Mr. Gibson creates. During his stay there two famous French actresses, Rischel Boy f er and the great Rejane, gave him sittings. The results were quite satisfactory, but son that a good model must be perfectly

As an actress' entire training is an effort to represent what she is not, she is quite naturally anything but herself when posing for a picture. Mr. Gibson surpris-I ed the Paris models more than they surprised him. They invariably came pre ed to learn that they were to sit with their clothing on. One of Mr. Gibson's most useful models is Miss Minnie Clark, a New York girl, whose graceful figure and refined, beautiful face have appeared in many of the artist's pictures.

Mr. Gibson, who has been called the American Du Maurier-although Du Maurier's women are wooden beside the flesh and blood creations of Gibson-was born and never talks "shop" unless asked to do and never talks 'shop' unless asked to do so. He uses many of his good looking friends as models, and Richard Harding Davis has posed at different times as a cherry hill (New York) tough, a gamble of the cheviots will be in wide diagonal to the cheviots of great variety will be more where the cheviots will be in wide diagonal to the cheviots of great variety will be more and four that will eclipse in magnificence and four that will eclipse in magnificence and the cheviots will be in wide diagonal to the cheviots of great variety will be more and four that will eclipse in magnificence and the cheviots will be in wide diagonal to the cheviots of great variety will be more and four that will eclipse in magnificence and the cheviots will be in wide diagonal the cheviots will be in wide diagonal to the cheviots of great variety will be more and four that will eclipse in magnificence and the cheviots will be in wide diagonal the cheviots will be in wide diagonal to the cheviots of great variety will be more and to the cheviots of great variety will be more and to the cheviots of great variety will be more and to the cheviots of great variety will be more and to the cheviots of great variety will be more and to the cheviots of great variety will be more and to the cheviots will be more and to the cheviots of great variety will be more and to the cheviots of great variety will be more and the cheviots will be in wide diagonal to the cheviots of great variety will be more and the cheviots of great variety will be more and the cheviots of great variety will be more that plain black camel's hair and the cheviots of great variety will be more and the cheviots of great variety will be more that plain black camel's hair and the cheviots of great variety will be more that plain black camel's hair and the cheviots of great variety will be more that plain black camel's hair and the cheviots of great variety will be more than the cheviots of great variety will be more that plain black camel's hair and the cheviots of great varie offer inferior medicines in place of this.
