rate, carrying everything before it. Lake North is situated but a few hundred yards from Horn Lake, and it is expected the latter body of water will follow the example of Lake North. The bed of the Mississippi river a few years ago lay through the present location of these lakes and river men expect this last freak of the waters will cause another change in the course of the river below Memphis. The immense body of water pouring out of the lake has swept away the bridges, fences and crops.

Big Four Depot Destroyed.

CINCINNATI, Aug. 22.—The Big Four freight depot at Third and Wood streets was burned yesterday. The building was two squares long and was valued, with contents and adjoining Wagner sleepers and coaches, at $285,000. A row of frame buildings opposite the depot caught fire several times, but the incipient blaze was extinguished in every case. About twenty of the Wagner sleepers and chair cars were destroyed. Rudolph Brodt, fireman, was injured by a falling wall. The fire is supposed to have started from a freight handler's pipe.

Sioux City's Bid For the Fight.

SIOUX CITY, Iowa, Aug. 22.—Sioux City's offer for the Jackson-Corbett fight is still somewhat of a mystery to everybody in the city who is not on the inside of the scheme to bring the fight here. The men who appeared on the surface say they are backed by the best people in the town and hint at who some of them are; and when the best people are asked about it they refuse to give any information and deny interest in it.

The Trouble in Brazil.

NEW YORK, Aug. 22.—A Valparaiso special says: Word comes from Rio Janeiro that President-elect Morais is greatly incensed against President Peixoto, and the latter's friends are urging him to assume the dictatorship. FROM THE CAPITAL.

Executive Clemency Sought for a British Columbia Murderer.

OTTAWA, Aug. 22.—Hugh Lynn was convicted by a British Columbia jury last spring of the wilful murder of John Green at Savory Island. The judge sentenced the prisoner to be hanged on August 24, although the jury put in a recommendation to mercy, and Lynn's counsel brought the case to the notice of the Minister of Justice asking for executive clemency. The case is a peculiar one, and savors of the wild and woolly west. In October, 1893, Lynn, accompanied by a squaw or "Klootchman," visited the man Green on Savory Island and another man was present. The crowd freely imbibed firewater until, as the prisoner said in his evidence, they were "pretty well ginned up." An altercation as to some cooking then arose and Green took a gun and killed the other man. Lynn claims that he then got scared for his own safety, and took the gun away from Green, who, however, secured another, so that he (Lynn) shot him, lest he should be shot himself. He then decamped with $110 and some valuables belonging to the dead man and was not found until the following May, when he was arrested away up in Juan county. On May 11 the case was considered here in council and forwarded to His Excellency in the east, whose decision is awaited by telegraph, as the sentence, unless interfered with, goes into effect on Friday.

Sir John Thompson, accompanied by his private secretary, Mr. Douglas Stewart, arrived in the city yesterday. The Premier intends returning to Muskoka as soon as he gets through with certain business that is before the Council. Sir John looks exceedingly well and says he is very much enjoying his holidays in the Muskoka region. He was busy in his office all the forenoon receiving interviewers and disposing of correspondence between times. Along with the Premier from the west came Controller Clarke Wallace.

The meeting of the Council for which the Ministers were summoned to the city took place yesterday. There were present: Sir John Thompson, Hon. Mackenzie Bowell, Hon. John Costigan, Hon. John Haggart, Hon. J. A. Ouimet, Hon. J. C. Patterson, Hon. A. R. Angers and Sir John Carling. Sir Charles Hibbert Tupper is expected to-day from Washington. Hon. George Foster is in the Maritime Provinces and Hon. T. M. Daly is in Manitoba. Sir A. Caron and Hon. W. B. Ives are in the Old Country. Sir Frank Smith is in Toronto. This is the whole Cabinet. There are all kinds of rumors as to what the meeting of the Cabinet has been called for. As a matter of fact business of a general character has been accumulating for some time past. But besides this there is every reason to believe that before the end of the week there will be announcements of some political importance as a result of the meetings which will be held between now and then.

The Labor Day parade, which takes place on September 3, will be the largest and best ever seen in Ottawa. It is expected that 3,500 people will be in the parade. The Hull division will itself be 1,000 strong. Several new and interesting features will be introduced this year. The Minister of Agriculture has given instructions to the manager of the Central Experimental farm to prepare an elaborate car decorated with the products of the farm, to join the labor parade as on former occasions. The employes of the farm will be given a holiday on that day. It is understood that the Perth band will be in the parade, together with all the bands of this city and Hull. The Governor-General will review the parade from Parliament Hill as it passes along Wellington street.

Grand Lodge Knights of Pythias.

WINDSOR, Aug. 22.—The Grand Lodge Knights of Pythias of Ontario met yesterday in the Collegiate Institute in this city. Two past grand chancellors, A. J. Rattray, of Toronto, and J. Chapman, of Hamilton, were present as delegates. There were also about 60 delegates, representing lodges from Smith's Falls in the east to Fort William in the west. Col. Beattie, Mayor of Windsor, on behalf of the city, gave the grand lodge a hearty welcome, which was acknowledged by Grand Chancellor Rispin. The morning session was occupied in conferring grand lodge rank of past chancellor on nineteen delegates, following which the grand officer reports were presented and referred to the various standing committees. Notwithstanding the dull times the membership in Ontario has increased and the grand lodge balance of cash on hand has increased about $900. The balance of the day was taken up with consideration of reports.

TWO MEN BURNED TO DEATH.

Shocking Fatality at a Threshing in Plympton Township.

FOREST, Ont., Aug. 22.—One of the most horrible tragedies in the history of Lambton took place yesterday on the farm of Wm. Wayward, in Plympton township, eight miles from Forest.

Threshing was in progress and shortly after starting, the cylinder shaft broke and caused a friction which set fire to the straw. In an instant the interior of the barn was a mass of flames. In the mow above three men were at work, Neil McPhedran, Stephen Searle and Wm. Greer, and their escape was cut off by the roaring flames which filled the manhole to the mow.

McPhedran jumped through the fire and escaped alive, having his hair, whiskers and shirt burned off but neither Searle nor Greer were ever alive seen again.

In a short time the barn was a smouldering ruin and soon after the charred trunks of the victims were dug out of the still blazing remnants. Heads, arms and legs were completely burned off and the only means of identification was Greer's brace buckle.

Searle leaves a wife and seven children and Greer a wife and three children. Both were highly respectable farmers. The double funeral takes place to-day.

Hayward's loss on barn and contents is over $1,000 on which there is $500 insurance.

The sad affair has cast a gloom over the entire neighborhood.

THE BRITISH COMMONS

How Preferential Trade is Affected by Foreign Treaties.

VETO POWER OF THE LORDS

Radicals Seek for An Expression of the Government's Attitude on This Question—John Morley Replies in the Absence of Sir William.

LONDON, Aug. 22.—In the House of Commons yesterday Charles E. H. Vincent asked the Government whether the opinion of the law officers of the Crown had been taken upon the question whether preferential trading relations between Great Britain and her colonies were prevented by the terms of the treaties of Great Britain with Germany and Belgium and of the tariff union. Mr. Vincent reminded the Government that the Earl of Jersey, the British representative in the recent Intercolonial conference in Ottawa, had promised that such legal opinion would be taken.

Sydney Buxton, Under Colonial Secretary, said that the opinion of the Crown law officers had been taken and their decision was that the treaties did not prevent preferential treatment by Great Britain in favor of her colonies nor between the colonies themselves. It was held, however, that the treaties did prevent the preferential treatment by the colonies in favor of Great Britain.

James Henry Dalziel, Radical, moved in the evening that the House of Lords appropriation be reduced. He complained that the Government had not stated their attitude towards the proposal to withdraw the power of veto from the Upper House. He was called to order by the Speaker who admonished him that he must adhere to the subject of the appropriation.

After several Radicals had spoken in support of the motion, John Morley, Chief Secretary for Ireland, undertook, in Sir William Harcourt's absence, to reply for the Government. The Ministers were so fully sensible of the gravity and magnitude of the movement against the Lords, he said, that they refused to raise the issue on a trumpery question of officials and salaries. During the recess they would consider the problem carefully.

Thomas Sexton, anti-Parnellite for North Kerry, said that the Government had not risen to the emergency and did not seem disposed to treat earnestly the demands of the people and their representatives for a change in the House of Lords.

Mr. Dalziel's motion was rejected by a vote of 76 to 45.

A Liberal Member Resigns.

THEY DIED FOR LOVE.

Sensational Double Suicide in Central Park, New York.

NEW YORK, Aug. 22.—Julius de Marcus, aged 30, of this city, and Juliette Fournier, aged 26, of Brooklyn, committed suicide by agreement in Central Park. Marcus had a bullet wound through the centre of his forehead. He was lying prostrate across the woman, who was shot directly in the centre of the breast. Marcus held a revolver in his hand. Two of the chambers were empty and three were loaded. The blood from the man's head had run down and stained the face and clothes of the woman.

Two newspaper clippings were found on the dead man's person. They were dated April 14, 1894, and related to a proposed attempt of Julius Marcus to travel around the globe. He was to undertake the trip for a wager, starting from New York penniless and returning with $500 in his pocket. Robert Ingersoll's lecture on "Suicide Not a Sin" was found in a pocket.

De Marcus was the son of Samuel De Marcus, a Jewish peddler, who lives with his family at 52 East Broadway. The young man was of a roving disposition.

ALTGELD APPEALS FOR AID.

He Asks Assistance for the Starving Citizens of the Town of Pullman.

CHICAGO, Aug. 22.—Gov. Altgeld has issued an appeal to the people of this city and the state in behalf of the starving citizens of Pullman. The correspondence between the Governor and George M. Pullman was made public at the same time. In reply to the Governor's first letter Mr. Pullman made a long statement in justification of the position of the company. Gov. Altgeld made a caustic reply refusing to enter into a discussion of the merits of the controversy, and asserting that if Mr. Pullman had seen what the Governor had seen in Pullman he would be convinced that none of the sufferers had drawn money from the bank a few weeks ago as alleged by Mr. Pullman in his letter. He concludes with the statement that as Mr. Pullman had refused to do anything to save his old employes from perishing from hunger, the Governor would be compelled to appeal to the humanity of the people of Illinois to do so.

Want the Revival Stopped.

STUBENVILLE, Ohio, Aug. 22.—A queer state of affairs as the result of a religious revival is reported from Hammondville, this county, where "holiness meetings" have been conducted for some time. The people are worked up to a high pitch of excitement and seven women have left their husbands because they would not join the church. The husband of one of these women waylaid the evangelist and would have thrashed him had not others interfered. One young woman who had become mentally unbalanced persists in singing and praying on the streets until stopped. There is talk of calling a public meeting to have the revival stopped.

A Princely Engagement Denied.

CHICAGO, Ill., Aug. 22.—A relative of George M. Pullman stopping at his residence was the only representative of the family who could be seen regarding the possible matrimonial connection of a member of the family with Prince Isenburg-Birstein. This relative denies emphatically that Miss Florence Pullman is engaged to the prince.

The charge against the men has been reduced from piracy to that of robbing a vessel on the high seas. The result of the examination was that Gray, Willis and McLaughlin were discharged; Capt. Cooper, of the Emma, was held in $500 bail to await the action of the grand jury; Johnson was held in $100. The testimony against Murphy was not very strong, and he was held in $200 bail. The attorneys for the defence claimed that there is no law by which to hold any of the men except perhaps Johnson, who took Gillman's purse and a hatchet from his boat.

EIGHT MEN LOSE THEIR LIVES

The Owner of the Vessel Goes Down With It—Four Men Rescued by the Judges' Tug After Swimming in the Water for Half an Hour.

ST. JOHNS, N. B., Aug. 22.—This city is in mourning over a shocking yachting accident which happened off the harbor yesterday during the progress of the second race in the series for the corporation cup, and by which eight persons lost their lives.

The five boats entered went out of the harbor with a good stiff breeze, followed by the tug Lillie, with the judges and other officials. The boats had a good run to the buoys, but while in the run home just off Mahogany Island the boats became becalm. The Primrose stood into shore with all sails set, while the Maple Leaf and others were some distance off. The tug Lillie came to anchor. Soon the people on the judges' boat could observe a storm approaching and were surprised to see that the yachts were not preparing to meet it by taking in some of their sails. This was especially the case with the Primrose which was not considered a very safe boat in a storm.

In a few minutes a stiff breeze sprung up and rain commenced to fall. The yachts started. Then a heavy hail storm set in. The Primrose remained for a time. Samuel Button, its owner, gave orders to take in sail, but before this order could be obeyed the yacht went on her beam ends and the next moment plunged bow first, filled with water and sank. Button was last seen at the helm and the last words the survivors heard him utter were "Boys, look out for yourselves." He could not swim very well and it is believed he went down with his boat, although one of the rescued men thinks he saw Hutton in the water trying to swim.

After the storm had abated somewhat it was noticed from the tug Lillie that one of the yachts was not seen and it was surmised an accident had befallen it. The tug immediately steamed around and after going about a quarter of a mile four men were found swimming about in the water close together. They were hailed and thrown life buoys. They cried out "Never mind us; look out after the others."

But the tug people soon realized that it was no use looking after the others. They had all succumbed to the high sea that was running and had gone to the bottom. Then the tug returned and picked up the four men, they having been in the water fully half an hour.

The following is a list of the lost:

Samuel Hutton, aged 50, leaves a widow. He was the owner of the Primrose and was best known as one of the famous Paris crew. He was in the customs department.

Fred. Priest, aged 30, son of Capt. Joseph Priest.

George Heathfield, aged 22, single, carriage maker.

Albert Aikerley, aged 26, only support of a widowed mother.

Harry Bartlett, aged 27, leaves a widow and two children.

James Hurley, aged 52, leaves a widow and 7 children.

Wm. Russell, aged 20, single, son of W. R. Russell, merchant tailor.

Harry Hoyt, aged 19, single.

The four rescued are: Howard Holden, Thos. H. Miles, Fred. S. Hearns, and Jas. McKeen.

The Maple Leaf, belonging to Elijah Ross, lost her top-mast in the squall and the other yachts were damaged slightly.

Sad Drowning Accident.

MEAT COVE, N.S., Aug. 22.—A sad drowning accident occurred on Magdalene Islands by which five men were drowned from three boats. Valentine Petipos and his son, aged 10 years, and Chas. Vigneau, aged 18 years, were drowned from one boat. Simon Cyr, aged 12, and Nelson Cumming, aged 20, were drowned from other two boats. It was calm when they went fishing, but the wind sprang up suddenly, the sea rose quickly, and when they got near the shore the sea was so heavy that they could not retreat nor advance. They tried to land with the above result. About a hundred people on shore were looking on and powerless to give aid.

Drowned in Halifax Harbor.

HALIFAX, N. S., Aug. 22.—Ralph B. Bennett, aged eight, son of Joseph Bennett, the well-known shipping man, was drowned in the harbor last night. As yet no word has been received as to the outcome.

Rabitoy confessed to having broken into Thornhill's store and also Mill's hat store and the Domestic Specialty Company's store, all of which places he had robbed. RAILS TO THE ARCTIC.

Gives an Outlet to the Great Lumber and Iron Region.

STOCKHOLM, Aug. 21.—The new Northern trunk line of Sweden has been completed. It was dedicated by King Oscar a few days ago, and opened to public traffic. The king made a memorable speech. The festivities surpassed anything seen in this part of the world at a similar event, and will go down to posterity as an epoch in Sweden's history. The new railroad connects at Boden, near the Gulf of Bothnia, with the northermost railroad in the world, running from the seaport of Lulea up to the Gellivara iron ore mountains, forty-seven miles north of the Arctic circle. This road has been in operation for a couple of years, and may be considered as the end piece in the string of railroad of the length of about 1,255 miles, which passes from the south to north through the whole length of Sweden.

Norrland needs the railroad, for that Swedish province provides no less than twenty per cent of the entire lumber supply of the globe, or more than Canada, and almost twice as much as the United States. The enormous Gellivara iron mines are situated in Norrland. These mines, the largest in the world, are considered capable of supplying the present demands of the whole world for centuries. The cost of this northern part of the Swedish railroad net has been about 350,000,000 crowns. This includes the rolling stock.

The Children Safe.

HALIFAX, N.S., Aug. 22.—The three children of Dr. Weeks of Rose Blanche, Nfld., reported some days ago adrift in an open boat were picked up by a barque and brought into North Sydney to-day. They are all well.

FINANCE AND COMMERCE.

TORONTO, August 22, 1894.

Grand Trunk returns of traffic for week ending August 18, show a total decrease of $25,225, under the same week last year.

The returns from the Western Cattle Market show the receipt of 2,506 cattle, 6,719 sheep and 1,905 hogs. The fees amounted to $92.98.

At St. Louis sheep receipts were 1,725. Market slightly higher. Native mixed $2.50 to $2.75; stockers, $1.50 to $1.75; lambs, $3.00 to $3.25.

New York stocks were again strong yesterday. Sugar was somewhat erratic and nervous but on a whole the bulls seemed to have things their own way.

At the Belleville cheese board 28 factories offered 1,245 boxes white and 310 colored. Total, 1,555 boxes. Sales, J. T. Warrington, 195 white at 10c.

At East Liberty, Pa., the sheep supply was heavy; nothing doing on sheep; lambs slow. Extra, $3.00 to $5.20; good, $2.20 to $2.60; fair, $1.50 to $1.90; common, 50 cents to $1; yearlings, $1.25 to $3.25; lambs, $2.00 to $3.50.

Wheat was irregular in Chicago, closing at a gain of 1-4c to 1c. Corn was firm and closed 1-2c to 1c higher on the day's tradings. Oats were strong on heavy withdrawals from store, showing a net gain for the day of 1-4c to 3-4c.

A further rise in silver and the rupee was the only feature of the London market. Americans and other speculative securities were lower on continued realizations. Canadian Grand Trunks were better, because the traffic reports were better than expected.
